37TH ANNUAL UC DAVIS INFECTIOUS DISEASES CONFERENCE

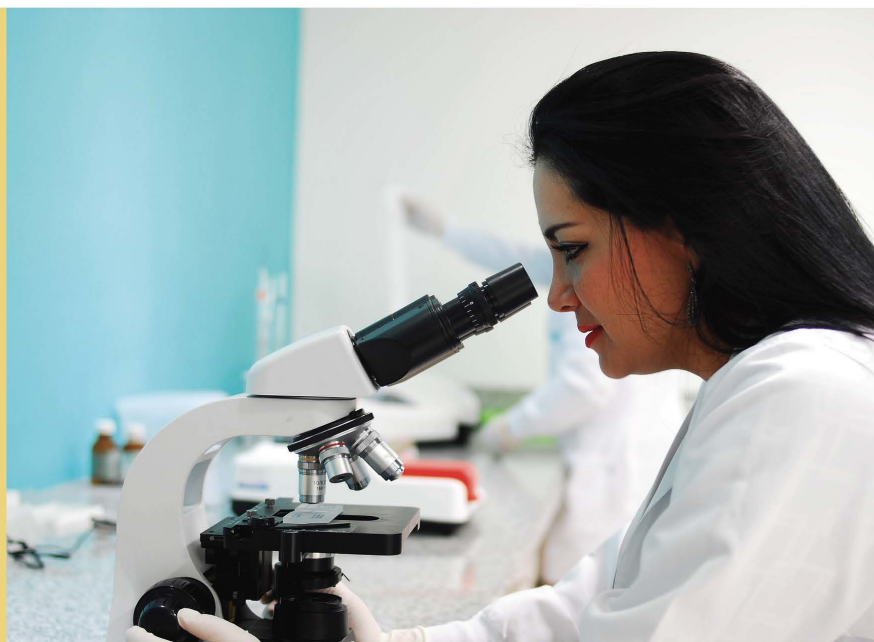

Friday - Saturday

January 25-26, 2019

Kimpton The Sawyer - Sacramento, CA

HIGHLIGHTS

- Laboratory exercises designed to simulate clinical experience with the use of the microbiology laboratory and the management of cases seen in practice.
- Course of workshop sessions for practical small group discussions of a variety of clinical issues.
- Focus on case-based learning as an important approach to clinical education.
- Recognize the recent controversies in the diagnosis, treatment and prevention of *Clostridium difficile* infection.
- Define the issues regarding management of patients with HIV infection.
