Messages from Conference Presidents

Prof. Ferid Murad (Nobel Laureate)
Co-President GBC 2016

The 'Global Biotechnology Congress 2016' would provide eminent scientists the opportunity to present their cutting edge researches in the field of biotechnology and its applications in medicine. A number of Nobel Laureates and leading researchers are expected to participate in this important conference.

Prof. Dr. Atta-ur-Rahman, FRS
Co-President GBC 2016

I would like to welcome the participants to GBC. This should be an exciting event since the leading authorities in their respective fields have agreed to present their latest works during the conference. A large number of students will also be participating in it which should be very educational for them.

Introduction to Global Biotechnology Congress 2016

August 22nd - 25th, 2016, Boston, USA

Global Biotechnology Congress 2016 will for researchers and decision makers in biotechnology to present their latest findings and to learn about all the important developments in biotechnology. Nobel Laureates and many world renowned experts will participate in the conference.

The conference will cover the translational nature of biotechnological research, with emphasis on both the basic science as well as its applications in industry and academia. Presentations will include latest researches in pharmaceutical biotechnology (e.g. vaccines, CNS, cancer, antibodies), medical biotechnology, industrial biotechnology, bioprocess engineering, protein engineering, plant and environmental technologies, transgenic plant and crops, bioremediation and microbial diversity research, business development, strategic alliances, partnering trends, product opportunities, growth, business models, strategies and licensing.

Throughout the course of the four days conference, Participants will have the opportunity to both network and hear leaders from the international academic and corporate biotechnology communities.

The conference is being organized by Eureka Conferences, Inc., and will focus on the interdisciplinary fields of biotechnology.

Who Should Attend

The conference will attract to a targeted group of scientists and senior international decision makers.

Delegates will have a valuable, informative and positive experience.

- Biotechnologists
- Pharmaceutical Scientists
- Food, Environmental and Plant Scientists
- Clinicians
- CEOs, CROs, directors and research associates from the biotechnology industry and academia

Tracks of the GBC 2016 Conference

The conference will encompass the following subjects including:

Pharmaceutical Biotechnology: Biopharmaceuticals Discovery (CNS, cancer, cardiovascular, endocrine, immune, systems biology); Vaccines; Antibodies; Protein Engineering; Bioinformatics; Clinical Research/Clinical trials.

Plant and Environment: Transgenic Plants and Crops; Bioremediation; Microbial Diversity; Bio-monitoring; Photosynthetic Microorganisms; Cyanobacteria and Microalgae; Translational Genomics and Genomics-assisted Breeding.

Industrial and Manufacturing: Bio-fuels; Energy Crops (cellulosic ethanol industry); Industrial Enzymes; Bioprocess Engineering and Optimization.

Medical Biotechnology: Biopharmaceutical Manufacturing; Diagnostics; Imaging; Pharmacogenomics (personalized medicine); Microarray Technology; Biomarkers; Clinical Research/Clinical trials.

Business Development: Strategic Alliances; Partnering Trends; Product Opportunities; Growth; Business Models and Strategies; Licensing; Merger and Acquisitions; Outsourcing; Venture Capital and Financing; Intellectual Property.

Regenerative Medicine: Stem Cells; Gene Therapy; Tissue Engineering; Cell Based Therapy; Cell Cultivation; Clinical Research/Clinical trials.

Marine Biotechnology: Environment Applications of Marine Biotechnology; Marine Natural Products; Bio products and Bioactive Compounds; Marine Microbiology and Biodiversity; Marine-based Drug Discovery & Development; Genomics and Proteomics of Marine Organisms; Aquatic Microbial Ecology.

Food Biotechnology: Food Microbiology; Recombinant DNA Techniques; Indigenous Food Production; Fermentation Processes; GM Foods; Human Nutrition and Metabolism; Food Safety; Current Status and Future Prospects of Food Biotechnology.

Bio-Safety and Bioethics: Biosafety Regulations; Intellectual Property Rights; Ethical Issues of Human Genome Project, Organs Transplantation and Stem Cell Research; Handling and Disposal of Hazardous Materials.

Nano biotechnology: Disease Diagnosis; Drug Delivery; Biosensors; Nanofabricated Devices; DNA Nano biotechnology; Lipid Nanotechnology; Future prospects of Nanobiotechnology.

Tracks Descriptions

Pharmaceutical Biotechnology

Pharmaceutical biotechnology has emerged as one of the major disciplines for drug discovery and development. Pharmaceutical Biotechnology contributes to the design and delivery of new therapeutic drugs, the development of diagnostic agents for medical tests, and the introduction of gene therapy for correcting the medical symptoms of hereditary diseases. The societal implications of Pharmaceutical Biotechnology are similarly widespread, ranging from many ethical issues of identifying and treating various hereditary diseases, to changes in healthcare practices and a significant contribution to national economic development. Advances in recombinant genetics facilitate the routine cloning of genes and the creation of genetically modified organisms that can be used in industrial production.

Plant and Environment Plant Biotechnology

Plant biotechnology research is currently well underway to produce innovations in crops such as: Seeds that grow better in drought conditions or in soils with excessive water, seeds that can grow in high salinity soils which would not normally allow healthy plant growth, seeds for crops that can better withstand viral and insect diseases and improve nitrogen use in plants so that fewer applications of fertilizer need to be made. Plant biotechnology provides numerous benefits to farmers, the environment and to consumers. Such as:

- Control threats to productivity such as weeds, insects and disease.
- Reduce or eliminate the use of tillage to control weeds which significantly enriches soil and reduces erosion.
- Produce higher yields from the land currently in production.

On the other hand, Environmental Biotechnology utilizes the biochemical potential of microorganisms and plants for the preservation and restoration of the environment. It promotes sustainable and efficient use of natural resources like fungi, plants, algae, and bacteria in the industrial processes. Our biological systems have the capability to absorb and control pollutants like free carbon sources from our environment and keep our surroundings clean and green. Integrated with the industrial processes, it helps in forming a balanced industrial framework that has better efficiency, makes better use of natural resources, and also keeps our environment green. Green manufacturing technologies and sustainable development are the key issues that environmental biotechnology addresses.

Industrial & Manufacturing Bioprocess

Biotechnological processes are now being applied on a large-scale in manufacturing industries, not only for biological products, but also for fuel production. Today, computer controlled bioreactors are used to aseptically produce large quantities of important biologicals such as amino acids, recombinant proteins, antibiotics or viral vaccine. Many of the existing pharmaceuticals as well as potential new drugs are produced in eukaryotic cells, which show poor productivity compared to conventional fermentation processes. This track, therefore, covers the important aspects of industrial biotechnology such as manufacturing Bio-fuels; Energy Crops (cellulosic ethanol industry); Industrial Enzymes; Bioprocess Engineering and Optimization.

Medical Biotechnology

Most medical biotechnologists work in academic or industrial settings to produce pharmaceutical and diagnostic products that help treat and prevent human diseases using live cells. These trends have given rise to biopharmaceutical products with extremely limited production runs, highly specific manufacturing requirements, and genotype-specific products. This is practically applied in important medical aspects such as; in pharmacogenomics to design personalized medicine using genomic information to study individual responses to drugs; in diagnostic techniques and procedures to identify the cause of an illness or disorder. Several important methods are being used including microarray technology, biomarkers, and clinical trials and researches. This track covers the basic and applied aspects of medical biotechnology, including biopharmaceutical manufacturing; diagnostics; imaging; pharmacogenomics (personalized medicine); microarray technology; biomarkers; clinical research clinical trials.

Business Development

Business development involves a number of tasks and processes generally aiming at developing and implementing growth opportunities within and between organizations. It also refers to setting up and managing strategic relationships and alliances with other, third-party companies. Business-development focuses on implementation of the strategic business plan through equity financing, acquisition/divestiture of technologies, products, and companies, plus the establishment of strategic partnerships where appropriate.

This conference provides an exclusive platform to learn, network and discuss collaboration opportunities. Decision makers from innovative biotechnology firms can meet to share ideas and strategies to identify new business opportunities-whether that means new markets, new partnerships with other businesses, new ways to reach existing markets, or new product or service offerings to better meet the needs of existing markets-and then exploit those opportunities to bring in more revenue.

The track comprises of Strategic Alliances; Partnering Trends; Product Opportunities; Growth; Business Models and Strategies; Licensing; Merger and Acquisitions; Outsourcing; Venture Capital and Financing; Intellectual Property.

Regenerative Medicine

Regenerative medicine deals with recent advances and current challenges in tissue engineering and regenerative medicine: from the understanding of the cellular microenvironment; to the design, making, and monitoring of scaffold materials and engineered tissues; to the healing of body tissues and organs.

The scientific program of the conference will be divided into different sessions such as Stem Cells; Gene Therapy; Tissue Engineering; Cell Based Therapy and Cell Cultivation.

Marine Biotechnology

Marine biotechnology is the creation of products and processes from marine organisms through the application of the techniques of biotechnology, molecular and cellular biology, and bioinformatics. This is a scientifically fascinating and economically expanding field of science. No ecosystem provides greater genetic diversity or possibilities for new products and processes than the world's marine environments. Marine organisms, from bacteria to eukaryotes, are certainly a source of molecules of great interest in biotechnology. Today, marine biotechnology has numerous applications from the production of lifesaving drugs to better food and conservation of organic waste. Biologically active compounds from marine organisms can have a broad range of applications in the medical, agricultural, environmental and industrial sectors. These include bone-grafting, skin care products, bioremediation, biofouling control, restoration of marine habitats, environmental monitoring for disease outbreak, resource management, insecticides and treatments for cancer, microbial infections and other medical issues

Food Biotechnology

The inclusion of novel traits potentially offers increased agricultural productivity, or improved quality and nutritional and processing characteristics, which can contribute directly to enhancing human health and development. From a health perspective, there may also be indirect benefits, such as reduction in agricultural chemical usage, and enhanced farm income, crop sustainability and food security, particularly in developing countries.

Biotechnology is also widely employed as a tool in diagnostics in order to monitor food safety, prevent and diagnose food-borne illnesses and verify the origins of foods. Techniques applied in the assurance of food safety focus on the detection and monitoring of hazards whether biological, chemical or physical.

Biosafety and Bioethics

Biosafety and Bioethics focus on the policies and procedures adopted to ensure the environmentally safe application of modern biotechnology in agriculture, medicine, and the environment and ethical issues associated with life.

The track will be covering the hot areas in the field like Biosafety Regulations; Intellectual Property Rights; Ethical Issues of Human Genome Project, Organs Transplantation and Stem Cell Research; Handling and Disposal of Hazardous Materials.

Nano biotechnology

Nanobiotechnology research encompasses an extremely diverse group of scientists working in the fields of physical sciences, life sciences and medicine. The future prospects of nanobiotechnology are very bright, as it directly concerns the quality, comfort and better health of the masses. A number of academic institutions, R&D labs and industries are likely to come up.

The conference track involves employing Nanoparticles for Drug Delivery, Disease Diagnosis, Nanofabricated Devices, DNA Nano biotechnology, Lipid Nanotechnology and Future Prospects.

Benefits Offered

- ✓ Exchange ideas and networking with leading biotechnologists and decision makers.
- ✓ Bring together top international biotechnology professionals presenting cutting-edge discoveries, researches and opportunities for new biotech business practices and partnerships.
- ✓ Obtain a global roundup of pharmaceutical research capabilities and opportunities.
- ✓ The conference will feature a commercial exhibition and poster sessions.

Call For Papers

Abstracts submitted for the plenary lectures, invited lectures, session lectures and posters presentation will be reviewed on the basis of scientific merit, novelty and practical application.

Submit your abstract of maximum 200 words, written in English, including the title, principal author, additional authors and all the contact details (organization, mailing address, email, phone, fax and postal code).

To present a poster, registration as a delegate is mandatory.

Join us in Boston, USA in August 2016 to share your research and network with fellow academic and industry researchers.

For further details, please contact by email at : info@globalbiotechcongress.com.

To participate, submit your abstracts latest by July 22nd 2016

Poster Size & Preparation

In order to efficiently communicate the results of your research to the viewers, you are kindly requested to exert considerable efforts to design your poster. Please pay attention to details by carefully following the instructions outlined below and on adjoining page:

Important Information Sample of Poster

EQUIPMENT FOR POSTER DISPLAY

- ✓ A large display board giving a display area of approximately 180 cm wide x 100 cm high will be provided for your poster display. Please refer to the website for more details at www.globalbiotechcongress.com.
- ✓ Please note that individual pieces of paper should be pre-mounted onto one large piece of paper or card.
- ✓ The poster display boards are made of melamine, therefore they are compatible with double side tape and adhesive Velcro. Fixers will be provided to all poster presenters at the Conference. Volunteers will be on-site to assist you as needed.
- ✓ A header panel with your poster number will be provided and will only be visible on the morning your poster is due to go up. Please ensure that your poster title and authors as stated on the submitted abstract are printed on your poster.
- ✓ Please refer to the Final Program Book that you will receive upon your arrival at the Conference for the poster board number assigned to you.
- ✓ Please use the board with the same number.

CONTENT

- ✓ Make your title short to summarize the message of the research.
- ✓ Do not include references unless it is imperative.

LAYOUT

- ✓ Try to avoid using several A4 sheets. Please note that individual pieces of paper should be pre-mounted onto one large piece of paper or card.
- ✓ Use just one or two colors on a plain (pastel) colored background.
- ✓ Put the conclusions in a prominent panel (preferably at the bottom of the poster).

FONT

- ✓ Poster body text must be readable from 2 meters (with possible exception of references) and the title from 4-5 meters.
- ✓ Avoid using capital letters except at the beginning of sentences and proper nouns.
- ✓ Use a black sans serif font e.g. Arial or Gill Sans throughout.
- ✓ Use a bolder, larger typeface for the main titles and headings. It can be effective to use a different typeface for headings and subheadings.
- ✓ To emphasize body text, use a bold or italic font.
- ✓ Check the draft of your poster very carefully to ensure that there are no typographical or style errors.

DISPLAY, PRESENTATION AND REMOVAL TIMES

- ✓ All posters should be on display throughout the day.
- ✓ Poster presenters should refer to the list of poster presentations in the program for their board numbers.
- ✓ Poster presenters are requested to be present at their designated poster board(s) during breaks and poster sessions to answer questions.
- ✓ Remove your poster after each session. The Organizing Committee will not be responsible for posters that are not removed by the end of each session.
- ✓ We would like to thank you in advance for your valuable contribution to this Conference.
- ✓ Do not hesitate to contact the Conference Secretariat at the address below should you require any assistance before or during the Conference.

Conference Secretariat

Global Biotechnology Congress 2016
Web: www.globalbiotechcongress.com
Email: info@globalbiotechcongress.com

About the Hosts

Eureka Conferences, Inc.

An international publishing and event management specialist, *Eureka Conferences, Inc.*, offers a range of services to its clients varying from individuals to large multinational corporations, strengthened by core values of quality, efficiency and client service.

Event Management Services

Equipped with a full-fledged Event Management Division, *Eureka Conferences* offers a complete solution for the management and marketing of conferences and symposia from lining up resource persons and participants in disciplines of science, social science and humanities to promotional activities and managing funds. Eureka Science can assist in:

- Development of the Idea
- Following up Post-Event Matters
- Management of the Full/Partial Event

Conference Organization

Conference organization includes but is not limited to:

- Communication
- Exhibition Sales & Management
- Event Marketing Services & Press Release (PR)
- Fund Management and Sponsorships
- Housing Services/Venue Location
- Program Administration & Management
- Payment & Fee collection (both online & offline)
- Preparation of Delegate Packs & Badges
- Preparing Conference Documents
- Quality Control
- Registration Services / Delegate Registration (both online & offline)
- Technical and AV Support
- Transportation
- Value Added Event Management and Production
- Web site Designing & Maintenance

Exhibition and Sponsorship Management

Prospective exhibitors are offered the following services:

- Advice and assistance for exhibition and sponsorship opportunities
- Booking exhibition and sponsorship space
- Budgeting, finance and accounts
- Direct communication with registered exhibitors
- Email and direct contact with potential exhibitors/sponsors
- Identifying potential exhibitors and sponsors
- Identification and development of a client database in direct collaboration with the organizers
- Logistics solutions
- Managing direct mailing
- On-site assistance for exhibitors
- Preparing sponsorship and exhibition contracts / sponsors
- Production and handling of exhibitors manual
- Practical organization for exhibitors: hotel recommendation/reservation, coffee breaks, lunches, dinners and social programs
- Production and handling of exhibitors manual
- Venue search & site inspection: preparing floor plans and exhibition space distribution
- Web design and website maintenance: floor plan and list of exhibitors

Publishing Services

Our experience and expertise in Publishing and related ancillary Information Technology fields ideally place us to convert your concepts and ideas into reality.

Publishing services include but are not limited to:

- Pre-Publishing (Editing, Proofreading)
- Desktop Publishing (Composing, Graphics, Printing, Online Publishing)
- Post-Publishing (Indexing, Distribution)
- E-Publication (Website Designing, Data Conversion, CD ROM Publishing)

Contact

Eureka Conferences, inc. One Boston Place
26th Floor Boston, MA, 02108 United States

Email: info@globalbiotechcongress.com
or hasinahabib@eurekaconference.com

Fax: +1-857-2398801 & +1-617-619 9429

Conference Venue & Other Details

MEETING VENUE

John B. Hynes Veterans Memorial
Convention Center

★ DATES

Monday, August 22nd – Thursday, August 25th, 2016

★ LANGUAGE

The medium of Conference is English and no simultaneous translation will be provided.

★ CLIMATE

Boston has a mild climate in August and temperature ranges between 18°C- 26°C (65°F - 80°F). Rainfall is possible.

★ BADGES

All participants, registered accompanying persons and exhibitors are kindly requested to wear their badges during the conference in order to be admitted to the venue and other scheduled activities.

★ BANKING AND EXCHANGE

- The official currency in USA is Dollars(\$).
- Banking days are Monday to Friday 08:00 am - 14:00 pm. Note the weekend here is Saturday & Sunday.
- Automated cash dispensers are located outside every bank and other areas and cash can be withdrawn 24 hours a day.
- Foreign currency may be changed at banks, hotels, airports and in exchange offices.
- All major credit cards are accepted in most of the hotels, restaurants and shops.

★ LIABILITY AND INSURANCE

The organizers are not liable for any injury or damage involving people and property during the conference. Participants are advised to take out their own personal travel and health insurance with them for their trip.

Disclaimer/Indemnity

Eureka Conferences, Inc. is hosting the Global Biotechnology Congress 2016. Eureka Conferences, Inc. in its sole discretion at any time, reserves the right to postpone or cancel (in full or in part) any or all of the Conference and/or modify the list of speakers at the Conference. Where Eureka Conferences, Inc. cancels the Conference in full, it shall refund a maximum of seventy-five percent (75%) of the registration monies paid by you to attend or exhibit at the Conference. Notwithstanding the above, in no event shall Eureka Conferences, Inc. or any of its partners, officers, employees, agents or affiliates be liable, directly or indirectly, under any theory of law (contract, tort, negligence or otherwise), to you or anyone else, for any claims, losses or damages, direct, indirect, special, incidental, punitive or consequential, resulting from or occasioned by its right to postpone or cancel the Conference or modification to the list speakers at the Conference. The information and the presentations given at the Conference is for general information only and does not constitute any type of advice, financial, business, legal or otherwise. Eureka Conferences, Inc. makes no representations or warranties of any kind, express or implied, as to the content expressed in the presentations, or as to the correctness, accuracy, reliability or otherwise of such content. In no event shall Eureka Conferences, Inc. or any of its partners, officers, employees, agents or affiliates be liable, directly or indirectly, under any theory of law (contract, tort, negligence or otherwise), to you or anyone else, for any claims, losses or damages, direct, indirect, special, incidental, punitive or consequential, resulting from or occasioned by your use of or reliance on any of the content contained within the presentations. You are fully responsible for all acts, decisions and/or lack thereof arising from your decision to register and attend the Conference whether as a participant or an exhibitor.

General Information

VISA REQUIREMENT:

Participants are requested to check with the US Consulate in their home country or with their travel agency for visa requirements. It is the responsibility of the participant to obtain a visa, if required.

TRANSPORTATION IN THE CITY:

Boston offers a variety of transportation modes for residents and visitors alike to navigate in and around the city.

Bus:

There are scheduled buses available at bus stations which can be conveniently found all over Boston.

Taxi:

Taxis are available outside the arrival gate, at the air port.

The journey to the city center takes approximately 20/30 minutes depending on the traffic and costs approximately USD 10-15.

Exhibition:

A commercial exhibition will take place within the framework of the Conference.

SPONSORSHIP & EXHIBITION SALES & LIAISON:

Contact: exhibition@globalbiotechcongress.com

ORGANIZING SECRETARIAT:

Contact: info@globalbiotechcongress.com or mahmood@globalbiotechcongress.com

About Boston, USA

Boston, first incorporated as a town in 1630 and as a city in 1822, is one of America's oldest cities, with a rich economic and social history. What began as a homesteading community eventually evolved into a center for social and political change. Boston has since then become the economic and cultural hub of New England. As the region's hub, Boston is home to over 617,000 residents, many institutions of higher education, some of the world's finest inpatient hospitals, and numerous cultural and professional sports organizations. Boston-based jobs, primarily within the finance, health care, educational, and service areas, numbered nearly 660,000 in 2002. Millions of people visit Boston to take in its historic neighborhoods, attend cultural or sporting events, and conduct business.

Population

617,594 (Official Estimate from U.S. Census Bureau, March 2011)

Climate

Boston has a mild climate in August and temperature ranges between 18°C-26°C. (65°F-80°F)
Rainfall is possible.

Neighborhoods

While many cities are defined by their skylines, Boston is distinguished by its vibrant neighborhoods. Indeed, Boston's strength, diversity and vitality are all rooted in her neighborhoods, where neighborhood pride and cultures from all over the world are cherished and celebrated. Although each neighborhood has its own personality and distinct appeal, all of the neighborhoods demonstrate Boston's changing face, as this historic capital has become a magnet for all of the world's citizens.

Landmarks

- **The John F. Kennedy Presidential Library and Museum** is the presidential library and museum of the 35th President of the United States, John F. Kennedy. It is located on Columbia Point in the Dorchester neighborhood of Boston, Massachusetts, USA, next to the Boston campus of the University of Massachusetts and the Massachusetts Archives.

- **The Museum of Science** is a Boston, Massachusetts landmark, located in Science Park, a plot of land spanning the Charles River. Along with over 500 interactive exhibits, the Museum features a number of live presentations throughout the building every day, along with shows at the Charles Hayden Planetarium and the Mugar Omni IMAX theater, the only domed IMAX screen in New England.

- **The Harvard Bridge** (also known locally as the MIT Bridge, the Massachusetts Avenue Bridge, and the "Mass. Ave." Bridge) is a steel haunched girder bridge between Back Bay, Boston to Cambridge, Massachusetts, USA, carrying Massachusetts Avenue (Route 2A) over the Charles River. It is the longest bridge over the Charles River at 659.82 meters. It is locally known for being measured, inaccurately, in the idiosyncratic unit of length called the smoot.

Recreation

Boston offers a wide array of recreational opportunities including golfing, canoeing, sailing, skiing, fishing, kayaking, whale watching, bowling, and skating.

Registration Form

Please use CAPITAL letters!

Title: Prof. /Dr. /Mr. /Mrs. /Ms. _____

First Name: _____ Middle Name: _____ Last Name: _____

Company: _____

Mailing Address: _____

Zip Code: _____ City: _____ Country: _____

Phone: _____ Cell Phone: _____ Home Phone: _____

Fax: _____ E-Mail: _____

Accompanying Person (*Only paying accompanying persons will be registered*)

First Name: _____ Middle Name: _____ Last Name: _____

Special Instructions for Speakers/Poster Presenters: Delegates interested in registration as Plenary, Keynote, Invited, Session Speakers or Poster Presenters are requested to submit their abstracts for review before registration. Please send your abstract to info@globalbiotechcongress.com or info@eurekaconference.com, **clearly stating the name of the conference**, for evaluation by the Advisory Board. Alternatively, you can also submit the abstract online below.

Instructions for Registrants

1. All **Nobel Laureates, Plenary Speakers, Keynote Speakers** and **Invited Speakers** will registered by the Organizing Secretariat.
2. All **Session Speakers, Poster Presenters** and **Delegates** will need to register themselves online (<https://www.eurekaconferenceregistration.com/gbc2016/>). Registrants from universities and other educational institutions will fall in the 'Academic' category. While those from the pharmaceutical companies, hospitals, etc. will be enrolled in the 'Corporate' category.
3. **Students** –Students from academia may also register at a preferential student rate, provided a copy of their student status/ID is submitted along with their registration form.
4. **Accompanying Person** may use the registration category (Academic or Corporate) of the principal applicant. They will have access to all facilities availed by the principal applicant after registration.

Registration information

How to Register:

Please register on-line. Alternatively, please print this PDF version of the registration form, complete it, scan it and e-mail it to: registration@eurekaconference.com or fax it back to +1-857-239-8801. As soon as your payment is processed, you will receive a confirmation with a registration number. Expected processing time is 7 days. Once you have the registration number you can proceed for hotel booking on the 'Travel and Accommodation' page or by clicking the BOOK NOW button on the conference website.

Registration Form

Final Deadline for Registration:

Registration forms received after 16th July 2016 will be processed as on-site. Also there will be no guarantee that their abstract and name will be included in the printed list of delegates and abstract book.

Cancellation & Refund Policy for Registration:

1. Notification of cancellation, **clearly stating the name of the conference**, must be made in writing and sent to registration@eurekaconference.com.
2. Before 16th July 2016, a refund will be made after deduction of 25% as administrative fee.
3. Between 16th July and 15th August 2016, a refund will be made after deduction of 50% as administrative fee.
4. After 15th August 2016, no refund will be possible.

All refunds will be made within 60 days post conference after the applicable deduction.

Registration fee: All in US Dollars (US\$)

S. No.	Registration Type	Early Bird Registration Expires on 15 th June 2016	After 15 th June 2016 to 15 th July, 2016	16 th July 2016 to 22 nd August, 2016 (Onsite)
1.	Students (Special students four day rates if register before 28 th February 2016)	\$450	\$500	\$550
2.	Accompanying Person (Academic)	\$400	\$450	\$600
3.	Accompanying Person (Corporate)	\$400	\$450	\$600
4.	Session Speaker Academic	\$790	\$990	\$1090
5.	Session Speaker Corporate	\$1390	\$1590	\$1690
6.	Invited Speaker Academic	\$790	\$990	\$1090
7.	Invited Speaker Corporate	\$1390	\$1590	\$1690

I hereby authorize the debit to my VISA, MasterCard or AMEX Account in favor of Eureka on behalf of Eureka Conferences, Inc. I

hereby confirm that I have read and agree to the terms and conditions above.

Eureka Conferences, Inc. is hosting the Global Biotechnology Congress 2016. Eureka Conferences, Inc. in its sole discretion at any time, reserves the right to postpone or cancel (in full or in part) any or all of the Conference and/or modify the list of speakers at the Conference. Where Eureka Conferences, Inc. cancels the Conference in full, it shall refund a maximum of seventy-five percent (75%) of the registration monies paid by you to attend or exhibit at the Conference. Notwithstanding the above, in no event shall Eureka Conferences, Inc. or any of its partners, officers, employees, agents or affiliates be liable, directly or indirectly, under any theory of law (contract, tort, negligence or otherwise), to you or anyone else, for any claims, losses or damages, direct, indirect, special, incidental, punitive or consequential, resulting from or occasioned by its right to postpone or cancel the Conference or modification to the list speakers at the Conference. The information and the presentations given at the Conference is for general information only and does not constitute any type of advice, financial, business, legal or otherwise. Eureka Conferences, Inc. makes no representations or warranties of any kind, express or implied, as to the content expressed in the presentations, or as to the correctness, accuracy, reliability or otherwise of such content. In no event shall Eureka Conferences, Inc. or any of its partners, officers, employees, agents or affiliates be liable, directly or indirectly, under any theory of law (contract, tort, negligence or otherwise), to you or anyone else, for any claims, losses or damages, direct, indirect, special, incidental, punitive or consequential, resulting from or occasioned by your use of or reliance on any of the content contained within the presentations. You are fully responsible for all acts, decisions and/or lack thereof arising from your decision to register and attend the Conference whether as a participant or an exhibitor. The organizers are not liable for any injury or damage involving persons and property during the conference. Participants are strongly advised to take out their own personal travel and health insurance for their trip.
