Robert D Marus, DDS, AAACD, FICD

Dr. Robert Marus of Yardley, Pennsylvania, is a graduate of NYU College of Dentistry, receiving his dental degree in 1985 and completing his residency at The Jamaica Hospital in New York. He holds membership in The American Academy of Cosmetic Dentistry, The American Dental Association, The Pennsylvania Dental Association and the Montgomery-Bucks Dental Society and is a Fellow of the International College of Dentists. Dr. Marus is accredited by the American Academy of Cosmetic Dentistry. He is one of five dentists in the state of Pennsylvania to receive this honor and one of 500 internationally. Dr. Marus currently lectures to dentists on techniques in cosmetic dentistry and has been published in numerous national and international publications. He has been a Dentistry Today Leader in Continuing Education from 2011 to 2024 as well as a Philadelphia Magazine Top Doc in Cosmetic Dentistry since 2017. Dr. Marus has been featured as the cosmetic dentist on the CN8 television show "It's Your Call", hosted by Emmy-Award winner Lynn Doyle airing nationally on the Comcast Network.

Cosmetic Dentistry for the Restorative Practice

Today's restorative dentists need to enhance their cosmetic skills in order to achieve growth and profitability in their practices. This lecture will demonstrate (hands-on) a simplified method of restoring the fractured maxillary anterior central incisor with composite resin using the intraoral composite mock-up technique creating an imperceptible restoration. Additionally, as a result of the latest composite technology, dentists can now quickly, easily and predictably treat posterior teeth, cervical (abfraction) lesions and incisal wear with beauty, strength and function beyond patient expectations. Improvements in composite polymerization shrinkage, reduction of internal stress and occlusal wear, have made composite material a great aesthetic option. This lecture will also demonstrate, in a step-by-step fashion, how to place posterior composites quickly and easily, so that an aesthetic result with a high success rate and predictable outcome can be achieved. Finally, the predictably cementation of Zirconia restorations will be explained.

Topics that will be covered include

1. Learn how to quickly treat the classic fractured anterior tooth with a simplified composite layering technique.
2. How to incorporate a Simplified Unishade Composite System into your practice.
3. Learn how to place sensitivity-free posterior composites quickly, with sealed sub-gingival margins
4. Learn how to use high strength low-wear injectable composite to treat incisal and occlusal wear.
5. Learn how to place composite in cervical (abfraction) lesions so that they don't fall out. A great practice builder and an untapped resource in your practice!
