WE MAKE
A LASTING

IMPACT

2025 PRELIMINARY GUIDE

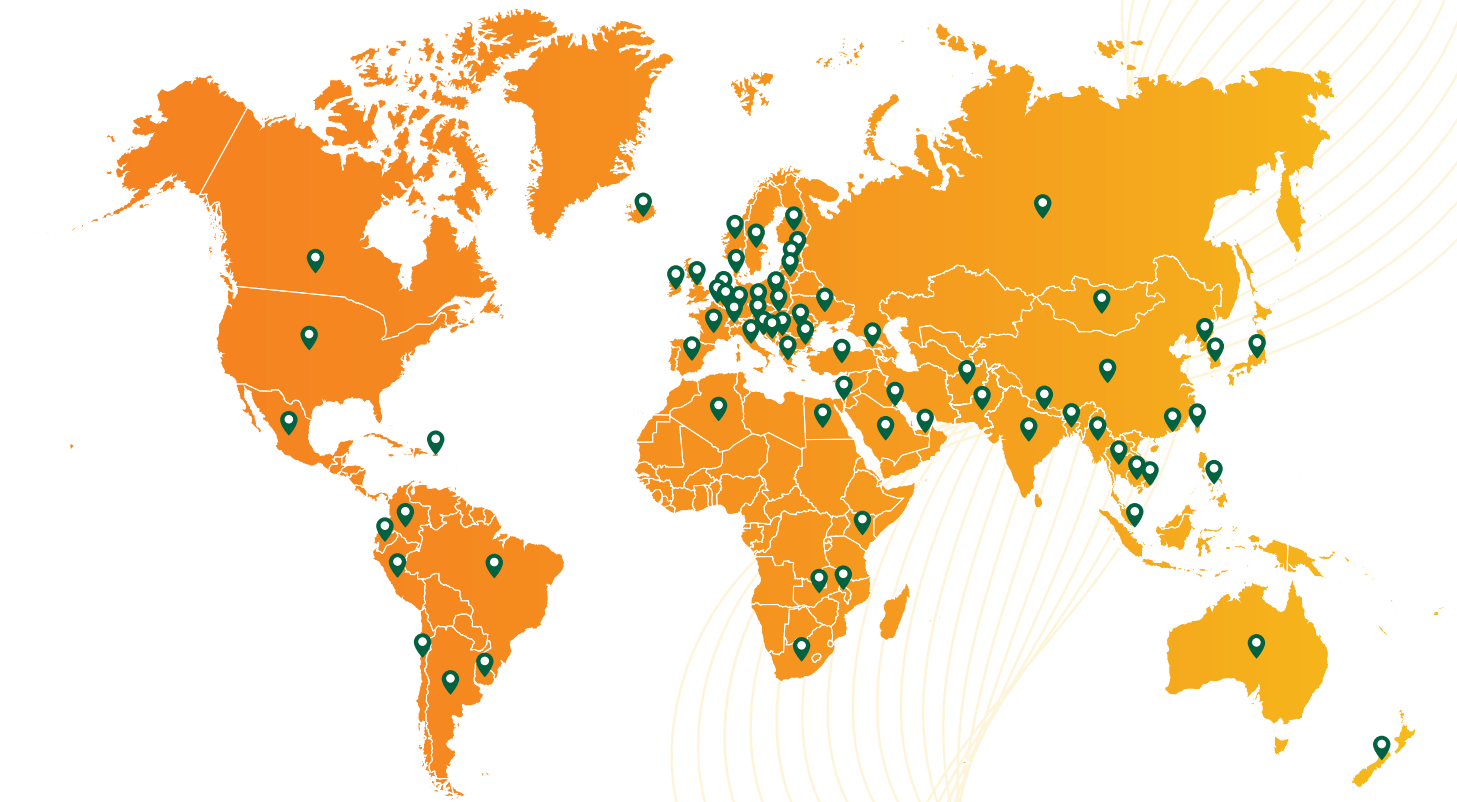

NOVEMBER 7-11

● Washington, DC

● www.aasld.org/the-liver-meeting

DISCOVER THE IMPACT

In 2024, The Liver Meeting hosted almost **9,000 attendees** from over **90 countries**.

MARK YOUR CALENDAR!

The Liver Meeting is scheduled for November 7-11 in Washington, D.C., and registration deadlines are now confirmed.

WEDNESDAY, JULY 16

Registration Opens
for AASLD Members

WEDNESDAY, JULY 23

General Registration
Opens

WEDNESDAY, AUGUST 27

Early Bird
Registration Deadline

WEDNESDAY, OCTOBER 8

Regular Registration
Deadline

FOR ADDITIONAL REGISTRATION RATES AND HOTEL INFORMATION, FLIP TO PAGE 20.

OUR IMPACT REFLECTS YOUR COMMUNITY

> THE ONE MEETING THAT CHANGES EVERYTHING

With an average of 20% of first-time attendees, you will see the impact of people like you by establishing connections with hepatology enthusiasts and leaders. Solidify your place in our vibrant, supportive community.

> JOIN THE GLOBAL CONVERSATION ON LIVER DISEASE

The Liver Meeting is addressing liver disease from a global perspective by focusing on public health policies, epidemiology, and efforts to reduce the burden of liver disease worldwide. Experience the impact with meeting with researchers and leaders guiding the way.

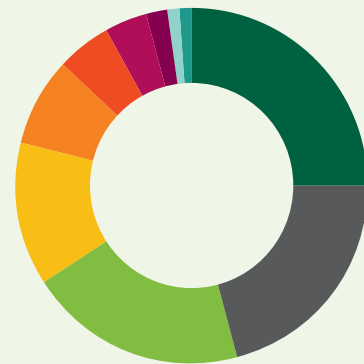

> MEET YOUR MENTOR, FIND PEERS, AND DISCOVER YOUR PATH

Engage with a community of liver disease professionals who are ready to motivate and inspire you to advance in the field. Make an impact at the meeting to be seen at this fall.

> TAKE THE NEXT STEP IN ADVANCING LIVER HEALTH

Maximize your time with focused sessions tailored to deepen your knowledge by addressing real-world challenges in liver disease management. Your dedication to advancing patient care creates an impact with real benefits.

In 2024, professionals including clinicians, researchers, and allied health providers came together to maximize their impact on hepatology. Their areas of focus were:*

- 25% Patient Care/Clinician
- 20% Clinical Research
- 13% Pharma/Industry Representation
- 8% Basic Research
- 5% Translational Research
- 4% Education Training
- 2% Other
- 1% Surgery
- 1% Administration

**Percentages may not total 100% due to the exclusion of "Other/No Response" submissions.*

POSTGRADUATE COURSE: A LIFETIME OF LIVER HEALTH

The Postgraduate (PG) course is held on **Friday, November 11** and with each of the four parts comprised of three 20-minute scientific discussions followed by 30-minute panel discussions.

This year's PG Course is designed to guide how we approach patients and their liver care by considering not only their current stage in life, but also their medical history and future health needs. By reframing liver care and teaching through the lens of a patient's entire lifetime—genetics, environment, medical history, medications, and exposures—the session will explore age-specific factors, disease progression, screening, extrahepatic contributions, and treatments as part of the continuum.

Through speaker insights, the Course aims to enhance how providers plan and deliver optimal liver-centric health at every stage of life.

Earn
7.0
CME Credits

FROM INSIGHT TO IMPACT

After attending AASLD's Postgraduate Course, attendees will:

1. Characterize and compare the stages and approaches to viral, cholestatic and metabolic liver disease over the lifetime of liver disease patients.
2. Understand the contributors to liver disease in adults from genetic and acquired contributions during pregnancy, childhood and young adulthood.
3. Understand the extrahepatic manifestations of health in patients with liver disease, including diet, endocrine, alcohol use and the kidney.
4. Understand the unique and specific issues for liver biology, drug use, mental health, DILI and liver disease therapeutic modifications in older adults.

PROGRAM CHAIRS

SAUL KARPEN,
MD, PhD, FAASLD
AASLD President-Elect
Virginia Commonwealth
University

MAZEN NOUREDDIN,
MD, MHSc, FAASLD
Houston Methodist
Hospital

ELIZABETH C. VERNA,
MD, MS, FAASLD
Columbia University

BASIC SCIENCE SYMPOSIUM: ENDOTHELIAL CELLS OCCUPY CENTRAL STAGE IN LIVER DISEASE

The Symposium is held on **Friday, November 11** and each part is comprised of three 20-minute scientific discussions followed by 30-minute panel discussions.

The Basic Science Symposium will discuss liver endothelial cells (ECs), which are highly specialized and increasingly recognized for their heterogeneity and their role in liver diseases and carcinogenesis. Due to recent advancements in isolation techniques in combination with multiomics studies, our understanding has expanded significantly. Emerging literature highlights that liver ECs are more than vascular barriers—they are critical mediators in various biological processes under both physiological and pathological conditions.

Given these exciting developments, this year's Basic Science Symposium is dedicated to liver ECs is both timely and topical and features four parts:

PART 1: Endothelial Cells Physiology and Heterogeneity

PART 2: Endothelial Cells in Acute Liver Injury and Inflammation

PART 3: Endothelial Cells in Chronic Liver Diseases

PART 4: Endothelial Cells in Portal Hypertension, Liver fibrosis and Carcinogenesis

Earn
7.0
CME Credits

FROM INSIGHT TO IMPACT

After attending AASLD's Basic Science Symposium, attendees will:

1. Identify the key role of liver endothelial cells in acute and chronic liver diseases and the potential for therapeutic targeting.
2. Understand the immunological functions of liver sinusoidal endothelial cells (LSEC).
3. Recognize the unique structural and functional characteristics of liver endothelial cells and their heterogeneity.

PROGRAM CHAIRS

JORDI GRACIA-SANCHO,
PhD, FAASLD
IDIBAPS—Hospital
Clinic Barcelona

SAMAR IBRAHIM,
MBChB, FAASLD
Mayo Clinic

YASUKO IWAKIRI,
PhD, FAASLD
Yale School of
Medicine

PATIENT PROGRAMMING: BE SEEN. BE HEARD. MAKE AN IMPACT.

While attending The Liver Meeting, attend one of 11 programming sessions led by AASLD's Patient Advisory Group—a group of patient advocates and AASLD Member providers. Topic areas include alcohol-associated liver disease, liver cancer, viral hepatitis, pediatric and adult-focused sessions on steatotic liver disease and transplant, and more.

FRIDAY, NOVEMBER 7

8:00-9:30 AM	 Postgraduate Course, Part 1: Extrahepatic Contributors to Liver Health Outcomes  Basic Science Symposium, Part 1: Endothelial Cells Physiology and Heterogeneity Patient Programming: Patient Engagement as a HABIT
8:00 AM-5:00 PM	Poster Hall
9:45-10:45 AM	Meet-Ups at The Park @ TLM
11:00 AM-12:30 PM	 Postgraduate Course, Part 2: Lifelong Age-Appropriate Screening, Surveillance and Therapeutic Choices  Basic Science Symposium, Part 2: EC in Acute Liver Injury and Inflammation Patient Programming: Mapping the Transplant Journey: Perspectives from Pediatric and Adult Experience
12:30-2:00 PM	Satellite Symposia
2:00-3:30 PM	 Postgraduate Course, Part 3: The Die is Cast at a Young Age: Early Life Determinants of Future Liver Health  Basic Science Symposium, Part 3: EC in Chronic Liver Diseases  Obesity and Addiction Medicine in Liver Disease: Translating Science into Practice - Part 1 Patient Programming: Transforming Lives in Alcohol-associated Liver Disease: Early Detection, Equitable Treatment, and Inclusive Research Strategies
4:00-5:30 PM	 Postgraduate Course, Part 4: Liver Health in the Older Adults  Basic Science Symposium, Part 4: EC in Portal Hypertension, Liver Fibrosis and Carcinogenesis  Obesity and Addiction Medicine in Liver Disease: Translating Science into Practice - Part 2 Patient Programming: Breaking Barriers: Confronting Stigma in Liver Disease and Supporting Vulnerable Communities
5:30-6:30 PM	SIG Meet Up at The Park @ TLM
7:30-9:00 PM	Awards & Honors Ceremony

Ticketed Course

AASLD Members or By Invitation Only

SATURDAY, NOVEMBER 8

7:00-7:45 AM	 Meet the Experts #1: Practical aspects of diagnosis and management of acute-on-chronic liver failure  Meet the Experts #2: Update on management of cholestatic pruritus in adults and children  Meet the Experts #3: The Heart Liver Connection: Multidisciplinary approach to cardiovascular related liver disease  Meet the Experts #4: Programmed cell death: mechanisms and pathways  Meet the Experts #5: How to select the best candidates for Early Liver Transplantation for the diagnosis of Severe Alcohol-Associated Hepatitis?  Meet the Experts #6: Artificial Intelligence in Pediatric Hepatology and Pediatric Liver transplantation  Meet the Experts #7: Approaching challenges in the prediction and treatment of Intrahepatic Cholestasis of Pregnancy
8:00-5:00 PM	Poster Hall
8:00 AM-9:30 AM	MASLD & ALD SIG: Steatotic Liver Disease: What do you need to know? Part 1: Steatotic Liver Disease at the Crossroads: Bridging ALD and MASLD in the Era of Multimorbidity Portal Hypertension: Beyond the Guidelines: Challenges and Controversies in the Management of Portal Hypertension Cholestatic and Autoimmune Liver SIG: Recent Advances in PSC Pathogenesis and Targets for Therapeutic Intervention Liver Fibrosis SIG: Cardiac and Liver Crosstalk in Fibrosis: Who is the 'brains' of the operation? Hepatitis B SIG: Hot Topics in HBV: new clinical tools for HBV management Public Health SIG: Our Environment and Liver Health: What Providers and Patients Need to Know Patient Programming: Artificial Intelligence: Transforming Liver Patient Care
9:45-10:45 AM	Meet-Ups at The Park @ TLM  ALD SIG Business Meeting  Portal Hypertension SIG Business Meeting  Cholestatic SIG Business Meeting  Liver Fibrosis SIG Business Meeting  Hepatitis B SIG Business Meeting  Public Health SIG Business Meeting Community Conversation: AASLD - Taiwan Association for the Study of the Liver (TASL) Community Conversation: HCC surveillance, challenges, and solutions AASLD-SOLDA 2025 Community Conversation: Drug-Induced Liver Injury in Africa Community Conversation: Stump the Hepatologist

SATURDAY, NOVEMBER 8 (CONT'D)

11:00 AM-12:30 PM	The Editor's Cut: Clinical Studies MASLD SIG: Omic Approaches to MASLD Wait Wait Dont Dili Hepatitis C SIG (Joint session with the European Society of Clinical Microbiology and Infectious Diseases (ESCMID) Study Group for Viral Hepatitis (ESGVH): Update on Hepatitis C Virus Elimination in 2025 The Best of Liver Fellow Network FOLD Committee: Therapeutic Choices in Hepatology: 2025 Practice Metrics Committee: Applications of Real-World Data in Clinical Practice Patient Programming: The road to cure and elimination of viral hepatitis B and C: braking barriers for patients and communities
12:30-2:00 PM	Satellite Symposia
12:45-1:30 PM	 Meet the Experts #8: The role of HRS-AKI treatment in ACLF patients under consideration for transplant  Meet the Experts #9: AI in Clinical Practice and Clinical Research in Liver Diseases  Meet the Experts #10: DILI from Herbal and Dietary Supplements in 2025: New Kids on the Block  Meet the Experts #11: Innate-adaptive immune crosstalk in hepatic fibrosis and inflammation  Meet the Experts #12: The use of POCUS in hepatology  Meet the Experts #13: Parenteral Nutrition (TPN) Associated Liver Disease in Pediatrics: Recent Advances in Pathogenesis and Management
1:00-2:00 PM	 Annual Business Meeting
2:00-3:30 PM	MASLD & ALD SIG: Steatotic Liver Disease: What do you need to know? Part 2: Dual Threats: Advancing Research and Care in SLD ACLF SIG: New frontiers in ACLF: Bridging gaps and pioneering solutions Hepatitis C SIG: Hepatitis C Virus Management of Unique and Key Populations Liver Cancer SIG: The Tumor Microbiome-Microenvironment Nexus: Unraveling Therapeutic Horizons Liver Cell Biology SIG: Sexual dimorphism in liver Clinical Practice SIG: Managing the ABCs of Liver Disease Patient Programming: Navigating the Health Care Maze: Empowering Patients with Information and Tools

Ticketed Course

AASLD Members or By Invitation Only

SATURDAY, NOVEMBER 8 (CONT'D)

3:45-4:45 PM	Meet-Ups at The Park @ TLM Academic Debates - MASLD SIG Business Meeting - ACLF SIG Business Meeting - Hepatology Associates SIG Business Meeting - Liver Cancer SIG Business Meeting - Liver Cell Biology SIG Business Meeting - Clinical Practice SIG Business Meeting Community Conversation: Liver Fellow Network presents: Ask-Me-Anything about Transplant Hepatology Training and Early Career Community Conversation: Level-up your EHR use: Practical strategies to optimize hepatology practice and research Community Conversation: Navigating Difficult Conversations Between Clinicians, Patients, and Families
5:00-6:00 PM	Presidential Welcome and Presidents Choice Lecture
6:00-7:30 PM	Exhibit Hall Opening Reception
7:30-8:30 PM	PRIDE Reception

SUNDAY, NOVEMBER 9

7:00-7:45 AM	 Meet the Experts #15: Integrated ALD clinics: how to start, lessons learned.  Meet the Experts #16: Rise of Machines: 101 for Hepatologists  Meet the Experts #17: Refractory Immune-Mediated Liver Injury from Checkpoint Inhibitors, when to bring out the big guns  Meet the Experts #18: Liver regeneration fibrosis. The role of liver regeneration in both fibrosis progression and regression.  Meet the Experts #19: Ethical Dilemmas in Transplant: Who gets the liver?  Meet the Experts #20: Career Development and Pathways in Hepatology and Informatics
8:00 AM-5:00 PM	Poster Hall
8:00-9:30 AM	Thomas E. Starzl Transplant Surgery State of Art (SOA): Advances in AI and Technology in Liver Transplantation immediately followed by Liver Transplant Plenary #1 Basic Research Workshop Part I: RNA Nanomedicine: Reprogramming Cells to Transform Liver Outcomes: Session I: Cutting-Edge Tools for Liver Gene Editing Hepatology Associates Course Part 1: Hepatology Associates as Leaders in Multidisciplinary Care Global Symposium: Global Perspectives on Acute Liver Failure Patient Programming: Hepatocellular carcinoma as a chronic disease: managing ongoing surveillance, multiple treatments, symptoms and quality of life Career Development Workshop
9:30 AM-5:00 PM	Exhibit Hall Open
9:45-10:45 AM	Meet-Ups at The Park @ TLM  LT SIG Business Meeting Community Conversation: The Expanding Role of Advanced Practice Providers (APPs) in Hepatology: A Collaborative Approach to Liver Care+A1 Community Conversation: Pathologists are from Mars, Hepatologists are from Venus: how to navigate twists and turns in steatotic liver disease Community Conversation: Strategies for Publication Success
10:00-10:45 AM	TLM Theaters

Ticketed Course

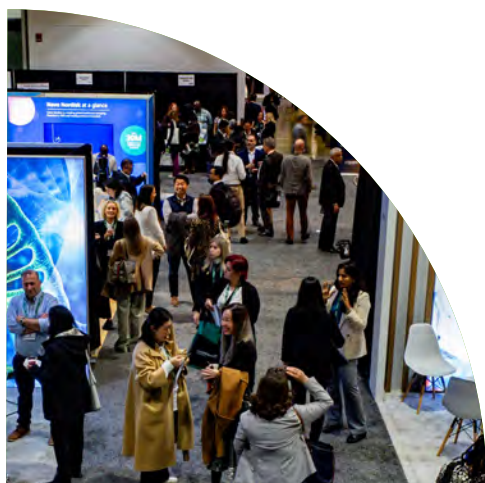

AASLD Members or By Invitation Only

SUNDAY, NOVEMBER 9 (CONT'D)

11:00 AM-12:30 PM	Hyman J. Zimmerman Hepatotoxicity State of Art (SOA): Systemic Therapy for HCC in 2025: Where Are We Now immediately followed by Clinical Plenary #1 Mental Health Session: Beyond the Liver: Addressing Mental Health Challenges for Hepatologists and Practitioners Basic Research Workshop Part II: RNA Nanomedicine: Reprogramming Cells to Transform Liver Outcomes: Session II: Transforming Chronic Liver Disease: Breakthroughs and Clinical Updates in RNA Nanotherapeutic Liver Transplantation SIG: Navigating the Complexities of Liver Transplantation in Challenging Candidates: Obesity, Advanced age, Complex Anatomy and Frailty Hepatology Associates Course Part 2: Novel Insights from Hepatology Associates AASLD/APASL Joint Symposium: Acute-on-Chronic Liver Failure (ACLF): Contrasting Perspectives from the East and West Patient Programming: Elements of MASLD/MASH for Pediatrics and Adults Liver Fellow Network presents: Hepatology + : Combining hepatology training with other training pathways
12:30-2:00 PM	Satellite Symposia TLM Theaters
12:45-1:30 PM	 Meet the Experts #22: Treating AUD in patients with ALD  Meet the Experts #23: The 'GENIE'- in the HBV bottle: What's new in genetic modulation for HBV Cure?  Meet the Experts #24: To bleed or not to bleed: the role of coagulation in liver disease  Meet the Experts #25: Advancement in NITs for the Diagnosis of MASH  Meet the Experts #26: Reproductive Health of Liver Transplant Recipients  Meet the Experts #27: Management of clinically significant hypersplenism
2:00-3:30 PM	General Hepatology Update: Latest Advances in Hepatology The Editor's Cut: Translational Studies Pediatric Liver Disorders SIG and Hepatotoxicity SIG: Part 1: Drug Induced liver injury across the life span: Advances in management Hepatology Associates SIG: Bridging Hepatology and Transplant: Key Insights for Non-Transplant Providers on Indications, Evaluation, and Donor Strategies Inclusion and Diversity Committee: Academic Advancement, Promotion, and Tenure for Under-Represented Groups in Hepatology Patient Programming: Cholestatic Liver Diseases: New Treatments, Tools, and Symptom Management
2:00-6:00 PM	 Basic Point of Care Ultra Sound (POCUS), Workshop 1
3:30-4:15 PM	TLM Theaters

SUNDAY, NOVEMBER 9 (CONT'D)

UNLOCK YOUR FUTURE— JOIN THE AASLD COMMUNITY TODAY!

Whether you're a hepatologist, researcher, physician, clinician, student, trainee, or allied health professional—AASLD serves you at every stage of your career.

- **Collaborative Community:** A global network of 7,000+ hepatology enthusiasts
- **Access to AASLD's esteemed journals:** HEPATOLOGY, Hepatology Communications, and LiverTransplantation
- **Clinical Resources:** Access to Practice Guidelines, Practice Guidances, and Patient Guidances
- **Member-driven Education:** On-demand online courses, webinars, and conference recordings on LiverLearning
- **Leading Events:** Discounts to The Liver Meeting® and educational events

**BECOME A
MEMBER TODAY!**

SMALL DETAILS. BIG IMPACT.

As you prepare for TLM, note **important registration dates and time periods have been updated for 2025.**

AASLD MEMBER RATES, A LA CARTE REGISTRATION					
In-Person only registration. Additional ticketed items purchased separately.					
REGISTRATION RATES	IN-PERSON MEETING				
AASLD MEMBER RATES	Member	Lower Income Countries	Member Associate	Member Trainee	Member Student
