

Core Skills: ENT Sinus Surgery

Friday 15 November 2019

Core Skills: ENT Sinus Surgery places a focus on increasing procedural knowledge and operative skills in established and emerging techniques in ENT sinus surgery. This highly practical cadaveric workshop provides participants with exposure to some mandatory ENT Surgical Traineeship procedures using the latest highly specialised navigational imaging technologies. It will enhance participant knowledge of nasal sinus anatomy.

This workshop aims to improve surgical safety, operative confidence and procedural efficiency in a way that cannot be provided by routine surgical supervision or by other simulated environments.

The sessions are fully interactive with a high ratio of faculty to participants. Knowledgeable faculty will provide superior training and immediate feedback in a practical and controlled workshop environment. Limited positions are available for Observers and for Theatre Nurses in the role of assistant.

CTEC acknowledges the support of the following:

Government of Western Australia
Department of Health

Medtronic

Convenors

Mr Tim Cooney

Suitable for

RACS Surgical Trainees, Registrars, Fellows and Junior Consultants in ENT. Limited Observer positions and assistant Theatre Nurse positions are also available. Please note this workshop is immediately followed by the Core Skills: Facial Plastic Surgery workshop the following day.
