

IAOO 5th World Congress - July 8-11 2015 Sao Paulo, Brazil	
Oral Cancer: A Continuing Global Challenge	
Wednesday 8 July 2015	
12:00-14:00	IAOO Council Meeting
14:30-16:00	IFHNOS Council Meeting
16:30-18:00	Latin American Society of Head and Neck Surgery Meeting
18:00-19:00	Brazilian Head and Neck Society Meeting
19:00-20:00	<i>Opening Ceremony</i>
	Alexander D. Rapidis, President IAOO - The evolution of IAOO Luiz P. Kowalski, Congress President - The 5th World Congress Jatin P. Shah, Chairman of the Council - Official Opening of the Congress
20:00-21:30 President's Reception	

Thursday 9 July 2015				
Morning Session				
	Hall A	Hall B	Hall C	Hall D
8:00-9:00	Poster Session I Surgery – Reconstruction-Dental rehabilitation and Quality of Life			
9:00-10:30	Panel Discussion #1 Surgery Title: Surgical approaches to the oral cavity: options and consequences Chairman: Giuseppe Spriano, Italy Moderator: Chung Hwan Baek, Korea Brett Miles, USA Virtual surgery planning and operability Dan M. Fliss, Israel Innovations in Mandibular Reconstruction Rui Fernandes, USA Improvements in the accessibility of oral tissues in major orofacial resections Douglas Chepeha, Canada Neck dissection in oral cancer; facts and fiction	Sponsored Symposium #1 <u>FHNO (Foundation for Head and Neck Oncology)</u> Management Issues in treatment of Locally Advanced Cancers Chairs: Anil D'Cruz – A. Moni Kuriakose Panelists: Gauri Pantvaitya: Role of neoadjuvant therapy in locally advanced cancers of oral cavity Kaustubh Patel: Management of neck in locally advanced oral cancers Vikram Kekatpure: Solving the dilemma of T4 lesions operability Vijay Haribhakti: Reconstruction options for mandible and soft tissue defects Interesting Case Capsules Panel Moderator: Jyoti.P.Dabholkar Panelists: Pankaj Chaturvedi, Sarbani Lashkar, P. Arun, Supreeta Arya, Anuja Deshmukh, Rajendra Toprani	Oral Abstracts 1-10 CT / RT I	Oral Abstracts 11-20 Basic Sciences
10:30-11:00	Keynote Address #1 Surgery Introducer: Patrick J. Gullane, Canada Jatin P. Shah The successes and realities of Non surgical treatment of Head and Neck cancer			
11:00-11:30	Coffee Break			

11:30-13:00	Panel Discussion #2 Epidemiology Title: Recent trends in the epidemiology of oral cancer Chairman: Victor Wunsch Filho, Brazil Moderator: Saman Warnakulasuriya, UK Gypsyamber D'Souza, USA Geographical heterogeneity in the role of human papillomavirus in head and neck cancer across Brazil, Europe and US Maria Isabel W Achatz, Brazil Predisposition and genetic syndromes associated with head and neck cancer Tanuja Teni, India The epidemiology and the molecular basis of oral submucous fibrosis and leukoplakias Maria Paula Curado, Brazil Epidemiologic changes of HPV positive oral and oropharyngeal cancer patients	Sponsored Symposium #2 <u>Brazilian Society of Head and Neck Surgery (BSHNS) – Argentine Association of Head and Neck Surgery (AACCyC)</u> Reconstructive options when free flaps are not available Chairs: Rogerio A. Dedivitis, Brazil - Jose Luis Novelli, Argentina BSHNS panel Claudio R. Cernea: Supraclavicular flap Fernando L. Dias: Submentonian flap AACCyC panel Pedro Sacco: The current use of pectoralis major myocutaneous flap in oral cavity reconstruction Edgardo Carranza: The use of lateral trapezius flap in oral cavity reconstruction	Oral Abstracts 21-30 Reconstructive Surgery I	Oral Abstracts 31-40 Molecular Biology I
13:00-14:00	<i>Lunch at Exhibits / Sponsored Symposium by the Industry</i>			

Thursday 9 July 2015				
Afternoon Session				
Poster Session II (No. 51-100)				
	Hall A	Hall B	Hall C	Hall D
14:00-15:30	Panel Discussion #3 Molecular Biology/translational medicine Title: Clinical impact of molecular markers on oral cancer diagnosis and management Chairman: Antonia Kolokythas, USA Moderator: Bhuvanesh Singh, USA Curtis R. Pickering, USA Oral cancer. Molecular profile of non-smokers Barbara Wollenberg, Germany Molecular prognosticators in oral squamous cell carcinomas Robert Ferris, USA Targeted Immunotherapy of HPV+ and HPV- Cancers Hisham Mehanna, UK Prognostic biomarkers in HPV positive patients	Sponsored Symposium #3 <u>Memorial Sloan Kettering Cancer Center, New York, USA - Netherlands Cancer Institute, Amsterdam, Netherlands</u> Management of the neck in oral cancer Chairs: Jatin P. Shah - Michiel van den Breckel MSKCC panel Snehal Patel: N0 neck and elective neck dissection Ian Ganly: Management of the neck after chemoradiation failure Netherlands Cancer Institute panel Abraham Al Mamgani: Elective radiotherapy Baris Karakullucku: Elective neck dissection: wait and see Michiel van den Breckel: Assessment of the neck	Oral Abstracts 41-50 Surgery I	Oral Abstracts 51-60 Odontogenic Tumors
15:30-16:00	Keynote Address #2 Basic Sciences Introducer: Ashok Shaha, USA Joseph Califano, USA Advancing surgical therapy and targeted therapeutics in head and neck cancer together.			
16:00-16:30	Coffee Break			

16:30-18:00	Grand Debate #1 Advanced (stage III and IV) oropharyngeal squamous cell carcinoma in HPV positive patients Chairman: Jan Vermorken, Belgium Moderator: David I. Rosenthal, USA James Bonner, USA Treatment intensification Vs. Brian O'Sullivan, Canada Treatment de-escalation	Sponsored Symposium #4 <u>Korean Society of Thyroid-Head and Neck Surgery(KSTHNS) – Italian Society of Otolaryngology Head Neck Surgery</u> Robotic Surgery in head and neck cancer Chairs: Eun Chang Choi – Claudio Vicini KSTHNS panel Kyung Tae: Robotic thyroidectomy Yoon Woo Koh: Robotic neck dissection in H&N cancer Italian society panel Giuseppe Spriano: TORS in the treatment of oropharyngeal cancer Mohssen Ansarin: Transoral robotic surgery for parapharyngeal space tumors	Oral Abstracts 61-70 Reconstructive Surgery II	Oral Abstracts 71-80 Neck disease I
19:30-22:00	Faculty Dinner			

Friday 10 July 2015				
Morning Session				
	Hall A	Hall B	Hall C	Hall D
8:00-9:00	Poster Session II CT – RT – Epidemiology – Diagnosis, Staging and Prognosis	World Head and Neck Cancer Day (WHNCD) by IFHNOS Presenter Pankaj Chaturvedi, India		
9:00-10:30	Panel Discussion #4 Chemotherapy and radiotherapy Title: Radiation Oncology and Chemotherapy in the treatment of oral cancer. Combining technology and pharmacokinetics Chairman: Christian Domenge, Brazil Moderator: Vincent Gregoire, Belgium Mahmut Ozsahin, Switzerland Current evidence in the use of postoperative radiotherapy for oral squamous cell carcinoma June Corry, Australia The devil in the detail of chemoradiation in oral cancer John “Drew” Ridge, USA Induction and concomitant chemoradiation in unresectable locally advanced head and neck cancer Lisa Licitra, Italy Treatment options in patients with recurrent or metastatic and platinum-refractory head and neck cancer	Sponsored Symposium #5 <u>American Head and Neck Society (AHNS) – Australian and New Zealand Head and Neck Cancer Society (ANZHNCs)</u> Emerging new technologies in the diagnosis and treatment of oral cancer Chairs: Dennis Kraus - Kerwin Shannon AHNS panel HPV related oropharyngeal cancer - a North American perspective Dennis Kraus: Epidemiology and the patient perspective Terry Day: Management of the primary - The role of TORS Doug Girod: Management of the neck - an evolution of therapy ANZHNCs panel Technology in Oral Cancer Management - an Australian Experience Camile Farah: Narrow Band Imaging improving patient outcomes in oral SCC Mahiban Thomas – Negative Margins in the oral cavity - getting there, and future implications Kerwin Shannon – Imaging and 3D printing technology in reconstruction following resection of advanced oral cavity tumours	Oral Abstracts 81-90 Reconstructive Surgery III	Oral Abstracts 91-100 Molecular Biology II
10:30-11:00	Keynote Address #3 Radiation Oncology Introducer: Vincent Gregoire, Belgium Johannes A. Langendijk, Netherlands Emerging radiation technologies to prevent radiation-induced side effects			
11:00-11:30	Coffee Break			

11:30-13:00	Panel Discussion #5 Oral Medicine and Pathology Title: From conventional to molecular pathology – something old and something new Chairman: Oslei Paes de Almeida, Brazil Moderator: Jay Boyle, USA Gareth J. Thomas UK The identification of molecular predictors of patient prognosis in HPV positive oropharyngeal cancer Robert Haddad, USA Immunotherapy Biomarkers in head and Neck cancer: Are we there yet? Adel K. El-Naggar, USA Surgical margins pearls and pitfalls Andre Carvalho, Brazil Molecular oral carcinogenesis and clinical implications	Sponsored Symposium #6 <u>University of Toronto, Toronto, Canada and</u> <u>University of Liverpool, Liverpool, UK</u> Future of reconstruction in oral cancer Chairs: Ian J. Witterick - James Brown UofT panel – The Canadian experience Ralph Gilbert: Cancer of the maxilla Douglas Chepeha: Osteoradionecrosis of the mandible UofL panel – The British experience James Brown: Cancer of the maxilla Richard Shaw: Osteoradionecrosis of the mandible	Oral Abstracts 101-110 HPV	Oral Abstracts 111-120 Quality of life I
13:00-14:00	Lunch and General Assembly of the IAOO			

Friday 10 July 2015				
Afternoon Session				
Poster Session IV (No. 151-200)				
	Hall A	Hall B	Hall C	Hall D
14:00-15:30	Panel Discussion #6 Reconstructive surgery Title: Complex microvascular reconstruction and late outcomes Chairman: Richard E. Hayden, USA Moderator: André Eckardt, Germany Peter G. Cordeiro, USA Long term functional results after mandibular reconstruction with the use of fibula free flap James S. Brown, UK Long term functional results after maxillary reconstruction with the use of DCIA free flap John de Almeida, Canada Health related quality of life outcomes after microvascular reconstruction in head and neck cancer Joseph I. Helman, USA Dental implants in free flaps. When, What and How	Sponsored Symposium #7 <u>MD Anderson Cancer Center, Houston, Texas, USA and University of Pittsburg, Pittsburg, Pennsylvania, USA</u> Management of advanced stage III & IV oral and oropharyngeal cancer Chairs: Randal S. Weber - Robert L. Ferris New approaches for management of oral cancer: Intro Robert L. Ferris Ann Gillenwater: Advances in optical detection of oral cancer and premalignancy Seungwon (Steve) Kim: Personalized treatment for OSCC: Prognostic biomarkers and adjuvant therapy for high risk OSCC Stephen Lai: Update on lymphatic mapping and sentinel lymph node biopsy for oral cavity cancer Oropharyngeal carcinoma advancements: Intro Randy S. Weber Michael Kupferman: Changing Epidemiology, risk based stratification, and nonsurgical treatment of HPV+/- disease Robert L. Ferris: Evolution and prospective trials of surgical therapy of OPSCC Neil Gross: Pitfalls of TORS and avoiding complications Uma Duvvuri: Unique aspects of transoral anatomy for surgical management: of OPSCC	Oral Abstracts 121-130 CT / RT II	Oral Abstracts 131-140 Diagnosis
15:30-16:00	Keynote Address #4 Reconstructive Surgery Introducer: James S. Brown, UK Ralph W. Gilbert, Canada Head and Neck Reconstruction. What's Next			
16:00-16:30	Coffee Break			

16:30-18:00	Grand Debate #2 N0 neck in oral squamous cell carcinoma Chairman Jesus Medina, USA Moderator: Luiz P. Kowalski, Brazil Anil D'Cruz, India Selective neck dissection Vs. Sandro Stoeckli, Switzerland Sentinel node biopsy	Sponsored Symposium #8 <u>European Association for Cranio-Maxillo-Facial Surgery (EACMFS) – American Association of Oral and Maxillofacial Surgeons (AAOMS)</u> Mandibular reconstruction. Technological advances and refinements Chairs: Ian Martin, UK, Joseph I. Helman, USA EACMFS panel Nick Kalavrezos, UK: 3-D Planning of mandibular reconstructions Klaus-Dietrich Wolff, Germany: Microvascular mandibular reconstruction AAMOS panel Deepak Kademani, USA: Free Flaps, Bone Grafts and BMP in Head and Neck Reconstruction Fayette C. Williams, USA: Condylar Reconstruction Joshua Lubek, USA: Salvage of the Failing Free Flap	Oral Abstracts 141-150 Quality of Life II	Oral Abstracts 151-160 Prognosis
19:30-22:00	Gala Dinner			

Saturday 11 July 2015				
Morning Session				
	Hall A	Hall B	Hall C	Hall D
8:00-9:00	Poster Session III Molecular Biology and Genetics – Patholog			
9:00-10:30	Panel Discussion #7 Potentially malignant disorders Title: Challenges on the diagnosis and management of oral cavity potentially malignant disorders Chairman: Fabio de Abreu Alves, Brazil Moderator: Richard Shaw, UK A. Ross Kerr, USA Oral potentially malignant disorders: is malignant transformation preventable? Moni Abraham Kuriakose, India The world of imaging in the assessment of potentially malignant disorders Ann M. Gillenwater, USA Proliferative verrucous leukoplakia Jay O. Boyle, USA Oral cancer in young patients	Sponsored Symposium #9 <u>Johns Hopkins Hospital, Baltimore, Maryland, USA and Mayo Clinic, Rochester, Minnesota, USA</u> Challenges on diagnosis and management of salivary gland tumors Chairs: David Eisele – Kerry D. Olsen Johns Hopkins panel Patrick Ha: Management of adenoid cystic carcinoma of the minor salivary glands Wayne Koch: Mucoepidermoid carcinoma of the parotid Mayo Clinic panel Dan Price: Management of pleomorphic adenomas Eric Moore: Advanced cancer of the parotid gland	Oral Abstracts 161-170 Neck disease II	Oral Abstracts 171-180 Molecular Biology III
10:30-11:00	Keynote Address #5 Epidemiology Introducer: Luiz P. Kowalski, Brazil Paul Brennan, France HPV antibodies and the subsequent occurrence of oropharynx cancer			
11:00-11:30	<i>Coffee Break</i>			

11:30-13:00	Panel Discussion #8 Treatment outcome, rehabilitation and quality of life Title: Long term concerns, functional outcomes and quality of life in oral cancer patients Chairman: Patrick J. Gullane, Canada Moderator: C. René Leemans, The Netherlands Dennis H. Kraus, USA Impact of chemoradiation in patients treated with radical surgery; long term functional results Bevan Yueh, USA Patients' expectations and frustrations of oral cancer treatment Katherine A. Hutcheson, USA Functional assessment and rehabilitation; how to improve outcomes Simon Rogers, UK Quality of life questionnaires in the next 30 years. Lessons learned	Sponsored Symposium #10 <u>International Association of Oral Pathologists (IAOP) – SOBEP (Sociedade Brasileira de Estomatologia e Patologia Oral)</u> Practical use of molecular pathology on the management of oral cavity and salivary gland tumors Chairs: Mark W. Lingen, USA - Marcio Lopes, Brazil SOBEP panel Pablo Agustín Vargas, Brazil: Salivary gland tumors and immunohistochemical markers Fábio Ramoa, Brazil: Oral squamous cell carcinoma subtypes and clinical relevance IAOP panel Camile Farah, Australia: Oral Cancer and Oral Potentially Malignant Lesions: Insights from Next Generation Sequencing Catherine Poh, Canada: Molecular testing in the clinic for the prediction of progression of oral premalignant lesions	Oral Abstracts 181-190 Neck disease III	Oral Abstracts 191-200 TORS / Mesenchymal tumors
13:00-14:00	Lunch at Exhibits / Sponsored Symposium by the Industry			

Saturday 11 July 2015				
Afternoon Session				
Poster Session VI (No. 251-300)				
	Hall A	Hall B	Hall C	Hall D
14:00-15:30	Panel Discussion #9 Prevention - early diagnosis Title: Oral cancer: screening, early detection and prevention around the world Chairman: Jatin P. Shah, USA Moderator: Newell W. Johnson, Australia Pankaj Chaturvedi, India Effective strategies for oral cancer prevention and screening in South East Asia Terry A. Day, USA Oral cancer preventive practices in North America Michele Mignogna, Italy Oral cancer prevention – an unfinished world agenda Saman Warnakulasuriya, UK An appraisal of oral cancer and pre-cancer cancer screening programs in Europe	Sponsored Symposium #11 <u>British Association of Head and Neck Oncologists (BAHNO) – European Organization for Research and Treatment of Cancer (EORTC)</u> Treatment of HPV positive oropharyngeal carcinoma Chairs: Michael Fardy, UK – Vincent Gregoire, Belgium BAHNO panel Hisham Mehanna: The current treatment options for HPV positive oropharyngeal carcinoma and future perspectives Simon Rogers: The importance of Quality of Life in treatment decisions for HPV positive oropharyngeal carcinoma EORTC panel C. René Leemans, Netherlands: Critical issues in selection of patients with oropharyngeal cancer for treatment de-escalation trials Jan B. Vermorken, Belgium: The influence of HPV+ on response to treatment in metastatic and loco-regional relapse HNSCC	Oral Abstracts 201-210 Surgery II	Oral Abstracts 211-220 Oropharynx / Skull base
15:30-16:00	Special Address Randal S. Weber, USA Introducer: Alexander D. Raptidis, Greece The future of head and neck cancer treatment. Vision and innovations of the MD Anderson Cancer Center			
16:00-16:30	Coffee Break			

16:30-18:00	Grand Debate #3 Jeopardy Competition Chair: Ian J. Witterick, Canada Moderator: Luiz P. Kowalski, Brazil	Sponsored Symposium #12 <u>European Head and Neck Society (EHNS) –</u> <u>International Federation of Head and Neck</u> <u>Oncologic Societies (IFHNOS)</u> Treatment of advanced stage III and IV disease. A therapeutic challenge Chairs: C. René Leemans, Netherlands - Ashok Shaha, USA EHNS panel Sefik Hosal: Salvage surgery in laryngeal cancer after chemo-irradiation Wojciech Golusiński: Advanced head and neck cancer in young adults IFHNOS panel Patrick Gullane, Canada: Complications of surgical treatment of head and neck cancer Douglas Chepeha, Canada: Reconstructive algorithms after the surgical treatment of head and neck cancer	Oral Abstracts 221-230 Salivary gland tumors	Oral Abstracts 231-240 Potentially malignant disorders
18:00-18:30	Presidential Address – IAOC: 10 YEARS AFTER Alexander Raptidis, Greece <i>Closing Ceremony</i>
