AOP 2023

INTERNATIONAL EDITION N°34

FEBRUARY 3 & 4

PALAIS DES CONGRÈS • PARIS - FRANCE

PRELIMINARY PROGRAM

SCIENTIFIC DIRECTORS:

Yves BOKOBZA, Emmanuel BUI QUOC, Audrey GIOCANTI, Sofienne KALLEL, Camille RAMBAUD

WELCOME TO AOP 2023 !

Dear colleagues,

To begin, we thank you! Your constant and continued support during the last editions, marked the Advanced Ophthalmologic Practice congress as a major event in this year's annual calendar. Now established as the first international conference in France, AOP returns in 2023 to bring you all the themes of our specialty in this promising and exceptional new edition.

We will gather the 3rd and 4th of February, at the Palais de Congrès in Paris, for a dynamic program of interactive learning among 80 thematic workshops. From modules on the retina and glaucoma, through workshops dedicated to the cataract, the cornea, and contactology, you can update your practical knowledge with our community of experts.

AOP 2023 also offers the opportunity to practice with wetlabs, test your knowledge at the new MCQ Contest, get CME credits, and browse the redesigned exhibition space with the latest innovations..

Thank you for your fantastic support and we look forward to seeing you at the AOP 2023!

Yves Emmanuel Audrey Sofiene
Bokobza Bui Quoc Giacanti Auregan Kallel
