

Preliminary Conference Agenda – 20-23 September, 2015

(updated 17 June 2015)

Note: CAP – Child and Adolescent Psychiatry

Note: Symposia numbers are preliminary and will be revised.

Sunday, 20 September 2015

15.00 – 15.15	Opening ceremony
15.15 – 16.00	Plenary Lecture 1 Professor Norman Sartorius <i>Professor in psychiatry, former director of the WHO's Division of Mental Health</i> Ethical issues in psychiatry
16.00 – 16.45	Plenary Lecture 2 Professor Katya Rubia <i>Cognitive Neuroscience, Section Developmental Neuroimaging, Department of Child Psychiatry/SGDP, Institute of Psychiatry, King's College London</i> FMRI in ADHD–what have we learned
17.00 – 17.45	Plenary Lecture 3 Professor Hasse Karlsson <i>University of Turku. Chief Physician, Hospital District of Southwest Finland, Department of Psychiatry</i> Neurobiology of psychotherapy
18.00 – 19.00	Welcome reception

Preliminary Conference Agenda – 20-23 September, 2015

Monday, 21 September 2015

09.00 – 09.45	Plenary Lecture 4 Professor Frank Verhulst <i>Professor and chair of child and adolescent psychiatry at Erasmus University Medical Center, Rotterdam, The Netherlands.</i> Using large scale epidemiological cohort studies to unravel etiologic mechanisms: The GenerationR study.		
09.45 – 10.30	Plenary Lecture 5 Professor Ingrid Melle <i>University of Oslo and Oslo University Hospital</i> Early intervention in psychiatry: Achievements and challenges		
10.30 – 10.45	Coffee break		
10.45 – 12.15	Symposia slot 1 S69 CAP: Studying underlying dimensions of psychopathology in children and adolescents at higher risk for mental disorder	S4 CAP: Intellectual disability and mental health across the life-span	S42: Sleep and mental health
	S41: Health anxiety/illness anxiety. Treatment and beyond	S5: From Pioneers to Scientists: Establishing Evidence-Gathering Models in Trauma Mental Health Services for Refugees	S43: Internet-based treatment for anxiety and depressive disorders
	S75 Early career: Breaking down the generational cycle of mental illness: from hopes to effective action		
12.15 – 13.30	Lunch and poster session 1		
13.30 – 15.00	Symposia slot 2 S54 CAP: Early Onset Psychotic Disorders, clinical characteristics and antipsychotic treatment response	S56: Early intervention in psychosis. Experiences from the Nordic countries	S40: Mindfulness in the clinic and in the lab

Preliminary Conference Agenda – 20-23 September, 2015

	S45: Optimal use of clozapine in treatment-resistant schizophrenia	S62: The MINI International Neuropsychiatric Interview and DSM-5 – A DUAG symposium	32: The inner clock revisited: Circadian rhythm disturbances in insomnia and psychiatric disorders
	S8: Early career: How to write and publish a scientific paper?		
15.00 – 15.15	Coffee break		
15.15 – 16.45	Symposia slot 3 S70: Current understanding of somatoform disorders and functional somatic syndromes, and new treatment strategies in youth	S23: The Forensic Psychiatric Patients in Denmark: diversity and challenges	S55: Anxiety in the ESSENCE framework – Autism and ADHD influencing anxiety disorder presentation and treatment in children.
	S9 Early career: How to get published	Oral slot 1 Genetic and environmental risk factors for mental disorders 1: Polygenic Risk Score, Parental Socioeconomic Status, Family History of Psychiatric Disorders and the Risk of Schizophrenia: A Danish Population-Based Study 2: Childhood adversity specificity and dose-response effect in non-affective first-episode psychosis 3: Prenatal vitamin D deficiency and increased risk of adult Schizophrenia. Results from a societal experiment in Denmark. 4: Factors Influencing the Risk of Relapsing in Depression in the Lundby Study 5: Pituitary gland volume and diurnal cortisol in ultra high-risk and first episode schizophrenia patients.	Oral slot 2 Diagnosis and comorbidity 1: From Insania Simplex to ICD-10 2: Depression and paranoia 3: Psychiatric disorders among obese patients seeking bariatric surgery 4: Schizophrenia and Induced Abortion 5: Quality of life and association with clinical characteristics in patients with schizophrenia
	Oral slot 3 Therapy - what works? 1: Psychodynamic group therapy is effective for psychiatric outpatients: A RCT with 7-years		

Preliminary Conference Agenda – 20-23 September, 2015

	follow-up of short- and long-term dynamic group therapy 2: Prospective, comparative, longitudinal, multicentre study of psychodynamic psychotherapy of first-episode psychosis of consecutively referred patients. 3: Cognitive-behavioural group treatment for functional somatic syndromes – a cost-effectiveness analysis 4: Unified Protocol for Transdiagnostic Treatment of Emotional disorders for Groups: A descriptive study 5: PRIME an investigation of the IMR-program's effect on client's recovery				
19.00 – 21.00	Town Hall reception				

Preliminary Conference Agenda – 20-23 September, 2015

Tuesday, 22 September 2015

09.00 – 09.45	Plenary lecture 6 Dr. Shekhar Saxena <i>Director Department of Mental Health and Substance Abuse</i> <i>World Health Organization</i> Implementation of the Global Mental Health Action Plan		
09.45 – 10.30	Plenary Lecture 7 Professor Merete Nordentoft <i>University of Copenhagen</i> Essential psychosocial interventions in treatment of patients with severe mental illness		
10.30 – 10.45	Coffee break		
10.45 – 12.15	Symposia slot 4 S73 CAP: Prenatal stress – what are the mechanisms leading to adverse child outcomes?	S72: Individual Placement and Support – implementation, outcomes and future development in a Scandinavian context	S74: Hallucinations: How to understand their essence and classification? Conceptual, phenomenological and clinical aspects
	S52: Multimodal Research in Antipsychotic-Naïve First-Episode Patients with Schizophrenia: Findings and Perspectives	S59: Treatment resistant major depression – physical treatments	S37: Early career: Young scientist oral presentation competition 1: Predicting symptom profiles in FEP: the role of DUP, premorbid functioning, childhood adversities and metacognition 2: Any hampering symptoms affecting your daily life? Schizophrenia outpatients' somatic complaints 3: Does specialization of treatment influence mortality in eating disorders? 4: Learning acute suicide risk assessment and management in a clinical setting 5: Excess Mortality in Borderline Personality Disorder

Preliminary Conference Agenda – 20-23 September, 2015

12.15 – 13.30	Lunch and poster session 2		
13.30 – 15.00	Symposia slot 5 S13 CAP: OCD in children and adolescents. Results from the NordLOTS study	S76: New insights from recent gene discoveries in psychiatric disorders?	S51: What can we learn from the Nordic Twin Registers about the major psychiatric disorders?
	S48: Do psychedelics and MDMA have a future in psychiatry	S2: Serotonin and anxiety disorders: recent evidences from neuroimaging studies	S37: Early career: Young scientist oral presentation competition 1: Stress during pregnancy is associated with increased risk of the child developing atopic diseases: a systematic review of observational human studies 2: What is the dose dependent relationship between benzodiazepines and the efficacy of ECT in the treatment of depression 3: Tickling rats: A new preclinical screening -tool for depression? 4: The effect of homelessness on mortality: a nationwide register-based cohort study 5: The amount of methylphenidate (MPH) extracted from available MPH drugs by i.v. substance abusers in Iceland.
15.00 – 15.15	Coffee break		
15.15 – 16.45	Symposia slot 6 S26: Prevalence, presentation and interpretation of mental health symptoms across cultures	S14 ADHD in children and adolescents. Factors effecting long term outcome	S36: Early career: How can e-learning technologies endorse learning in psychiatry?
	Oral slot 4 Psychiatric services. How to improve practise? 1: A register-based study of pathways to care in first-episode psychosis in Denmark (pre-study of the TOP project) 2: The Psychiatric Emergency Services in Copenhagen 1985-2012. A 27 year follow-	Oral slot 5 Suicide and increased risk of death from cardiovascular diseases 1: Suicidal communication before suicide and undetermined death. A combined pseudo-prospective clinical and medico-legal study of drug abusers. 2: Relatives attitude towards assisted suicide and euthanasia	Oral slot 6 Therapeutic issues in children 1: High prevalence of autism spectrum disorders in adolescents with anorexia nervosa 2: Reduced error signalling in medication-naïve children with ADHD during a flanker task: Relationships to behavioural variability and post-error adaptations 3: Therapeutic e-mails and manualised narrative

Preliminary Conference Agenda – 20-23 September, 2015

	up study 3: Screening of patients referred to an early detection program for psychosis (TOP) in Denmark 4: Causes of institutionalization of children and adolescents in a shelter in Brazil, analysis from 2000 to 2015.	3: Cannabis, alcohol, and hard drugs predict mortality in schizophrenia, bipolar disorder, or unipolar depression 4: Metabolic syndrome in patients with first-episode schizophrenia. A one year follow-up study. 5: Reducing cardiovascular risk in non-selected outpatients with schizophrenia	family therapy for families challenged by multiple and/or complex psychiatric problems 4: Psychometric measurements of manualized narrative family therapy.

19.00 -

Galla dinner

Wednesday, 23 September 2015

09.00 – 09.45	Plenary Lecture 8 Professor David Sheehan <i>Distinguished University Health Professor Emeritus,</i> <i>University of South Florida College of Medicine</i> The Changing Face of Suicide: Epidemiology, Assessment, and Pharmacological Treatment		
09.45 – 10.30	Plenary Lecture 9 Professor Preben Bo Mortensen <i>National Centre for Register based Research</i> Genetic and environmental risk factor for mental disorders. Unique possibilities for research in Nordic countries		
10.30 – 10.45	Coffee break		
10.45 – 12.15	Symposia slot 7 S25 CAP: Suicidal and self-harming behaviour in children and adolescents – recent research findings from Norway	S28/60: Current trends in Nordic and Baltic psychiatry	S79: Ethical Dilemmas from a Local to a Global Perspective
	S71: Pharmacological and non-pharmacological interventions to reduce cardiovascular disease in patients with	S16: The epidemiology of depressive, anxiety and alcohol use disorders in Finland: Results from the health 2011 studies	S31: Treatment of severe mental disorders in Iceland: challenges, and progress

Preliminary Conference Agenda – 20-23 September, 2015

	schizophrenia		
12.15 – 13.30	Lunch		
13.30 – 15.00	Symposia slot 8 S77 CAP: Early life stress and traumatized adolescents: Inflammation and psychopathology.	S22: Psychotherapy.	S30: Psychiatric disorders in pregnant and postpartum women -aspects of care and treatment
	S46: Self-disorders in schizophrenia: overview and current status	S19: The interface between severe mental disorders, cognitive functioning, and aggressive antisocial and psychopathic behaviors: challenges within forensic psychiatry	S78 CAP: Mental health of immigrant children in Nordic countries
15.00 – 15.30	Closing ceremony
