Dear Friends and Colleagues,

For the past 11 years, it has been a highlight event in our department's calendar to organise the Singapore General Hospital (SGH) ENT Instructional Course Fortnight, a back-to-back series of ENT cadaveric dissection workshops helmed by renowned International and Local Faculty. Over the years, the program has progressively expanded and covered more subspecialty areas and topics. Today, it gives me great pleasure to announce that the SGH ENT Instructional Fortnight 2016 will be held from 2 – 11 July 2016 at Academia, located with the SGH Outram Road campus.

This year's programme will consist of the inaugural Endoscopic Ear Surgery Course, the 13th Otology & Neuro-Otology Course, the 7th Functional Septorhinoplasty Course and the 20th Functional Endoscopic Sinus & Skull Base Surgery Course. The courses are structured to be relevant and appealing to practicing surgeons as well as ENT Residents in various stages of training. We will retain flexibility to ensure that those with various levels of surgical expertise are given the opportunities that commensurate with their aspirations for the course, with the possibility of performing advanced surgical dissections under supervision of the faculty.

I look forward to welcoming you to Singapore and to meeting you in person in July 2016!

Dr Barrie Tan
Head and Consultant
