

Hawks Cay Resort is the only resort in the continental United States that features an on-site dolphin research facility, with a variety of educational and exciting programs for the entire family to enjoy. Located just a few miles from the dock are the only living coral reefs in the continental United States, the strong Gulfstream currents, the fish-filled waters of Everglades National Park, and many productive local flats and bridges. Hawks Cay Marina features knowledgeable and friendly Florida Keys fishing captains, guides, and a complete fleet of charter boats, rides, and rentals to accommodate anglers and water lovers of all ages and skill levels. The resort also offers plenty of activities for children and teens. For adults, the Calm Waters Spa provides an exceptional yet unassuming escape where you can indulge in island-inspired spa treatments. From a romantic dinner at Alma and a cozy glass of wine by the fire pit, to a toes-in-the-sand lunch at Beach Grill, Hawks Cay restaurants offer diverse menus and settings all within a short stroll from your room. All rooms feature amenities such as premium bedding, bathrobes, flat screen TV, wireless Internet access, mini-fridge, and safe.

HOTEL RATES: A portion of the room rate is used to partially offset the cost of refreshments served during the meeting for participants only. Rates do not include 12.5% tax and daily Resort Fee* which is reduced from \$39 + tax to \$26 + tax, per day **for those who book through NWS/NWWT only**. Rates are single or double occupancy. Additional guests \$20 each. All rooms are non-smoking.

MEDICAL DIRECTOR: Mark Murphy, MD, MSN Education, Austin, Texas and Northwest Seminars, Pasco, Washington

TARGET AUDIENCE: This course is designed for physicians, physician assistants, nurse practitioners, registered nurses, paramedics, pre-hospital emergency medicine care providers and all other medical care providers who must maintain state-of-the-art knowledge of the specialty or are impacted by it.

PROGRAM PURPOSE: The practitioner of emergency medicine must possess evidence-based scientific background for competent clinical practice; maintain state-of-the-art knowledge of the specialty and all additional related disciplines; maintain an up-to-the-minute armamentarium of knowledge and skills for the selection and use of complex equipment, pharmacological agents, and procedures; manage self and colleagues to function toward common goals in providing consistent care in all settings in which emergency care is provided; serve as an expert in matters involving quality, safe and equitable health care delivery and support of other service providers, departments, institutions, and organizations dependent upon professional expertise. Presentations are designed to facilitate the acquisition of cognitive and technical skills as defined through evidenced based data translated to best practice standards by the pertinent governmental and professional organizations including the American College of Emergency Physicians, American College of Surgeons and the Emergency Nurses Association and abilities in one or more of the disciplines vital to the practicing professional.

OBJECTIVES: At the conclusion of this activity, the participant will be able to:

Apply the pertinent physical and behavioral sciences as they impact and are affected by the planning, delivery, and monitoring of services inherent in the professions

Explain the selection, dosing considerations with methods of administration, safe use, contraindications and precautions of drugs based on their chemical and pharmacologic properties

Outline comprehensive patient management plans for the special patient population

Apply the principles of safety and asepsis in the performance of all aspects of patient care regardless of the clinical environment in which the practice resides

Incorporate the published tenets of pertinent, recognized external organizations, institutions, and professional groups defining medical, legal, philosophical, ethical, and health care management standards.

ACCREDITATION: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of The A. Webb Roberts Center for Continuing Medical Education of Baylor Scott & White Health and Northwest Seminars. The A. Duck Key If you've had enough of an overcrowded and weary world, the islands of the Lower Keys are the place for you. You can snorkel or dive over the Looe Key coral reef, ride a bicycle through Key Deer country, take a fishing adventure in the back country, or troll the deep blue waters beyond the reef. Hawks Cay Island Resort, located midway down the Florida Keys on the secluded 60 acre island of Duck Key, offers some of the world's best fishing, exciting water sports, dolphin interaction programs, a saltwater lagoon, five gorgeous swimming pools, and luxurious accommodations. Other nearby Keys have hidden treasures for everyone to discover. At Marathon's Crane Point, visitors can hike through a wondrously preserved tropical hardwood grove and visit the home of an early 20th Century settler family. Sombrero Reef, a federally protected section of the United States' only living coral barrier reef, lies just a few miles offshore. Marathon's natural environment has activities for everyone. Spectacular sailing, fishing, diving, snorkeling, scuba, and more. Discover the island's impeccably maintained Sombrero Beach and a host of eco-attractions and marine-based environmental programs such as turtle encounters. Beyond that are the deep blue waters of the Florida Straits, which host world-class wreck diving on artificial reefs. Plan a vacation with your family and friends where you can dine in exquisite restaurants and relax in a full-service spa, while kids and teens have fun, all in the casual, relaxed pace of the Keys. Daily flights are offered into nearby Miami (90 miles), Fort Lauderdale (130 miles), and Key West (60 miles) International airports. Having a rental car is advised. For those who prefer to travel via water, Hawks Cay can easily be reached via the Atlantic Ocean or Gulf of Mexico and offers a full-service marina, with dockage for vessels up to 110 feet.

We have a block of rooms for seminar participants. Once this block is sold, rooms are based upon availability only and may be at a higher rate. To make reservations, please visit our website: www.northwestseminars.com or call (800) 222-6927.
