Course Directors: Emily F. Conant, MD and Jill E. Langer, MD

22.5 AMA PRA Category 1 Credit(s)[™] | 16 SAM credits

*Jointly provided by
Postgraduate Institute for Medicine and Penn Medicine*

Postgraduate Institute
for Medicine

THIS PROGRAM OFFERS A BROAD RANGE

of lectures in breast, thoracic, thyroid, and abdominal imaging and will review evolving guidelines and imaging techniques. Diagnostic radiologists in clinical practice will benefit from the practical tips expert faculty will offer to enhance their imaging interpretation skills. Course faculty will also discuss diagnostic pitfalls and outline indications for the complementary use of different imaging modalities.

TARGET AUDIENCE: Practicing radiologists, residents, fellows, radiologic nurses, physician assistants, and others who perform and interpret imaging examinations or are interested in current techniques and applications in diagnostic imaging. Breast surgeons, endocrinologists, internal medicine physicians, gynecologists, gastroenterologists, and other providers who order imaging procedures will benefit from attending this activity.

Emily F. Conant, MD

Professor of Radiology | Chief of Breast Imaging
Vice-Chair, Faculty Development

Jill E. Langer, MD

Professor of Radiology | Chief, Ultrasound (HUP)
Program Director, Abdominal Imaging Fellowship
