

DENTAL IMPLANT LIVE PATIENT PROGRAM

Dear Doctor,

I hope this email finds you well. Below is a summary, which covers most questions regarding our Dental Implant International Live Patient Program.

PROGRAM OVERVIEW

This program is specifically designed to teach dental practitioners how to successfully approach and treat a wide range of dental implant cases on Live Patients. For 4 full days, you will place multiple dental implants under our faculty supervision and perform the dental surgical procedure of your choice over a large patient selection.

UPON COMPLETION, YOU WILL BE ABLE TO:

- Provide diagnosis, prognosis and properly sequenced comprehensive treatment plans.
- Apply the recommended guidelines for a safe and appropriate dental implant placement.
- Perform basic, intermediate and advanced surgical implant placements with maximum confidence and competency.
- Perform comprehensive examinations, collect clinical data, and document the patient's dental and medical condition.

WHY ITC SEMINARS?

- We teach only inside Universities and Dental Facilities.
- Our patients are guaranteed to be 100% restored.
- Our teaching ratio is 1:4 for optimum learning & dedication.
- ITC Programs meet CE requirements by the ADA, AGD, Dental Board of California, and Dental Board of Florida.
- We ensure scientific integrity and are free of commercial bias.

PACKAGE INCLUDES:

- Unlimited implant supply
- Dedicated dental assistants
- Fully equipped dental stations
- Sterile setup and protocol
- Piezo Handpiece
- Bone grafting material
- Surgical instruments
- Surgical Kits
- Digital X-Rays
- Full transportation
- Five-star accommodation
- Air fare (round-trip from your city)
- Breakfast, lunch, dinner and daily entertainment
- 100% Participation
- 48 CE Credits

SURGERIES PROMOTED

The following are the procedures you will perform in our Dental Implant Live Program:

- Incision and Flap Design
- Step by Step Implant Placements
- Extractions
- Socket Preservation
- Immediate Implant placement
- Growth factors (PRP/PRF/IPRF-sticky bone) preparation techniques
- Suturing Techniques
- Bone Grafting

MAXIMIZE YOUR EDUCATION

ITC Seminars' International Live Patient Programs are customized and tailored to meet the needs, goals, and interests of each individual doctor. Upon registration, you will receive an online surgical survey that evaluates your experience and skills in oral implantology. Within the same survey, you will also have an opportunity to fill out a checklist with all of the different types of procedures that you would like to perform during the live patient program. Based on the results of the online surgical survey, our instructors will select the specific cases/patients for you. This way you can focus on the areas you need the most practice on.

WHAT TO EXPECT ON THIS SEMINAR?

You will perform dental implant placements, related surgeries and bone grafting procedures under our supervision for 4 full days. In order to maximize your learning experience, we limit the number of participants to 8 doctors per live patient program.

You will encounter various kinds of dental cases and surgical situations. Therefore, the number of implants you will place will depend on your skills and the cases you choose to approach. Thus, if you select a case that requires ridge splitting, sinus lift, bone grafting, etc., you may spend an extensive amount of time performing other techniques or procedures that may compensate for the time you could be placing dental implants.

Every morning before the program starts, we have a short lecture and a meeting with all the doctors to evaluate and review the treatment plan for the patients that you will be treating that day. In that moment, with the X-Rays in hand, we evaluate the case and decide the best treatment plan and approach for each patient.

FACULTY

You will have the advantage of being trained by a faculty that has overseen over 25,000 dental implant procedures (oral/maxillofacial surgeons and Doctors of Dental Surgery); they have been involved in dental humanitarian missions for more than 15 years. In this program you will be instructed by faculty from the US, Brazil and UK. Please click [HERE](#) to learn more about our Faculty.

SCHEDULE

The program is 4 full days in Santo Domingo, Dominican Republic (Monday, Tuesday, Wednesday, Thursday), but we require your presence on Sunday for an introductory meeting, welcome and orientation. The program will end and your return will be on Friday.

PACKAGE COST

Please contact me for more information about the cost of this program and the different payment plans that we offer in order to help you cover the cost of this program.

WHAT WE WILL NEED FROM YOU:

- Picture of your Dental License
- Fill out a Registration Form
- Fill out our survey to determine your past experience, interests and goals.
