

ASUM 2022 Expression of Interest – ASUM Scientific Committee

ASUM is currently seeking expressions of interest from our South Australian and Western Australian members interested in joining the scientific committee. The chosen member will create an engaging program for the ASUM 2022 conference at the Adelaide Convention Centre, Adelaide 16 – 18 September 2022.

This year we are looking to change the conference a little from what has been done in the past. Our concurrent sessions will feature integrated topics relevant to all ultrasound users aimed at provoking thought, inspiring new ideas and sparking discussion. These will run alongside the traditional workshop sessions and some smaller interactive sessions. We need small specialty groups of 1-3 people to support the Convenor in creating this innovative program.

Members are invited to submit an expression of interest to volunteer for the following roles;

- Scientific chair/s
- Scientific committee
- Social Committee
- Workshop coordinator

Criteria for this include:

- Align with ASUM mission and values
- Have good communication skills, be inclusive and diplomatic
- Effectively working within or leading a small specialty team
- Have innovative, creative, and bold ideas to bring to the table

If you enjoy learning and sharing your knowledge this is a great opportunity for you to structure the learning based on your expertise, engage with Doctors, Scientists, Sonographers and Allied Health practitioners. This also enables you to further your own network as you work alongside fellow members.

You may not have time to commit to this, but you may have an idea, topic, or speaker you would like to hear – [send us an email](#) and we would be happy to share your feedback with to the Committee.

If you are interested, please:

1. Complete the details of EOI on page 2

Send your EOI to the ASUM Conference officer at conference@asum.com.au

**Should you have any questions regarding these roles, please contact the office on the email above or on +61 2 9438 2078.

THE BOARD OF DIRECTORS WILL FINALISE THE COMPOSITION OF THE SCIENTIFIC COMMITTEE TO ENSURE DIVERSITY AND BROAD MEMBERSHIP REPRESENTATION.

Expression of Interest

Conference Volunteer Position with ASUM 2022

Please complete the following information and return to the ASUM office via email conference@asum.com.au

Title: _____ Surname: _____ Given Name: _____
