- 1:30 PM **Adjourn MRS Meeting**
- 1:30 PM **Resident/ Young Professional Session**

Learning Objectives:

Attendees will be able to...

1. Describe core structure of multidisciplinary quality tracking system RSCAN, and illustrate how such collaborative systems may prove mutually beneficial to both ordering clinical practices and provider radiology services, in the context of soon to be implemented quality assessment programs.
2. Describe rationale for breast density notification laws and name the key considerations in evaluating a supplemental breast screening test.
3. Demonstrate a working knowledge of the planned implementation and metrics of quality assessment programs MACRA and MIPS, with potential economic impacts to practice reimbursement.
4. Summarize structure of the new IR/DR residency, entry pathways, and potential impact to IR/DR radiologist expertise.

How to Register:

Visit www.mnrad.org

Location:

St. Paul Hotel
350 Market Street
Saint Paul, MN 55102 - [View Map](#)
(651) 292-9292
