

OCTOBER 3–5, 2025

**NEW YORK HILTON MIDTOWN
NEW YORK, NEW YORK**

Gaps in education and training have contributed to disparities in the dermatologic and aesthetic treatment of patients with skin of color.

Skin of Color Update is **COMMITTED** to changing that. The goal of the conference is two-fold: first to educate dermatology clinicians and trainees to best diagnose and treat **DERMATOLOGIC DISORDERS** in populations with skin of color, including those that disproportionately affect higher skin phototypes. Second, it strives to educate clinicians and trainees to best treat the **AESTHETIC NEEDS** of patients with skin of color.

In providing the latest updates on **DIAGNOSTIC, THERAPEUTIC**, and **COSMETIC** treatment best practices for dermatologic conditions in populations with skin of color, SOCU equips practitioners to deliver **SAFE, EFFECTIVE**, and **CULTURALLY COMPETENT** care to a diverse patient population.

CONFERENCE CO-CHAIRS

Andrew F. Alexis, MD, MPH
