ARE YOU EQUIPPED TO THRIVE IN THIS TIME OF DISRUPTION?

“IT’S NO SECRET THAT THE HEALTHCARE INDUSTRY IS UNDERGOING A TIME OF
PROFOUND CHANGE.”

For health system leaders, there’s no crystal ball for how to plan and operate facilities during these times of flux—which means our best resource is learning from each other.

The Health Facilities Innovation Forum is a meeting of the minds for senior facilities leaders from the nation’s top health systems to connect and navigate the industry’s greatest challenges by sharing fresh, evidence-based approaches. This year’s gathering will be held at the Rancho Las Palmas Resort in Palm Springs, a relaxing oasis in the heart of the California desert.

The intimate nature of this retreat, with no more than 200 in attendance, also allows participants quality time with decision makers from the industry’s top service providers and suppliers.

We also realize the key draw of business events is networking—which is why we provide an unrivaled environment to do so, with unique social activities from a jeep tour of the San Andreas Fault to a dinner party at one of Palm Springs’ most unique locations.

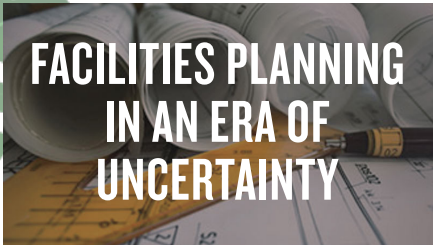

Our goal is for you to leave Palm Springs refreshed, renewed, and connected with a clear vision for growth during these turbulent times—and with the support of like-minded innovators (and friends) from across the country.

Best,

Six lakes and the infamous Ted Robinson bunkers raise the stakes for amateurs and professionals alike.

DINNER PARTY ABOVE THE CLOUDS

The Palm Springs Aerial Tramway—the world's largest rotating tram car—travels over two-and-one-half miles along the breathtaking cliffs of Chino Canyon, transporting riders to the pristine wilderness of the Mt. San Jacinto State Park. During your approximately ten-minute journey, tram cars rotate slowly, offering picturesque and spectacular vistas of the valley floor below. Once you reach the Mountain Station—elevation 8,516 feet—enjoy a delicious dinner with your new friends with stunning views.
