Advanced Trauma Life Support (ATLS) 10th Edition AM Refresher Course

Mandatory Pre Course Requirements	Participants will receive access to the pre test and must complete it prior to the course in order to attend the course
Course Description	Overview. Advanced Trauma Life Support® (ATLS®), is a continuing medical education program designed to teach a standardized, concise approach to the care of the trauma patient in the "golden hour"—the period of time following traumatic injury during which there is the highest likelihood of death
Learning Objectives	As a result of participating in this activity, the physician, ARNP or PA will be able to: • Demonstrate the concepts and principles of the primary and secondary patient assessment • Establish management priorities in a trauma situation • Initiate primary and secondary management necessary within the golden hour for the emergency management of acute-life threatening conditions • In a given simulated clinical and surgical skills practicum, demonstrate the following skills, which are often required in the initial assessment and treatment of patient with multiple injuries
Target Audience	• Emergency physicians, trauma and general surgeons, fellows, residents, APRNs, PAs who work in an emergent role, Anesthesiologists and CRNAs.
