Structure and mechanisms of membrane proteins

2–3 August 2018

Maple House, Birmingham, UK

This meeting will bring together world experts on membrane protein biology, from both academia and industry. Talks will focus on the structure and function of membrane proteins, including transporters, channel proteins and GPCRs, and their role in human health and disease.

Submit an abstract and have the opportunity to present your work through an oral communication slot or poster presentation.

Speakers include:

- Robert Tampe, Goethe University, Germany
- Bonnie Wallace, Birkbeck College, UK
- Raimund Dutzler, University of Zurich, Switzerland
- Stacey Southall, Heptare, UK
- Robert Ford, University of Manchester, UK

And many more!
