

Movement Disorders Advanced Practice Day

Friday 7th November 2025
Alfred Hospital, Melbourne

Attendees will explore the latest in movement disorders care, including current and emerging treatments, advanced clinical assessment skills, and insights from a range of allied health perspectives. The program is designed for Parkinson's disease and movement disorder nurse specialists, as well as those who are keen to further develop their knowledge in Parkinson's and movement disorders, such as nurse educators or neuroscience nursing postgraduate students.

A pre-workshop social event will be held on the evening of Thursday 6th November 2025. Join us for drinks and canapés near the Alfred Hospital in Melbourne (venue to be confirmed).
