CONSENT TO USE PHOTOGRAPHIC IMAGES

Registration and attendance at our meetings and other activities constitutes an agreement by the registrant to AAPS's use and distribution (both now and in the future) of the registrant's or attendee's image or voice in photographs, videotapes, electronic reproductions and audiotapes of such events and activities.

ALL PARTICIPANTS MUST COMPLETE DISCLOSURE OF RELEVANT FINANCIAL RELATIONSHIPS BELOW

☐ **I DO NOT** have a relevant financial relationship with a commercial interest.

Signature _____ Date _____

☐ **I DO** have a relevant financial relationship with a commercial interest. (You MUST list relevant financial relationships below.)

Signature _____ Date _____

First, list the names of commercial interests (defined in the "Glossary of Terms" below) with which you or your spouse/partner have, or have had, a relevant financial relationship within the past 12 months. For this purpose we consider the relevant financial relationships of your spouse or partner that you are aware of to be yours.

Second, describe what you or your spouse/partner received (ex: salary, fee, research grant, etc). The American Association of Physician Specialists, Inc., does NOT want to know how much you received.

Third, Describe your role.

1. Commercial Interest (Example: Company 'X')	Nature of Relevant Financial Relationship (Include all those that apply)	
	2. What was received? (Example: Honorarium)	3. For what role? (Example: Speaker)

EXAMPLE TERMINOLOGY

What was received: Salary, royalty, intellectual property rights, research grant, consulting fee, speaker fee, ownership interest (e.g., stocks, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit.

Role(s): Employment, management position, independent contractor (including contracted research), consulting, speaking and teaching, membership on advisory committees or review panels, board membership, and other activities (please specify).

GLOSSARY OF TERMS

Commercial Interest: The ACCME defines a "commercial interest" as any entity producing, marketing, re-selling, or distributing health care goods or services, used on, or consumed by, patients. The ACCME does not consider providers of clinical service directly to patients to be commercial interests - unless the provider of clinical service is owned, or controlled by, an ACCME-defined commercial interest.

Financial relationships: Financial relationships are those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria, ownership interest (e.g., stocks, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit. Financial benefits are usually associated with roles such as employment, management position, independent contractor (including contracted research), consulting, speaking and teaching, membership on advisory committees or review panels, board membership, and other activities from which remuneration is received, or expected. ACCME considers relationships of the person involved in the CME activity to include financial relationships of a spouse or partner.

Relevant financial relationships: ACCME focuses on financial relationships with commercial interests in the 12-month period preceding the time that the individual is being asked to assume a role controlling content of the CME activity. ACCME has not set a minimal dollar amount for relationships to be significant. Inherent in any amount is the incentive to maintain or increase the value of the relationship. The ACCME defines "relevant" financial relationships as financial relationships in any amount occurring within the past 12 months that create a conflict of interest.

Conflict of Interest: Circumstances create a conflict of interest when an individual has an opportunity to affect CME content about products or services of a commercial interest with which he/she has a financial relationship.
