

KIDNEY DONATION AND TRANSPLANTATION MINI-CONFERENCE

PROVIDED BY THE OFFICE OF CONTINUING MEDICAL EDUCATION
UNIVERSITY OF VIRGINIA SCHOOL OF MEDICINE & SCHOOL OF
NURSING CONTINUING EDUCATION

This half-day conference is designed to educate dialysis unit staff, particularly technicians, enabling them to provide accurate information to their dialysis patients about what they can expect once referred for kidney transplant evaluation. Through partnership with dialysis unit staff, we are able to provide a consistent message about the lifesaving benefit of kidney transplantation, the best option for kidney transplant which is living donation and what patients will encounter as a part of their evaluation.
