Update on Therapeutic Endoscopy

Luigi Sacco Hospital – University of Milan

President: **Pietro Gambitta**

30th November - 2nd December 2017

Stelline Foundation, Milan

Dear Colleagues,

I am delighted to invite you to Milan, Italy, for the Congress "Update on Therapeutic Endoscopy". It will be held from 30th November to 2nd December 2017 at the Stelline Foundation. Join me for an international congress, which will update you on therapeutic endoscopy, a bridge between gastroenterology and surgery. Therapeutic endoscopy is expanding its indications in many pathologies of the GI tract, for instance in the field of biliopancreatic diseases by ERCP and EUS and management of early gastrointestinal neoplasia by EMR and ESD.

This Congress focuses on the expanding aspects of endoscopic procedures in these fields.

Four international experts, Prof. Guido Costamagna for biliopancreatic endoscopy (ERCP), Prof. Naohisa Yahagi for endoscopic resection of early gastrointestinal neoplasia (ESD), Prof. Peter Vilmann and Prof. Marc Giovannini for diagnostic and operative EUS will present the State of the Art of these procedures by lectures and live endoscopy.

An interactive panel discussion will conclude the lectures.

I look forward to your participation and welcoming you in Milan.

Yours sincerely,

Pietro Gambitta

President of the Congress

Update on Therapeutic Endoscopy

Luigi Sacco Hospital – University of Milan

Cari Colleghi,

Sono lieto di invitarvi a Milano, in Italia, per il Congresso "Update on Therapeutic Endoscopy", che si terrà dal 30 novembre al 2 dicembre 2017 presso la Fondazione Stelline. L'intento di questo Congresso è di focalizzare lo stato dell'arte dell'endoscopia interventistica nell'ambito delle patologie del tratto gastroenterico ed in particolare per le malattie biliopancreatiche che si avvalgono della colangiopancreatografia retrograda per via endoscopica (ERCP) e dell'ecoendoscopia (EUS) diagnostica e operativa.

Inoltre l'evento è teso ad evidenziare i passi in avanti che sono stati compiuti nelle tecniche resettive endoscopiche delle neoplasie precoci gastrointestinali (EMR/ESD).

Quattro esperti internazionali, il Prof. Guido Costamagna, il Prof. Naohisa Yahagi, il Prof. Peter Vilmann ed il Prof. Marc Giovannini presenteranno lo Stato dell'Arte di queste procedure mediante letture magistrali, live endoscopy e tavole rotonde.

In attesa di porgervi il benvenuto,
un cordiale saluto

Pietro Gambitta
