About Conference

We are delighted to welcome you to the **World Congress on Stem Cell Science & Regenerative Research (SCSR 2026)**, scheduled to be held on **October 26–27, 2026**, in **Paris, France**, and hosted by the United Research Forum.

Centered around the theme, “**Advancing Stem Cell Science From Discovery to Regenerative Breakthroughs**,” SCSR 2026 will bring together leading stem cell scientists, tissue engineering experts, regenerative medicine specialists, cell biologists, bioengineers, translational researchers, clinicians, and industry professionals from around the world. The congress aims to foster a multidisciplinary platform to accelerate innovation in regenerative therapies and their biomedical and clinical applications.

Over two insightful days, the program will feature keynote lectures, scientific sessions, hands-on workshops, clinical case discussions, and expert-led panel forums. Participants will have the opportunity to explore cutting-edge research, discover advancements in biomaterials, stem cell technologies, and tissue fabrication strategies, and engage in meaningful discussions on the future of regenerative medicine.

We look forward to your participation in this impactful global event and to shaping the future of regenerative science together.
