IMCAS

Shape the future of aesthetics

The last decade has seen an explosion in aesthetic treatments, fueling the aesthetic market and leading to the introduction of innovative tools and treatment options that allow physicians to redefine youth and age. Absorbing and acquiring technical skills is of importance, however what differentiates practitioners who merely follow trends from those who shape the future involves a constant reviewing and challenging of existing knowledge.

IMCAS congresses strive to provide a unique pedagogical approach, gathering the most driven world-renowned experts. The international faculty of 800 physicians this year along with the numerous partnerships with international academic societies are evidence to the collective spirit that we embody. Embracing the junctions and differences in dermatology, plastic surgery and aesthetic science, the scientific program is built upon 15 key themes. From injectables, lasers & EBD, clinical dermatology, face surgery, breast & body surgery, body shaping, peelings, genital treatments to practice management, new technologies and artificial intelligence, the sessions are regrouped into topic series for an in-depth immersion into a core subject.

One of the highlights of the scientific program this year is Artificial Intelligence (A.I.) and robotics. Advances in diagnostic algorithms, sophistications in surgical robotics, imaging technologies for accurate and affordable scans and other technological developments all serve as examples of the emerging revolution that will change the practice itself, similar to the digital revolution physicians experienced at the dawn of the 21st century. The sessions of this series aim to provide insight into how A.I. and robotics can specifically apply to aesthetics, what technologies are currently available, and what it entails for physicians and patients in their everyday interaction.

Another aspect of the program are the two major LIVE events showcasing a simultaneous transmission and screening of live cadaver dissections alongside live procedures on a patient. The Anatomy on Cadaver Workshop on Thursday focuses on the anatomy and techniques pertaining to injectables and threads, as well as echographic scanning to avoid danger zones. The Live Aesthetic Surgery Course on Friday enables you to follow a range of different surgical procedures performed live, juxtaposing with the anatomy of the relevant areas. This live surgery course is endorsed by International Society of Aesthetic Plastic Surgeons (ISAPS), setting the guidelines for safe and effective procedures.

At IMCAS, we believe that shaping the future of aesthetics manifests through an international and intergenerational discussion, giving voice to the future generation of physicians. The young physician day is designed to encourage a new generation to learn from veteran experts, and incite them to present their clinical cases to a high-profile jury of experts. This is an excellent opportunity for them to learn from each other, and push the boundaries of their common perception.

Taking into consideration that it's impossible to be everywhere at the same time, IMCAS Academy, the e-learning platform, offers you a rich library of 3,600 presentations from IMCAS congresses past and present which you can watch anytime, anywhere at your own pace. Be sure to download the free app, and find us at the Academy Booths to discover how you can become a member.

Practitioners travel far and wide from over 112 countries to meet and exchange with others in their field, so we feel it's important to provide an experience that is rigorous in its educational approach all the while creating moments of conviviality and fun. With this in mind, we have organized two social events, the Networking Cocktail and the Gala Dinner for you to unwind and add another level of richness to your congress experience. We hope to see you there.

As you browse the pages of this program and take a close look at the details of the scientific program for the three days, you will discover the exhaustive scope of the educational material for IMCAS Annual World Congress 2020. Aesthetics is a field of rapid evolution, constantly redefining our notion of youth and age. Not only are you a part of this profession, you are also the motor that drives its progress. You shape the future.

Welcome!

Benjamin Ascher

BODY SHAPING
6 learning hours

PEELINGS
4 learning hours

Meeting your educational needs

Sonia Ascher
IMCAS CEO

STEP 1 – SETTING A CLEAR OBJECTIVE

The ultimate objective of our congresses is to deliver the most updated scientific content for participants' successful practice, and the communal progress of all disciplines related to dermatology, plastic surgery and aesthetic procedures. With this in mind, each year the Scientific Board and team conducts an exhaustive analysis to determine the new educational needs of physicians and practitioners.

STEP 2 – SEEKING OUT THE NEEDS

The IMCAS Scientific Board studies the feedbacks and evaluations from participants, and combs through the current publications in peer-reviewed journals to identify the subjects necessary in real-life practices to reinforce the professional development of attendees with latest educational updates.

STEP 3 – STRUCTURING THE PROGRAM

Once the needs are identified, the IMCAS Scientific Board works closely with learned societies and peer-reviewed journals to establish the framework for each session, making sure the recent developments of each theme are presented by prominent experts through innovative and dynamic teaching formats. The sessions are further strengthened through abstracts received. At IMCAS World Congress 2020, more than 800 physicians are orally lecturing or presenting a digital paper. 350 of them are officially invited by the Scientific Board, 300 are given a contributing talk after having submitted an abstract, and 150 are industry speakers.

STEP 4 – ACKNOWLEDGING ANY CONFLICT OF INTERESTS

A Conflict of Interest is a situation in which a speaker has an interest (financial or other) that could be seen as distorting his/her motivation or presentation in any way. Scientific lectures are presumed to be based on objective interpretations of evidence and unbiased interpretations of facts. The integrity of our conference requires all speakers to disclose any potentially distorting influences before and during their lecture. The audience may then judge and, if necessary, make allowances for the impact of bias on the information being presented. In general, safest and most open course of action is to disclose activities and relationships that, if known to others, might be viewed as a conflict of interest, even if speakers do not believe that any conflict or even bias exists. This is why each speaker is asked to display his or her disclosure slide before beginning to lecture.

What if the speaker declares 'no Conflict of Interest'?

Neither the speaker nor any member of his/her immediate family has a significant financial arrangement or affiliation with the product, device or company involved in the congress nor any potential bias against another product, device or company.

STEP 5 – ASSESSING BUSINESS ETHICS

IMCAS is a private corporation and as such is a profit-seeking business. But IMCAS is also conducting educational activities for healthcare professionals and as such business ethics is mandatory.

Addressing business ethics issues in any organization starts with complying with relevant laws and regulations but we all know this is far from being exhaustive. Higher standards obviously apply to healthcare professionals:

- in regards to doctors, medical ethics put patient welfare first and anything that interferes with this primary aim, particularly personal gain, is deemed a conflict of interest (COI – please refer to step 4)
- in regards to corporations, precise line-drawing is not fixed yet. Will it one day?

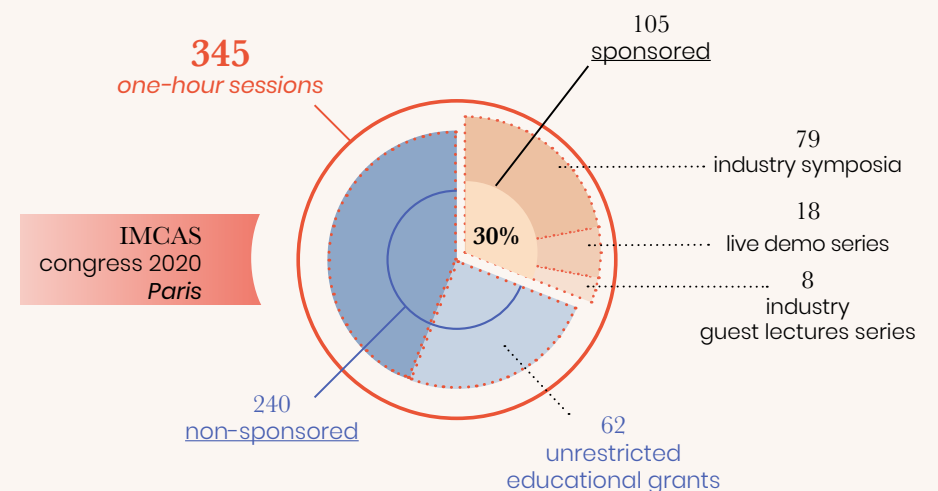

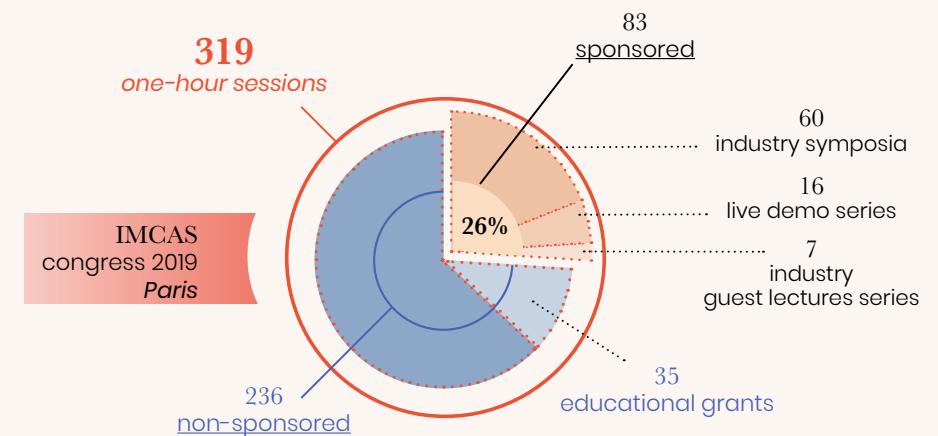

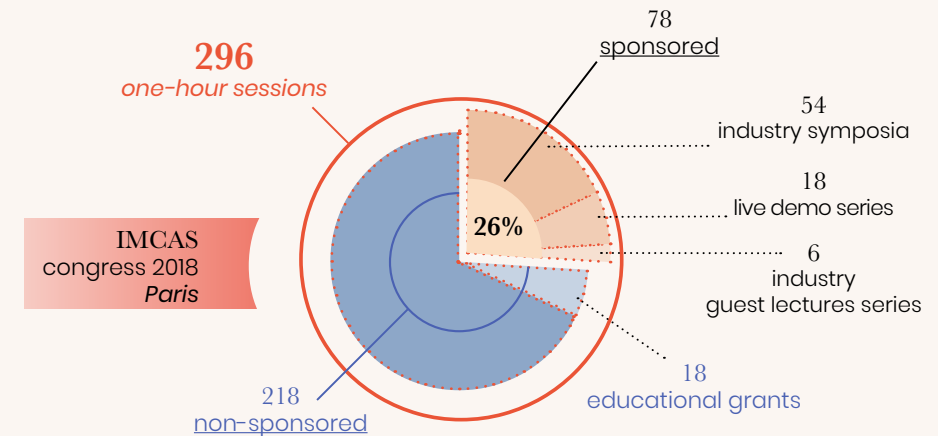

On its side, our management is constantly building a guide of principles designed to help our team of professionals conduct business with honesty and integrity.

To ensure the delivery of a high-quality program content, we enforce equal treatment towards doctors and sponsors, whether "big or small", and towards other influential corporations. As an example, two years ago, we launched a new platform for our industry partners who were sponsoring our event and wished to place an order. At that time, equal opportunities for companies seemed a difficult feat. Today, however we can assure you that fair treatment is becoming a standard.

As our congresses continue to grow in size and spectrum, our main goal continues to be the satisfaction of our attendees. This is made possible through a thorough delivery of the most current and accurate scientific content.

Is there a dilemma that exists between this mission statement and gaining revenue? To us, no. Business, ethics and profit: we sincerely think they are compatible.

In an effort to adhere to our mission of providing objective medical sessions while accommodating an ever-increasing body of attendees, IMCAS works diligently to maintain strict distinction between the scientific and commercial content. The figures below demonstrate that while the scale of the congress and number of sessions grow: sponsored activities are never more than a small percentage within the program, and the educational grants play a major role in preserving objectivity within the scientific program.

WELCOMING OUR SCIENTIFIC PARTNERS

IMCAS works in partnerships with a network of scientific societies from across the globe that contribute in form of expertise on sessions related to their specialty. The collaborations not only ensure that the educational content befits an international audience, but they also mutually nourish the influence and outreach. Our partners are active agents who bring their speciality to the scientific content.

Meet us around the world

The IMCAS team travels throughout the year to share educational knowledge. This year IMCAS holds more than 30 dedicated sessions among the prestigious partner congresses all around the world.

[illegible][illegible][illegible]

Sponsored sessions

at-a-glance

The highlighted sessions below are informative activities prepared by the sponsoring companies who wish to present their latest products and devices in dynamic formats. Choose among a variety of sessions sponsored by a diverse range of companies. The content of these sessions is not endorsed by IMCAS.

INDUSTRY SYMPOSIA (PAGE ON LEFT)

A symposium is a 1-hour presentation taking place in the auditoriums during which sponsoring companies showcase their newest developments, promoting to a large audience all their products, innovations and techniques through lectures, video presentations and live demonstrations.

LIVE DEMONSTRATIONS (PAGE ON LEFT)

Broadcasted from a dedicated medical treatment room, the live demonstrations are 1-hour sessions composed of three consecutive 20-minute demonstrations that allow you to see the products and devices in injectables, threads, lasers & EBD action on stage! Unlike symposia, live demonstrations are moderated, enabling a critical viewpoint to the products or devices shown.

INDUSTRY GUEST LECTURES

These 15-minute talks by industry representatives take place on the Open stage right in the exhibition area, emulating a convivial and interactive environment that incites fruitful discussions. Check our website for the updated list of lectures.

TRAINING LABS

The training programs are specifically designed for small groups of 10 to 15 attendees in a private, medicalized training room. Activities include hands-on opportunities, oral presentations or demonstrations on a patient, all of which are trainings so you can understand the full potential usage of the company's devices and products.

HOSPITALITY SUITES

Hospitality suites are company-tailored conference rooms where KOL speakers share their experience and techniques about the hosting company's products. The seclusion of the suites along with refreshments served create a relaxed environment that stimulates exchange and discussions. Please visit the company booth if you wish to receive an invitation.

WHO'S IN CHARGE?

The organizing company is responsible for the content of a sponsored session, as well as keeping the scientific integrity and compliance with all regulations for ethical practice. The organizing company manages the selection of the materials, speakers and scientific integrity of the session for sponsored activities other than live demonstrations.

WHO CAN ATTEND?

Symposia, live demonstrations and industry guest lectures are open to all badge holders, however access to training labs and hospitality suites are granted by the organizing company. Please stay tuned for more updates about the training labs and hospitality suites available for this year's congress.

ARTIFICIAL INTELLIGENCE & ROBOTICS

Dr Benjamin Ascher
Plastic surgeon, France

So far, the recent emergence of artificial intelligence and robotics in aesthetics has been a sensational revolution. It's a new tool for training, for patient communication platform and for aid in diagnosis. But is it the new physician? The Foundations in A.I. & Robotics in Aesthetics series will focus on this primary question and more. We will be exploring the limits and potentials of current technologies, and pondering together how to discern whether they are true improvement in treatment methods or marketing strategies for noise. Don't forget to submit your abstract in this category.

Session previews
from our experts...

CLINICAL DERMATOLOGY

Dr Hugues Cartier & Merete Haedersdal
Dermatologists, France & Denmark

Dermatology is a multifaceted specialty that is in constant progress, and the aim of the Clinical dermatology and Dermatologic surgery series is to assemble the essential developments that took place in the last year. Over the three days, the sessions will examine clinical dermatology in a medical-surgical context, covering major themes such as hidradenitis suppurativa, acne, pigmented and vascular lesions, psoriasis, vitiligo, photoprotection, melasma, dermoscopy, oncologic and nail surgery. The exhaustive content dedicated to the field is the result of numerous partnerships with academic societies, and every one of the collaborations represent the growing significance of this topic series.

LIVE AESTHETIC SURGERY

Dr Foad Nahai
Plastic surgeon, USA

The purpose of the Live Aesthetic Surgery Workshop is for the surgeon to teach in real time, be available for questions from the audience as she/he operates. Key points will include evaluation of the patient and how that relates to the choice of operation. Our goal is to point out special technical details, nuances of technique and how they are adapted to the patient to assure the best and safest result.

IMCAS ASIA 2020
BANGKOK - JUNE 19 TO 21

IMCAS AMERICAS 2020
SOUTH AMERICA - 2ND SEMESTER

Bangkok holds a dear place in our hearts, for it is the here we hosted our very first congress in Asia. This is why we are thrilled to return to the capital of Thailand to host the 14th edition of IMCAS Asia, in collaboration with the Thai Society of Cosmetic Dermatology and Surgery (ITCAM). This new edition gathers all the upgraded educational material in dermatology, plastic surgery and aesthetic science for attendees to excel in the new decade, with a special focus on the approaches and perspectives from Asia’s finest physicians.

Whether you venture into the heart of this metropolitan city or explore its stunning nature and historic landmarks, Bangkok offers unparalleled discoveries to be made. Be sure to catch the beautiful cityscapes and the exotic temples scattered across the capital. And stay tuned as we continue our research for IMCAS Asia 2021, with old and new contenders in the Southeast, like Bali or the Philippines.

We continue the educational journey of 2020 with IMCAS Americas in South America. Although the final destination is still in pending for decision, our team is on terrain studying possibilities in Argentina, Peru, Mexico or Chile, with the former being a strong prospect. Keep an eye on our homepage for the final choice and congress dates!

General info

CONGRESS VENUE

Palais des Congrès
2 Place de la Porte Maillot,
75017 Paris (France). 40 min from Charles de Gaulles
(CDG) airport, 30 min from Orly (ORY) airport

BADGE ACCESS

IMCAS welcomes all professionals active in the world of aesthetics, including doctors and related professional bodies. Access to conference rooms depends on each badge category, whether the delegate is a board-certified physician, a registered nurse or a corporate professional.

Once you purchase a badge under your name, it is not transferable to another individual. All badge holders receive a wristband upon arrival, which must be worn along with the badge at all times for access to the conference.

Please check our registration form for the badge categories, their accesses and cancellation policy.

CHARGING STATION (ALL LEVELS)

Universal mobile phone charging stations are at your disposal on each level.

CLOAKROOMS (LEVEL 2)

Two cloakrooms are at your disposal, one in Room 252 and the other in the corridor outside Amphi Bleu for a fee of €2 per item.

CONFLICT OF INTEREST (COI) POLICY

IMCAS insists on transparency in all scientific courses, therefore each speaker is required to disclose whether or not their presentations contain any commercial bias or financial support received.

The COI policy applies to anyone who is a speaker during the congress or contributes to the development of the scientific program; this includes all members of the Scientific Board and all faculty members.

CERTIFICATE OF ATTENDANCE & CME ACCREDITATION

IMCAS offers Continuing Medical Education (CME) credits for practicing physicians. To retrieve CME credits, each registered delegate has to fill in the online evaluation form within 30 days following the congress on www.imcas.com. Once completed, a certificate of attendance will be available for download, along with a full explanation on how to claim the CME credits.

EDUCATIONAL GRANT (UNRESTRICTED)

A grant is a financial donation from a company. Funds are given by the donor to support a project or program; however, the scientific content is developed entirely by the Scientific Committee which makes them eligible for CME accreditation. IMCAS World Congress 2020 welcomes 345 one-hour sessions, among which 62 are under an educational grant. Check our dedicated grid for the list of granting companies for this congress.

EXHIBITION (ALL LEVELS)

The exhibition is open all three days on all three floors, and is accessible to all badge holders. Visit our website for the updated list of sponsors.

EXHIBITOR SERVICES (LEVEL 1)

A dedicated information area is available for exhibitors in Rooms 101, 102 & 103

IMCAS Exhibitor services: find the IMCAS industry department here to address any questions from exhibitors.

Linksevent Exhibitor services: Linksevent is the official booth constructors for this congress. For any concerns with booth constructions, please come to the Linksevent services.

Viparis personnel: A staff of Viparis is available for exhibitors who need additional supplies such as catering, electricity, cleaning, etc.

FOOD COURTS & SEATING AREAS (ALL LEVELS)

The venue has two food stations on Levels 1 & 3, and a snack bar on Level 2 with delicious meals and refreshments available for purchase all day. The program includes:

- *30-minute coffee breaks:* all delegates can grab complimentary coffee and tea during these breaks
- *90-minute lunch breaks:* lunch is an option you can add to your badge when purchased online. For only €18 per day, you have your lunch served to-go at any of our food courts. Help us be eco-friendly! Order ahead of time to help us prepare the exact amount in advance and minimize waste.

- *Animation carts:* look out for tuk tuks throughout the exhibition hall, and enjoy the snacks and beverages they offer during the conference period!

GALA DINNER & AFTER PARTY

The Gala Dinner offers a fabulous ending after intensive learning.

Enjoy the fine dining and entertainment at the Pavillon Cambon Capucines and unwind with friends and colleagues. The dinner takes place on Saturday night at 7:30 pm. Reserve your seat online.

HOSPITALITY SUITES

Companies can host internal meetings or welcome their clients, partners and VIP guests in these sponsored meeting rooms.

HOTEL RESERVATION

Please book your accommodation directly through the Alliance Meeting website. Alliance Meeting is the official IMCAS travel agent who will handle all matters concerning hotel accommodation.

Alliance Meeting
Contact: Margaux LLEDO
Phone: +33 1 71 33 14 09
Email: imcas@alliancemeeting.com
Website: <http://imcas.alliancemeeting.com>

IMCAS ACADEMY (LEVELS 1 & 2)

IMCAS Academy is the e-learning platform to have in 2020!
The exhaustive content is now even easier to access with the Academy app. Discover all that IMCAS Academy has to offer at one of the Academy booths. Try it for yourself, and benefit from a special offer available only during the congress.

INFO DESK (ALL LEVELS)

Whether you have questions about the courses or need help finding a room, you can always come to one of the Info desks located on each level where a member of staff will be happy to help you with your query. Find it on the Paris side on Level 1 & 3, or the Neuilly side on Level 2.

INTERVIEW BOOTH (LEVEL 1)

We invite KOLs and faculty members to share their expertise and experiences for video interviews conducted by the IMCAS staff.

LE CAFÉ PARISIEN – VIP LOUNGE (LEVEL 3)

Accessible exclusively to delegates who have registered for the “All Inclusive” Pass or purchased the VIP lounge option, Le Café Parisien is a secluded, comfy lounge that gives you a moment of calm in the midst of the bustling congress.

LEARNING SPOTS

Keep an eye out for these learning spots for additional learning opportunities outside the sessions.

- *E-posters (level 2):* digital presentations displayed in the corridor near Amphi Bleu.
- *Journal corner (level 2):* free access to diverse scientific journals peer-reviewed by medical societies.
- *Magazines and future congress desk (level 3):* find flyers on upcoming conferences and magazines on dermatology, plastic surgery and aesthetic science that our partners provide.

LOST & FOUND BOOTH (LEVEL 1)

If you're looking for your lost object or wish to drop off an item you found, come by the Lost & found booth next to the Info desk on Level 1.

MEDTECH CODE OF ETHICAL BUSINESS PRACTICE

IMCAS 2020 is COMPLIANT with the MedTech Europe Code of Ethical Business Practice. Event code: EMT17325

NETWORKING COCKTAIL (LEVEL 3)

Taking place on Friday evening in front of Le Café Parisien, the Networking Cocktail provides the perfect opportunity to expand your professional network and to socialize in open and engaging conversations.

OPEN STAGE (LEVEL 1)

Come to the open stage next to the Info desk and tune in on activities happening parallel to the sessions.

- Open stage talks: Oral presentations and discussions taking place in an open stage.
- Interview booth: We invite KOLs and faculty members to animate the exhibition floor by sharing their expertise and experiences through interviews filmed and conducted by the IMCAS staff.
- Congress Video Report: IMCAS AV team catches heated debates between experts on a medical subject.
- Industry guest lectures: Oral presentations sponsored by our industry partners.

OPTIONAL COURSES

Upgrade your learning days with these optional extras for an additional fee at the Registration desk.

- *1-Hour Target Courses:* various 1-hour in-depth courses on a topic of your choice, led by 1 to 2 experts of the theme. We recommend that you choose up to a maximum of 3 Target Courses in order to enjoy the whole congress!
- *2-Hour Video Courses:* various 2-hour courses on a topic of your choice where experts showcase videos for a practical training approach.

PHOTOBOOTH (LEVEL 1)

Take a candid photo with a professional photographer, and relive the congress moments post-congress when the pictures will be uploaded to the IMCAS social networks.

SELFIE CORNER (ALL LEVELS)

Capture the moment forever and bring home a personalized souvenir. Our Selfie corners welcome you during the entire congress.

SPEAKER PREVIEW ROOM – CLUB LOUNGE (LEVEL 1)

- *Preview room:* room with restricted access to speakers only. All speakers must upload their presentations 2 hours prior to sessions as direct plug-in or connection is not allowed in the session rooms.
- *Club lounge:* accessible to Faculty badge holders only, this exclusive lounge offers a deluxe seating area, concierge service, cloakroom, food & beverages.

SPONSORSHIP

A sponsorship for a session entails a partnership with IMCAS and the sponsoring company. A company provides direct financial support for an activity and in return, the sponsoring company may present lectures promoting their product. The content of these sponsored sessions is therefore not endorsed by IMCAS.

IMCAS World Congress 2020 welcomes 345 one-hour sessions, among which 105 are sponsored. Check our dedicated grid for the list of sponsoring companies for this congress.

TRANSLATION HEADSETS (LEVEL 2)

The official conference language is English, but simultaneous translation from English to Russian is offered in selected rooms. Headsets can be rented at the Info desk on Level 2 for €100.

NEW EXPERIENCES & EVENTS

- Backup rooms (Level 1 & 2): two rooms on two floors (room 151 on Level 1 and room 241 on Level 2) are now open in case of overflow! If a session room becomes too crowded, our staff will guide you to the closest backup room so you won't miss a thing.

- Coworking space with seating area (Level 3): for the participants who are always “on-the-run”, the coworking space provides a quiet area to boost your productivity.

- Grand opening ceremony: a grand opening for a grand event, join us during the first lunch break of the congress for this inauguration ceremony featuring our scientific board, KOLs and special guests.

- Meeting point: every floor of the venue has a tall post marked “Meeting point” where you can give rendez-vous to regroup.

- Professional portrait studio: this photo studio equipped with a professional photographer and a make-up artist provides a complimentary service for professional portraits.

- Raffle: come to the Samyang booth and drop off your raffle ticket. The draw for the winner takes place on Friday during the coffee breaks.
