

Hands-on Specimen Course— Advanced Techniques & Surgical Skills

Cervical Spine Research Society – Europe

FEBRUARY 8-9, 2024 SALZBURG, AUSTRIA

info@csrs-europe.org

WELCOME TO SALZBURG

Welcome to Salzburg!

The CSRS-Europe harks back on a long history of successful Hands-on surgical courses in Barcelona! It is now a great pleasure for us to welcome you for its first Hands-on Specimen Course on Advanced Techniques and Surgical Skills in Salzburg / Austria.

This course aims to train spine surgeons in advanced surgical techniques and in-depth knowledge required to tailor treatment strategies in the presence of patients suffering from complex cervical disorders resulting from progressive degeneration, trauma and infection or tumor as well as congenital anomalies and cervical spine deformity.

The course will combine lectures and detailed hands-on surgical instructions. The Faculty - all highly experienced CSRS-Europe Board members and Guests- will present lectures on different topics cervical spine surgeons are facing when treating complex cases.

After half day of interesting lectures and peer-to-peer discussions on Thursday afternoon, there will be the chance to share experiences and meet old and new friends at the Course Dinner at the restaurant "Fideler Affe".

Friday will be reserved for the Hands-On training at the Institute for Anatomy of the Paracelsus Medical University Salzburg. Beside the possibility for all participants, to practice the gained new theoretical knowledge, at several show stations, advanced techniques will be demonstrated by experts in their field- a great chance to observe valuable tricks and get to know Do's and Don't's from first hand.

Don't miss the opportunity to expand your knowledge and improve your skills!

Michael Mayer, Salzburg

Sandro Krieg, Germany

Robert Morrison, Germany

Bastian Storzer, Germany

COURSE PROGRAM

THURSDAY, FEBRUARY 8, 2024

Paracelsus Medizinische Privatuniversität, Salzburg

15:00	Participants registration
15:30	Welcome Michael Mayer, Heiko Koller
15:35	Introduction of CSRS-Europe Carmen Vleggeert-Lankamp
15:40	Laminectomy & Laminoplasty: Balanced approach for individual selection Carmen Vleggeert-Lankamp
16:00	Anterior and posterior exposure of the vertebral artery: When and how? Gergely Bodon
16:15	Sub-axial fractures: Strategies for sub-axial fractures & dislocation: When to fix and how to reduce them Anton Kathrein
16:30	Balanced approach to cervical myelopathy: When anterior, when posterior and when combined makes sense Sandro Krieg
16:45	C5 Palsy: Causes, management, and prevention Robert Morrison
17:00	Cranio-cervical fractures: Clear strategies for fractures and instabilities Petr Vachata
17:15	Approach to cervical spine deformity: What to look for and what to aim for? Heiko Koller
17:30	Break and refreshment
18:00	Persisting indications: Transoral vs. high anterolateral approach: When & how? Deszö Jeszenszky
18:15	Tackling Cervical CSF leakages: Diagnosis and treatment Jörg Klekamp
18:30	Preventing and treating dysphagia after cervical spine surgery Bastian Storzer
18:45	Conclusion Michael Mayer, Heiko Koller
19:00	Adjourn
19:30	Course Dinner

COURSE PROGRAM

FRIDAY, FEBRUARY 9, 2024

Paracelsus Medizinische Privatuniversität, Salzburg

08:45	Meeting at the lab
09:00	Anterior subaxial cervical approach: Surgical techniques for anterior release, corpectomy & decompression Gergely Bodon
09:15	FIRST CADAVER PRACTICE : Anterior cervical approach, vertebral artery exposure & corpectomy all
10:00	SHOW-Station: Transoral & high anterolateral approach Deszö Jeszenszk
10:45	Coffee break
11:00	Cranial-cervical instrumentation: Techniques & pitfalls: C1 & C2 instrumentation & release techniques Michael Mayer
11:15	Posterior sub-axial instrumentation: Lateral mass, lamina, and pedicle screws fixation & bailout techniques Sebastian Hartmann
11:30	SECOND CADAVER PRACTICE : Anatomical C0-C1-C2 & related posterior techniques all
13:00	Lunch
14:15	THIRD CADAVER PRACTICE: C3 - T4 Posterior techniques: Laminectomy & laminoplasty, lateral mass, lamina & pedicle screw fixation, osteotomies all
15:15	SHOW-Station: Basic release & osteotomy techniques Heiko Koller
15:45	SHOW-Station: Laminoplasty Carmen Vleggeert-Lankamp
16:15	SHOW-Station: Dural closure & Patch techniques Jörg Klekamp
17:00	Adjourn

EVENT ORGANISATION

Registration fee: 900 Euros

Included in the course fee is course materials, full access to cadaveric dissection sessions, light refreshments, a lunch and a course dinner. Accommodation is NOT included.

Organisation

GENERAL INFORMATION

Intellectual property

Event materials, presentations, and case studies are the intellectual property of the event faculty. All rights are reserved.

Recording, photographing, or copying lectures, practical exercises, case discussions, or any event materials is strictly forbidden.

The CSRS-E reserves the right to film, photograph, and audio record during its events. Participants must understand that in this context they may appear in these recorded materials. The CSRS-E assumes participants agree that these recorded materials may be used for the CSRS-E's marketing and other purposes, and that they may be made available to the public.

Security

Wearing of a name tag is compulsory during lectures, workshops, and group discussions.

No Insurance

The event organization does not take out insurance to cover any individual against accident, theft, or other risks.

Use of mobile phones

Use of mobile phones is not permitted in the lecture halls or in other rooms during educational activities. Please be considerate of others by turning off your mobile phone.

Acknowledgement

„The CSRES-E sincerely thank those who donated their bodies to science so that anatomical research could be performed. Results from such research can potentially increase mankind's overall knowledge that can then improve patient care. Therefore, these donors and their families deserve our highest gratitude.“ Iwanaga, Joe, et al. Clinical Anatomy, 34(1) 2-4, 2021.

Sponsors

We thank you our sponsors for the unrestricted educational grant and in-kind support, without which the course could not take place.
