Children's Hospital
18th annual
education day
in paediatric
anaesthesia
19th November 2018

Invitation

to an education day at the Great Hall,
St Bartholomew's Hospital, London

We are pleased to invite you to our 18th annual education day in paediatric anaesthesia. This year we are presenting an array of talks and conversations looking at innovative ideas that may become the norm in the future.

We will have lectures and short presentations, debates and discussions featuring internationally renowned speakers from the USA and UK. A new feature will be the Innovations Roadshow in which, similar to the television programme, we will hear experts present their favourite advance in paediatric anaesthesia followed by a question and answer session.

As usual our day is aimed not only at paediatric anaesthetists, surgeons and emergency medical professionals, but also the nurses and theatre staff who work with them.

We hope to welcome you in November to what is sure to be another enjoyable and thought-provoking day.
