OVERVIEW

We are in the 11th year of the Annual European Medical Information and Communications Conference.

This is a unique meeting organised by medical information professionals for medical information professionals. Each year, speakers share hands-on experience dealing with current challenges as well as successes in medical information departments. Participants are encouraged to take part in workshops and discussions within the sessions. This is also a great opportunity to network with your colleagues.

OBJECTIVES

- To offer a neutral platform for professionals to share operational best practices and discuss how evolving business, regulatory and legal requirements impact the practice of medical information
- To provide opportunities for medical information departments to showcase success stories or stories to learn by, in the popular "Putting Theory into Practice" session
- To explore the impact of new technologies on information delivery and customer interactions
- A dedicated poster session will also provide an opportunity to broaden the topics at the conference to other areas

This programme is in development.
