

**INTERNAL MEDICINE FOR PRIMARY CARE:
GASTROENTEROLOGY/GERIATRICS/INFECTIOUS
DISEASES/ORTHOPEDICS**

**Maui, HI - Andaz Maui at Wailea
September 13 - 17, 2026**

Sunday, September 13, 2026

2:30 pm

Check-In

3:00 pm - 4:00 pm - Orthopedics

The Knee: Anatomy, Common Injuries, and Exam Techniques

ACL, meniscus, MRI; common sports injuries; osteoarthritis and hyaluronan; bursitis: prepatellar, pesanserine; baker's cyst; joint injection/X-ray interpretation; pediatrics

4:00 pm - 5:00 pm - Orthopedics

Hip and Thigh

Emphasizing the tools, physical diagnostic techniques and basic investigations available to the primary care practitioner, a practical approach to the undifferentiated hip problem will be reviewed. Diagnostic triage, historical clues and physical examination pearls pertaining to hip conditions will be covered, and evidence-based management

5:00 pm - 6:00 pm - Orthopedics

Ankle and Foot

This presentation will address a series of common acute and chronic injuries and pain syndromes to the foot and ankle as they would present in the primary care setting. The focus will be on developing a working differential diagnosis based on the historical mechanism of injury and exam findings.

6:00 pm

Session Adjourns

Monday, September 14, 2026

7:00 am

Arrival and Breakfast

7:30 am - 8:30 am - Geriatrics

Approach to the Geriatric Patient

The demographics of aging and the physiologic changes in the elderly patient; Medication use in the elderly including changes in age-related pharmacokinetics and pharmacodynamics and medication adherence; Review of risky medications often used in elderly patients

8:30 am - 9:30 am - Geriatrics

Heart Failure in Older Adults

Recognition of the high mortality associated with heart failure; Understanding how to diagnose heart failure and the difference between reduced ejection fraction and preserved ejection fraction heart failure; Evidence based treatments available for heart failure

9:30 am - 9:40 am

Coffee Break

9:40 am - 10:40 am - Geriatrics

Urological Disorders in the Older Adult

Review of two very common conditions seen in the elderly population: benign prostatic hyperplasia (BPH), and urinary incontinence; Pathogenesis, clinical symptoms, recommended evaluation and management options for BPH; Review of the anatomy and mechanism of normal urinary function, causes of incontinence, the evaluation and management

10:40 am - 11:40 am - Orthopedics

The Shoulder: Anatomy, Common Injuries, and Exam Techniques

Rotator cuff syndrome; impingement, frozen shoulder; subacromial bursitis; bicipital tendonitis; A-C joint disease

11:40 am - 12:40 pm - Orthopedics

Wrist, Hand, and Fingers

Carpal tunnel, CMC arthritis thumb, ganglion cyst, trigger finger, de Quervains disease.

12:40 pm

Session Adjourns

Tuesday, September 15, 2026

7:00 am

Arrival and Breakfast

7:30 am - 8:30 am - Gastroenterology

Management of Lower GI Bleeding- From Occult to Massive

The correct use and interpretation of tests for occult blood in the stool will be discussed in relation to lower GI bleeding; focus on the utility of different diagnostic and management approaches to the spectrum of patients presenting with hematochezia

8:30 am - 9:30 am - Gastroenterology

Colorectal Cancer Screening and Surveillance

Reviews the most recent recommendations for CRC screening in the general population at average risk for CRC.

9:30 am - 9:40 am

Coffee Break

9:40 am - 10:40 am - Gastroenterology

Celiac Disease and Chronic Diarrhea

Millions of Americans are now on a gluten free diet. Only some of them actually have Celiac disease. We will review the workup of diarrhea and malabsorption with a focus on celiac disease; We will discuss how to diagnose celiac disease when a patient is already on a gluten free diet and an appropriate differential diagnosis

10:40 am - 11:40 am - Geriatrics

Alzheimer's & Other Dementias

Review of normal age-related changes in cognitive function as well as disorders of memory and cognition as part of dementing illness; Mental status exams, including their limitations in evaluating memory; Various types of dementia and the importance of an accurate diagnosis; Current treatment options for various kinds of dementia; Potentially reversible dementias; The responsibilities of healthcare providers in managing patients with dementia

11:40 am - 12:40 pm - Geriatrics

Managing Behavior Problems in Dementia Patients

Review of common behavior disorders often seen in patients with dementia; Behavioral techniques which have shown to be effective in managing some of the behavior disorders in patients with Alzheimer's and other dementias, focusing on the management of these patients without the use of psychotropic medications; Examples of behavior disturbances along with the behavior management technique which was effective in managing the patient with the behavior problem; Review of the potential adverse effects of the psychotropic medications usually used to manage behavior

12:40 pm

Session Adjourns

Wednesday, September 16, 2026

7:00 am

Arrival and Breakfast

7:30 am - 8:30 am - Infectious Diseases

Skin & Soft Tissue Infections

Presentation on important skin and soft-tissue infections and their prompt recognition, emphasizing evaluation and management strategies

8:30 am - 9:30 am - Infectious Diseases

Respiratory Tract Infections

Discussion highlighting critical points regarding the diagnosis and management of pneumonia and bronchitis – with a focus on the impact of multidrug resistant pathogens

9:30 am - 9:40 am

Coffee Break

9:40 am - 10:40 am - Infectious Diseases

Gastrointestinal Infections & Clostridioides Difficile

Presentation on important enteric pathogens and their recognition, diagnosis and management; special emphasis on clostridioides difficile colitis and related updates from the ID and infection control literature

10:40 am - 11:40 am - Gastroenterology

Hepatitis B and C Management

HBV screening: whom to screen, whom to vaccinate; management of patients with decompensated hepatitis B related liver disease; treatment in special populations

11:40 am - 12:40 pm - Gastroenterology

Fatty Liver Disease

Definitions; epidemiology and natural history; diagnostic tests; when to refer for liver biopsy; treatments and interventions; and, prognosis and risk for cirrhosis, hepatocellular cancer, and need for liver transplantation

12:40 pm

Session Adjourns

Thursday, September 17, 2026

7:00 am

Arrival and Breakfast

7:30 am - 8:30 am - Infectious Diseases

Genitourinary Infections

Presentation on a relevant and clinically practical approach to the patient with genitourinary complaints focusing on the latest guidelines for the range of urinary tract infections and highlights of selected and important sexually-transmitted disease syndromes.

8:30 am - 9:30 am - Infectious Diseases

Immunizations

Presentation on key vaccine preventable diseases and their presentations with an emphasis on the latest recommendations including newest schedules, safety and efficacy information

9:30 am

Conference Adjourns

Target Audience

This program is targeted to office-based primary care providers and other health professionals with updates in primary care medicine

Learning Objectives

Upon completion of this program, participants should be better able to:

- Describe the anatomy and function of the knee joint
- Diagnose and treat orthopedic problems in the hip, thigh, knee and shoulder
- Recognize chronic injuries and pain syndromes to the foot and ankle
- Diagnose and treat shoulder injuries
- Diagnose and treat wrist, hand, and finger injuries
- Utilize a comprehensive geriatric assessment to identify potential issues in the elderly patient
- Describe the assessment and evidence-based treatment plans for heart failure (both reduced and preserved ejection fraction) in collaboration with cardiology
- Review common lower urinary tract symptoms (LUTS) that may progress to urinary incontinence, and initiate treatment options
- Diagnose and treat cognitive impairment, dementias, and Alzheimer's disease
- Discuss strategies for the management of difficult behaviors in patients with dementia without the use of psychotropic medications
- List current treatment recommendations for the management of lower GI bleeding
- Discuss the guidelines for colonoscopic colorectal cancer screening and surveillance
- Recommend appropriate testing for the workup of celiac disease
- List current treatment recommendations for HBV and HCV
- Recognize when to refer a patient for liver biopsy
- Review epidemiology and microbiology of skin and soft tissue infections (SSTI)
- List common causative pathogens for various respiratory tract infections
- Evaluate the severity of diarrhea and evaluate the need for treatment
- Diagnose and manage genitourinary infections
- Recommend appropriate immunizations based on patient specific risk factors

Disclosure of Relevant Financial Relationships

Medical Education Resources ensures balance, independence, objectivity, and scientific rigor in all our educational activities. In accordance with this policy, MER identifies financial relationships with its instructors, content managers, and other individuals who are in a position to control the content of an activity. All relevant financial relationships have been mitigated by MER to ensure that all scientific research referred to, reported, or used in a CE activity conforms to the generally accepted standards of experimental design, data collection, and analysis. MER is committed to providing learners with high-quality CE activities that promote improvements or quality in healthcare, and not the business interests of an ineligible company.

Disclaimer

The content, views and opinions presented in this educational activity are those of the authors and do not necessarily reflect those of Medical Education Resources. The authors have disclosed if there is any discussion of published and/or investigational uses of agents that are not indicated by the FDA in their presentations. Before prescribing any medicine, primary references and full prescribing information should be consulted. Any procedures, medications, or other courses of diagnosis or treatment discussed or suggested in this activity should not be used by clinicians without evaluation of their patient's conditions and possible contraindications or dangers in use, review of any applicable manufacturer's product information, and comparison with recommendations of other authorities. The information presented in this activity is not meant to serve as a guideline for patient management.

Accreditation Statements

Joint Accreditation for Interprofessional Continuing Education

JOINTLY ACCREDITED PROVIDER™
INTERPROFESSIONAL CONTINUING EDUCATION

In support of improving patient care, Medical Education Resources is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

This activity was planned by and for the healthcare team, and learners will receive 20 Interprofessional Continuing Education (IPCE) credits for learning and change.

Physician Credit Designation

AMA PRA Category 1 Credits™

Medical Education Resources designates this live activity for a maximum of 20 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

American Board of Internal Medicine MOC Recognition (ABIM)

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 20 (part II) MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

American Academy of Family Physicians (AAFP)

AAFP has reviewed Internal Medicine for Primary Care: Gastro/Geri/ID/Ortho and deemed it acceptable for up to 20.00 Live AAFP Prescribed credit(s). Term of approval is from 9/13/2026 to 9/17/2026. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

American Osteopathic Association (AOA)

These programs are approved for 20 hours in Category 2-A by the American Osteopathic Association.

American College of Emergency Physicians (ACEP)

This program is approved by the American College of Emergency Physicians for a maximum of 20 hours of ACEP Category I credit.

Canadian Physicians

The American Academy of Family Physicians (AAFP) and the College of Family Physicians of Canada (CFPC) have a bilateral reciprocal certification agreement whereby: CME/CPD activities held across the Canada - U.S. border are certified according to the nationality of the primary target audiences regardless of where the providers are located. The activities will be reviewed according

to the criteria of the certifying organization.

Nursing Credit Designation

American Nurses Credentialing Center (ANCC)

Medical Education Resources designates this live activity for a maximum of 20 ANCC nursing contact hours. Nurses will be awarded contact hours upon successful completion of the activity.

This activity is designated for 8.5 ANCC pharmacotherapeutic contact hours.

American Academy of Nurse Practitioners (AANP)

The American Academy of Nurse Practitioners (AANP) Certification Board recognizes and accepts continuing education (CE) contact hours from activities approved by AMA, ACCME, ANCC, AANP, AAFP and AACN.

California Board of Registered Nursing

Medical Education Resources is approved by the California Board of Registered Nursing, Provider Number 12299, for 20 contact hours.

Physician Associates Credit Designation

American Academy of Physician Associates (AAPA)

Medical Education Resources has been authorized by the American Academy of PAs (AAPA) to award AAPA Category 1 CME credit for activities planned in accordance with AAPA CME Criteria. This activity is designated for 20 AAPA Category 1 CME credits. PAs should only claim credit commensurate with the extent of their participation.

Pharmacy Accreditation

Accreditation Council for Pharmacy Education (ACPE)

Medical Education Resources (MER) designates this live continuing education activity for 20 contact hours (2.0 CEUs) of the Accreditation Council for Pharmacy Education.

Universal Program Number: JA0003680-0000-26-XXX-L01-P

Participants will be required to sign in at the start of the program and/or complete a program evaluation.

Credits will be uploaded into CPE Monitor within 60 days of the activity.

This activity is certified as Knowledge-based CPE.
