BENEFITS OF ATTENDING:

Having attended GPHC2023, participants will be better prepared to:

- Engage in health systems thinking with experts in public health
- Gain insight into the latest technologies in health care
- Debate the future of clinical Public Health and the implications for training
- Identify public health challenges and related solutions, trends, emerging issues and gaps
- Utilize effective evidence-based public health programs, practices, structures and systems
- Learn from global experts about capacity building & scope of practice of Public Health Medicine

CONGRESS OBJECTIVES

This congress aims to improve public health by:

- Empowering Global Public Health Professionals to Collaborate, Innovate and help to shape the Future of Global Public Health.
- Engaging diverse voices, ideas, vision and actions of committed professionals and citizens to strengthen and transform global public health effort and influence decision makers within and beyond the health sector.
- Analysing, demonstrating, and sharing local, regional and global public health lessons with a special focus on the reduction of inequities and inappropriate discrimination.
- Examining the effective translation of evidence-based science into action.
- Articulating and promoting the pivotal role of health in sustainable development goals (SDGs).
- Supporting and nurturing the next generation of public health leaders.
- Building on the intent of the Global Charter for Public's Health.

WHO SHOULD ATTEND

Anyone who is interested in improving the health and well-being of the entire population can attend this conference. This conference may be of particular interest to: academics and researchers; students/trainees; policy-makers, administrators and managers; health promotion workers; front-line public health workers; media; people working in urban, rural, remote and small communities and anyone with an interest in public health. GPH2023 will be useful to participants from both the Industry and Academia working in all the domains of Health care sectors, the target audience includes....

- | | |
|--------------------------------|--|
| • Nurses & Nurse practitioners | • Boards of Health |
| • Health care analyst | • Dentists & Dental Hygienists |
| • Epidemiologists | • Family Physicians |
| • Researchers | • Laboratory Scientists |
| • Scientists | • Mental Health Professionals |
| • Health care experts | • Pediatricians |
| • Nutritionists & Dietitians | • Pharmacists |

We believe your paper deserves to meet its ultimate research destination. With the aim of locating your research to the right destination, Nursing & Healthcare 2023 has amplified its publication opportunities by partnering with URF Publishers. The Journal of Integrated Healthcare (JIH) aims to represent and publish research articles on high interest in multidisciplinary range of healthcare areas delivered by clinicians and healthcare professionals involved in delivering integrated healthcare. It promotes medical research for clinicians, basic scientists, and others in advancing the integration of multiple disciplines into diverse health care settings, entertains original research articles focusing on various streams of health sciences. Articles with clinical interest and implications will be given preference. All participants will be encouraged to submit an extended full manuscript to one dedicated Special Issue in “Journal of Integrated Healthcare” on discounted Article Processing Charge (APC) and will be subjected to double-blind reviewing process and will be published electronically with an ISSN a DOI Number.

LETTER FROM THE CHAIRMAN

Dear Colleagues and Health Care Providers,

Global Public Health Conference (GPHC2023) is held annually by United Research Forum, UK (URF). This time the Congress will take place in Singapore from 24 to 25 August 2023 at Hotel Grand Central. It is a must-attend event for all who work in public health, environmental health, primary care, health promotion, health education, laboratory sciences and more!

As we transition to life post-pandemic, it is imperative that public health continues to evolve. The pandemic illustrated the need for new collaborations, partnerships, and programmatic functions to reach all communities. The 2023 conference theme is **Multidisciplinary Approach to Meet the Complex Challenges of Public Health Promotion and Health Care Management**. It reflects the global health community’s commitment to work together providing the opportunity to showcase public health practices that improve the health of the community.

Global Public Health Conference (GPHC2023) brings all public health professionals, researchers, policy-makers, academics, students and trainees come together to strengthen efforts to improve health and well-being, to share the latest research and information, to promote best practices and to advocate for public health issues and policies grounded in research. GPHC2023 also aims to bring together public health experts from international, national, state and local levels during keynote sessions, concurrent session presentations, and poster presentations to share best practices and lessons learned from the field. .

The conference will focus on how the public health community can re-lay the foundations for a system that focuses not only on health outcomes, but also on innovation and sustainability. We must act now, making real our commitment to health in all policies, as well as to safeguard and nurture a world in need of healing and protection. Our experts will also evaluate the impact of the pandemic on the public health medicine profession and its evolution throughout the pandemic.

In Singapore, we are expecting to attract over 500+ delegates. The Congress serves as an international forum for the exchange of knowledge and experiences on key public health issues, contributing towards protecting and promoting public health at a national and global level.

We kindly ask you to stay in attendance and participate throughout the event, to the best of your abilities, in order to maximize the benefits from the GPHC2023 experience. The final conference agenda will be available in August 01, 2023 once the admission for GPHC2023 is closed and the list of registered presenters has been finalized. We look forward to welcoming you to an inspiring, educational, and enjoyable program in Singapore in August 2023

Benefits of Attending:

- Networking opportunity with eminent speakers and business professionals from world-wide
- Certificates of participation with CPD accredited
- Awards for Best Presentations
- Abstracts published in conference proceedings with ISBN and DOI
- Discounts on group booking

Grants

Don't have funds to attend GPHC2023 in Singapore? Look at our Ambassador Program, encourage your referees, make them register for the conference and get all your expenses covered such as registration fee, accommodation and flights covered by our organization.

Get more information about this program. Learn more and sign up [here](#)

Accompanying persons:

Please, note that only registered delegates are allowed in the meeting room and conference area, due to limited space available. Accompanying persons will not be allowed in the meeting room or conference area, unless registered for the conference.

Accommodation

We can offer assistance in arranging your accommodation at the Hotel Grand Central, at discounted rates applicable for the GPHC2023 participants either for single or double occupancy with breakfast, lunch, WIFI and tax included. If you want us to book a room for you, please specify the dates of your stay in the hotel (attached as a separate document and sent along with invitation to the conference), once your flight itinerary has been finalized. Discounted rate applies for the entire period of your stay in the hotel, and may include dates before and after the conference as well. Use code GPHC100 to avail 100\$ discount on your bookings at the hotel. If you need clarification how to avail the use of codes contact johnsurendra@urforum.org or whatsapp at +44-744-880-8243

OUTSDIE FUNDING

A number of our participants receive some sort of funding from their home university. If you are studying or working at the university, please check if they have funds to support attendance of international conferences. If you are employed, check with your organization whether they could sponsor your participation.

SPONSORSHIP & EXHIBITING OPPORTUNITIES

We invite you to partner with us and participate in this major global event by choosing from the partnership opportunities and packages, individual partner options or sponsorship/exhibition prospects. What’s in it for partners? Investment in public health and institutions can be cost-effective and provide multiple economic and social benefits for both the private and public sectors. In engaging with sectoral interests, we will foster collaborative efforts among governments, businesses, indigenous peoples, local communities, NGOs, and youth for a new approach with tangible commitments. The GPHC2023 represents a unique opportunity for all sectors to demonstrate its commitment and responsibility in public health to a global constituency. Public health is based on the premise of anticipating and preventing health problems, mitigating risks to health and protecting people from health hazards, promoting health and well-being. In an ever-changing world, we recognise that important evidence comes from a variety of sources. This Congress therefore represents an unparalleled opportunity for you and your organisation to engage on a global platform. Capitalise on this opportunity to reach a diverse, multi-disciplinary, unique audience at the largest global public health event.

DISCOVER THE THINGS TO DO

Marina Bay Sands

Marina Bay Sands is the leading business, leisure and entertainment destination in Asia. The vision was to build an integrated development that is timeless, and a landmark that possesses a distinct identity which distinguishes Singapore from other cities.

Singapore Flyer

The Singapore Flyer is an observation wheel at the Downtown Core district of Singapore. Officially opened on 15 April 2008, it has 28 air-conditioned capsules, each able to accommodate 28 passengers, and incorporates a three-story terminal building

Merlion Park

Merlion Park is a famous Singapore landmark and a major tourist attraction, located at One Fullerton, Singapore, near the Central Business District (CBD). The Merlion is a mythical creature with a lion's head and the body of a fish that is widely used as a mascot and national personification of Singapore. Two Merlionstatues are located at the park.

China Town

Chinatown's maze of narrow roads includes Chinatown Food Street, with its restaurants serving traditional fare like Hainanese chicken rice, noodles and satay. Souvenir shops and indie boutiques dot the area, offering clothes, crafts and antiques, while Club Street is full of trendy wine bars.

Sentosa Island

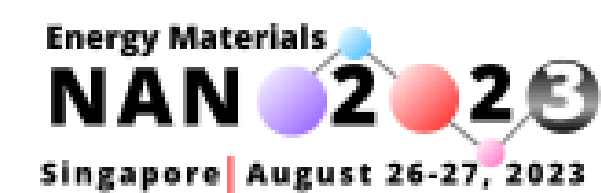

Sentosa is an island resort off Singapore's southern coast, connected to the city by road, cable car, pedestrian boardwalk and monorail. By Sentosa Station, Tiger Sky Tower has panoramic views that can stretch as far as Indonesia. On the south coast, Palawan Beach is lined with food stalls and bars, and has a suspension bridge to a small offshore island.

Night Safari Singapore

The Night Safari, Singapore is the world's first nocturnal zoo located in Mandai, Singapore. One of the most popular tourist attractions in the country, it forms part of the Mandai Wildlife Reserve along with the River Wonders, Singapore Zoo and Jurong Bird Park
