5th Annual Hematology and Medical Oncology Board Review: Contemporary Practice

Scientific Agenda Coming Soon!

This four day course will provide an up-to-date and comprehensive review of the diagnosis, staging, and management of neoplastic disease, including solid tumor and hematologic oncology. Lectures will focus on disease specific topics in gastrointestinal, gynecologic, thoracic, head and neck, genitourinary, soft tissue and skin, and central nervous system oncology, as well as hematologic oncology.

COURSE OBJECTIVES

- State-of-the-science in diagnosis, staging, and therapeutic management of solid tumor cancers and hematologic cancers
- Recent treatment advances in solid tumor and hematologic oncology and their impact on modern clinical practice

TARGET AUDIENCE

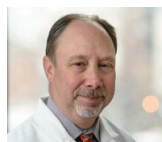

Physicians who are either oncology fellows in training or practicing oncologists in both academic and private practice.
