America's Premiere Multi-Specialty Symposium

Vegas Cosmetic Surgery and Aesthetic Dermatology – A Multi-Specialty Symposium

This Symposium is now celebrating its 14th anniversary in Las Vegas under the leadership and coordination of its founder, S. Randolph Waldman, MD. Vegas Cosmetic Surgery was initiated to foster a spirit of cooperation and understanding between the four "core" specialties that are primarily involved in the science, practice, and teaching of aesthetic surgery and medicine. This Symposium is proud to host the leading educators and teachers in the fields of facial plastic surgery, plastic surgery, dermatology and oculoplastic surgery.

We are extremely proud that Vegas Cosmetic Surgery and Aesthetic Dermatology was not only the first truly multi-specialty forum in the aesthetic field, but by listening to our faculty and attendees, VCS is now the largest event of its kind in North America.

Dear Community of Aesthetic Surgery & Cosmetic Medicine

We are really excited to showcase the 14th annual Vegas Cosmetic Surgery Symposium which takes place once again at the Bellagio. This year we have been fortunate to attract what I believe to be the leading multi-specialty faculty ever assembled at one event. We will once again feature four major meeting tracks. A Surgical Track, a Non-Invasive Track, a Masters Seminar Track, and of course our world class Practice Management and Marketing Track.

The comment we most often hear from those who attend our conference is that they wish they could be in all four sessions at the same time. The second most frequent comment is "I wish I had brought key members of my staff with me" so they could attend the Practice Management Session. This year promises to raise the bar for all other meeting directors around the world!

Some of the major aesthetic issues we will address include:

- Facelifting
- Browlifting
- Blepharoplasty
- Rhinoplasty
- Mid-Facelifting
- Minimally Invasive Rejuvenation
- Injectable Fillers and Neurotoxins
- Fat Transfer and Stem Cells
- Treating Unwanted Pigmentation
- Skin Enhancement Techniques
- New and Emerging Technology
- Treatment of Acne Scars
- Neck Enhancement Alternatives
- Hair Replacement Updates
- Otoplasty
- Avoiding Complications
- Lasers and the Aesthetic Practice
- Peels and Micro-Needling
- Latest on Cosmeceuticals
- Wound Healing Dilemmas
- Skin Resurfacing Alternatives

Some of the dilemmas and issues in your daily practice we will discuss include:

- Purchasing New Technology
- Lowering Overhead Costs
- HR Issues Facing Every Practice
- Legal Issues and the Office
- HIPAA Updates and Mistakes
- Online Ratings and Reviews
- Credentialing Your Practice
- Social Media Updates
- Online Success & Mobile Friendliness
- Office Leadership
- Ethical Challenges We All Face
- Dealing with Difficult Patients
- Tracking and Metrics
- Top Trends and Consumer Questions
- How to Remain Competitive
- Holding Your Staff Accountable
- Cutting Edge Management Techniques
- And Much Much More!

By the numbers this year, we will feature:

- **40 Masters Seminars (Yes, we coined this term in 1991!)**
- **10 Contemporary "How I Do It" Videos**
- **6 Panel Discussions**
- **360 15-20 Minute Presentations**

And we will feature a highly acclaimed All-Star Faculty that includes:

- **41 Facial Plastic Surgeons**
- **30 Plastic Surgeons**
- **27 Oculoplastic Surgeons**
- **35 Dermatologists**
- **42 Marketing and Management Professionals**

All of the above will be worth 35 CME credits (for physicians, physician assistants, and nurses) making this the only conference most of you need to attend in 2018. So I hope you will take the time to read through this program and then take a look at the testimonials from our previous attendees at vegascosmeticsurgery.com, and I believe you will see why VCS has become the leading aesthetic conference in the world.

Accreditation

This activity is jointly provided by Medical Education Resources and Vegas Cosmetic Surgery

Target Audience: This activity has been designed to meet the educational needs of those Board Certified or Board Eligible in Plastic Surgery, Facial Plastic Surgery, Dermatology, and Oculoplastic Surgery, and Allied Health Professionals working directly with one of those specialists.

Learning Outcome: To build educational bridges between competing specialties.

Educational Objectives: At the conclusion of this symposium, the participant should be able to:

- Demonstrate an improved understanding of how to avoid the most common problems in rhinoplasty.
- Differentiate the various approaches to blepharoplasty and browlifting to determine that best suited to the patient.
- Assess best practices for choosing which patients might be the best candidates for surgical rejuvenation and which might benefit from non-invasive approaches to facial rejuvenation.
- Compare options for minimally invasive facial rejuvenation through the use of fillers, injectables, lasers and other skin tightening devices, and minimally invasive lifting techniques.
- Assess controversial topics in facial aesthetic surgery in order to make more informed decisions.
- Demonstrate an improved understanding of various approaches to facelifting and which procedure is appropriate for which patient.

Statement of Need: Vegas Cosmetic Surgery 2018 Symposium is unique in that it provides truly multi-disciplinary cross talk, sharing, and cooperation. This is the only educational venue that features the best and brightest in the fields of dermatology, facial plastic surgery, oculoplastic surgery, plastic surgery, practice management and business development. Our educational offerings run the gamut from specific technique discussions and complications to emerging technology. This educational conference addresses the need that these specialists face for in-depth technique discussions to meet higher standards of care and produce better results for their patients.

Physician Accreditation: This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of Medical Education Resources (MER) and The Multi-Specialty Foundation. Medical Education Resources is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation: Medical Education Resources designates this live activity for a maximum of **35 AMA PRA Category 1 Credit(s)**[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nursing Accreditation: Medical Education Resources is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

This CE activity provides **35** contact hours of continuing nursing education.

Medical Education Resources is a provider of continuing nursing education by the California Board of Registered Nursing, Provider #CEP 12299, for **35** contact hours.

American Academy of Physician Assistants: The AAPA accepts certificates of participation for educational activities certified for *Category 1 Credit(s)*[™]. Physician Assistants may receive a maximum of **35 AMA PRA Category 1 Credit(s)**[™] for completing this activity.

Disclosure of Conflicts of Interests: It is the policy of Medical Education Resources to ensure balance, independence, objectivity, and scientific rigor in all of its educational activities. In accordance with this policy, MER identifies conflicts of interest with its instructors, content managers, and other individuals who are in a position to control the content of an activity. Conflicts are resolved by MER to ensure that all scientific research referred to, reported, or used in a CME activity conforms to the generally accepted standards of experimental design, data collection, and analysis.
