

Understanding Brain Development: How Brain Circuits and Maturation Explain Behavior

A 6-Hour Home Study Program for Health Professionals

Advances in research have shed light on how the brain develops in the early years and how brain circuits mature and become wired in the adult brain.

These findings provide a much better understanding of the basis of developmental disorders and psychopathology that begins in early life.

Participants completing this program should be able to identify:

1. Development of key cognitive abilities
2. Development and maturation of brain circuits, especially in emotional and reward systems,
3. Brain mechanisms underlying developmental disorders such as autism spectrum disorders, ADHD, Down syndrome, and schizophrenia,
4. The role of early life experience and how infants can inherit the trauma and stress experienced by their parents.
5. The role of early life stress and fragmentation of maternal care in development of later adult psychopathology including depression and PTSD, and
6. Strategies to better understand and help children and adolescents with vulnerabilities that increase risk of mental disorders.

ABOUT THE INSTRUCTOR

Mike Yassa, Ph.D., Associate Professor in the Department of Neurobiology and Behavior and Neurology and Director of the Center for the Neurobiology of Learning and Memory at the University of California, Irvine. Dr. Yassa and his colleagues recently discovered that a fragmented, unpredictable connection between mother and child is a key factor that predicts developmental disorders of learning, memory, and impulse control.

Dr. Yassa has received multiple awards including from the National Science Foundation, National Institute on Aging, National Institute on Mental Health, and private foundations.

An inspiring and inspired instructor, Dr. Yassa is one of the most highly rated instructors at Irvine. Dr. Yassa has won awards for research and teaching excellence and teaches programs in human neuropsychology, learning and memory, brain dysfunction and repair.

How to Receive Home Study Credit

1. Course materials are delivered to you within 5-7 days from the date we receive your order.
2. For recorded programs, watch or listen to the lecture and review the course outline. For text-based programs, read the written materials.
3. Complete the multiple-choice questions or short-written essays based on the course objectives. A passing score is 70%. In the unlikely event that you need to retake the exam, you may do so without penalty or fee. You have at least one year to complete any of the programs.
4. Submit the completed evaluation and exam to IBP by email at ceu@4brain.org, fax at (209) 710-8306 or mail at IBP Distance Learning, PO Box 2238, Los Banos, CA 93635.
5. Certificates of completion are provided upon receipt of the evaluation form and the post-test. Please let us know whether you wish to receive it by email, fax, or mail.

30-Day Refund and Return Policy

If you are not completely satisfied, you may exchange the materials for a recorded or text-based program of equal value or receive a refund minus a \$15 processing fee by sending the materials in resalable condition to: IBP Distance Learning, PO Box 2238, Los Banos, CA 93635.
