SNIS 13th Annual Meeting

July 25-28, 2016

WESTIN COPLEY PLACE HOTEL
BOSTON, MASSACHUSETTS

WELCOME!

purposeful innovation in mind.

Greetings SNIS Members and Friends!

As summer approaches, we hope you are already making your plans to join us at the SNIS 13th Annual Meeting in Boston, Massachusetts from July 25-28.

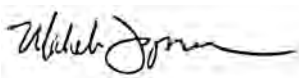

Beantown will play host to SNIS for the first time this year and one only has to glance at the conference agenda to appreciate the outstanding work of the leaders of this year's event. Indeed, the program committee has anchored this year's Annual Meeting in rich content spanning clinical, practice and industry topical areas; the most innovative studies in neurointervention today; discussion sessions that add extra salt to the ongoing dialogue; networking opportunities that connect individuals in meaningful ways; and, of course, those coveted moments of rest and relaxation that provide just the perfect balance to a schedule that is packed to the gills.

We'll kick off the week with sessions dedicated to stroke systems of care. We then dive into sessions on difficult stroke cases, interventional approaches to oncology, new technology, AVMs and aneurysms. We are thrilled to welcome colleagues from the FDA who will speak on a registry network for acute ischemic stroke medical devices. Additionally we'll spotlight the annual Luminary Lecture, this year provided by Walter Koroshetz, MD, Director of NINDS. And, finally, we'll listen in on abstract sessions that will dot our program agenda throughout the week with the most interesting and promising research coming out of neurointerventional centers of excellence worldwide.

All SNIS activities require the contributions, resources and enthusiasm of many to keep the wind in our sails, but the effort behind the planning and hosting of the SNIS Annual Meeting truly necessitates an all hands on deck approach. For their enduring presence and partnership mentality, we pay special tribute to our loyal industry friends whose passion for our work is boundless and support of our cause makes so much possible. We thank you as well. As a most valued member of the collective neurointerventional community, your ideas and work on behalf of our specialty continue to advance the highest standards of excellence and keep our field at high tide amidst an ever-evolving healthcare landscape. Thank you for your contributions day in and day out, and in advance, for your support of the SNIS 13th Annual Meeting.

See you in Boston!

Sincerely,

Mahesh Jayaraman, MD

LUMINARY LECTURE

Walter J. Koroshetz, M.D.

was selected Director of NINDS on June 11, 2015. Dr. Koroshetz joined NINDS in 2007 as Deputy Director, and he served as Acting Director from October 2014 through June 2015. Previously, he served as

Deputy Director of NINDS under Dr. Story Landis. Together, they directed program planning and budgeting, and oversaw the scientific and administrative functions of the Institute. He has held leadership roles in a number of NIH and NINDS programs including the NIH's BRAIN Initiative, the Traumatic Brain Injury Center collaborative effort between the NIH intramural program and the Uniformed Health Services University, and the multi-year work to develop and establish the NIH Office of Emergency Care Research to coordinate NIH emergency care research and research training.

Before joining NINDS, Dr. Koroshetz served as Vice Chair of the neurology service and Director of stroke and neurointensive care services at Massachusetts General Hospital (MGH). He was a professor of Neurology at Harvard Medical School (HMS) and led neurology resident training at MGH between 1990 and 2007.

A native of Brooklyn, New York, Dr. Koroshetz graduated from Georgetown University and received his medical degree from the University of Chicago. He trained in internal medicine at the University of Chicago and Massachusetts General Hospital. Dr. Koroshetz trained in neurology at MGH, after which he did post-doctoral studies in cellular neurophysiology at MGH with Dr. David Corey, and later at the Harvard neurobiology department with Dr. Edward Fuschpan, studying mechanisms of excitotoxicity and neuroprotection. He joined the neurology staff, first in the Huntington's Disease (HD) unit, followed by the stroke and neurointensive care service. A major focus of his clinical research career was to develop measures in patients that reflect the underlying biology of their conditions. With the MGH team he discovered increased brain lactate in HD patients using MR spectroscopy. He helped the team to pioneer the use of diffusion/perfusion-weighted MR imaging and CT angiography/perfusion imaging in acute stroke.

Have some fun with SNIS!

Spouse/Guest Registration

All Spouses/Guests over the age of 18 must be registered for the meeting and wearing a name badge in order to be granted entry into the social events. The Spouse/Guest fee of \$250 includes admission to the Hospitality Lounge each day and Opening Celebration on Monday night. The Spouse/Guest Hospitality Lounge will be available in the Newbury/Gloucester Rooms from Monday-Thursday with continental breakfast and beverages.

The hotel concierge will be holding an informational session on Monday, July 25 at breakfast for all spouses and guests with tips and tricks for enjoying your week in Boston. Where to shop, sights to see and what to do will all be covered.

Again this Year

Since so many of our attendees are bringing their families, we are giving the parents a night off on Tuesday night and offering a party for all of the kids! SNIS will be sponsoring a dinner and movie for all kids, young and not so young, on Tuesday, July 26 from 6:00 pm – 11:00 pm. This event will be supervised by a local babysitting service. Sign-ups will be held on site.

Per Advamed guidelines, if you are invited to dinner with a company who is a member of Advamed and wish to bring your non-medical spouse or guest, please be prepared to pick up your spouses' portion of the meal. Thank you for your understanding of the Advamed guidelines.

10 of the Best Family Friendly Activities & Attractions in Boston

1. Walk into the **Museum of Science** and come face-to-face with a life-sized dinosaur. Kids are amazed by the lightning show and love the freedom to move that this large space allows. Enjoy a show in the Planetarium or take a trip around the world in the Omni Theater.
2. It was not just one night that led patriots to take matters into their own hands to begin a fight for freedom; it was the continued lack of freedoms and representation that brought about the Tea Party and started a revolution. At the **Tea Party Ships & Museum**, you can relive the catalyst to the American Revolution and see memorabilia from the time and event.
3. Head to the **New England Aquarium** for marine-themed fun. Here you and your children will enjoy exploring the oceanic wonders that await at every turn. The 2013 renovation of the Giant Ocean Tank has made room for more ocean life to wow you. The addition of new exhibits, including the interactive learning nook of the Blue Planet Action Center make learning about the challenges facing the ocean fun, while the shark and ray touch tank bring you up close and personal with the creatures you're admiring.
4. Part of the Emerald Necklace, famous for the loop of green space that circles the city, is the **Franklin Park Zoo**. You can spend the day roaming the grounds of the zoo and checking out the many species housed within. Kids will love the open space, and modern playground, as much as they'll enjoy seeing what lives in the cages on site.
5. Board a WWII-style amphibious landing vehicle, and get ready for a thrilling ride that's sure to make a splash on a **Boston Duck Tour**. Adults and children of all ages will love learning about Beantown from a knowledgeable "ConDUCKtor" who will spout off quacks between explanations of what you're seeing. The tour covers historic sites of the city and then plunges into the Charles River for a unique view of Boston.
6. The **Boston Harbor Islands** are a unique part of the National Park system. 12 ready-to-explore islands offer a variety of activities for an active island adventure like checking out historic sites, spotting wildlife, taking a hike, getting in the water on a kayak or for a swim, sharing a picnic, doing some fishing and even camping.
7. The **Boston Children's Museum** is a local favorite. Exhibits focus on science, culture, environmental awareness, health & fitness, and the arts, and all encourage kids to interact (via touch). Kids can climb the centrally-located maze, blow big bubbles in the dedicated bubble room, build something solid in the construction zone, learn about culture, and even countdown to kindergarten in the make-shift classroom.
8. Take a leisurely stroll through the **Boston Public Garden**, the oldest botanical garden in the United States and get a feel for Boston's charm and grace. 1877 marks the start of the Garden's fame for Swan Boats that float along the pond when the weather warms; a necessary ride for the kid in all of us.
9. Come tour the home of the Boston Red Sox! **Fenway Park** is a place where dreams are made, traditions are celebrated and baseball is forever. See the home of Red Sox legends: Williams, Yaz, Fisk and Rice. Visit Pesky's Pole and sit atop the world famous Green Monster, which stands 37 feet, 2 inches high over-looking left field.
10. The **Boston Common Frog Pond** sits at the heart of Boston Common, the oldest and most treasured public park in the U.S. With a summer spray pool and children's carousel, there are always fun and exciting activities to be had.
