

CSI FOCUS 2018

LAA WORKSHOP

CSI FOCUS LAA

NOVEMBER 16–17, 2018
FRANKFURT, GERMANY

www.csi-congress.org/laa

**LIVE
CASES**

CSI FOCUS LAA 2018

How to close the left atrial appendage

LIVE CASES

Dear Colleagues,

Many patients with atrial fibrillation cannot take anticoagulation initially or have to stop it later due to complications. Even newly invented anticoagulants are often unsuitable for these patients. **LAA closure has become a reasonable alternative.**

During this 2-day course you will get an overview on all aspects of this treatment modality, including indications for LAA closure, utility and application of invasive and noninvasive imaging modalities, transseptal puncture as well as epicardial LAA closure.

Clinical studies will be covered and we will also demonstrate how to perform the procedure step by step and how to prevent and manage complications.

Live case transmissions are a core of this course and will allow direct attendee-operator interaction to maximize the learning experience.

We look forward to seeing you in Frankfurt on November 16–17, 2018!!

*Horst Sievert
on behalf of the course directors*

Board of directors

Directors

Horst Sievert, MD, Frankfurt, Germany
Shakeel A. Qureshi, MD, London, UK
Neil Wilson, MD, Denver, USA
Vivek Reddy, MD, New York City, USA
Maurice Buchbinder, MD, San Diego, USA
Apostolos Tzikas, MD, Thessaloniki, Greece

Co-directors

Sameer Gafoor, MD, Frankfurt, Germany & Seattle, USA
Stefan Bertog, MD, Frankfurt, Germany & Minneapolis, USA

Who should attend

This workshop is aimed at interventional cardiologists, electrophysiologists, imaging specialists, and anyone who is part of the LAA closure team and involved in stroke prevention.

CSI Foundation event

CSI Focus LAA 2018 is a CSI Foundation event. We are dedicated to the development of congenital, structural and valvar heart interventions worldwide. Our members receive discounted entry to CSI events. Join us at www.csi-foundation.org
