

Cardiac CT Level 2 Course (Bangkok)

8th -12th April 2027

35 CME points

Programme Lead:

Dr. Azhar Khokhar

Join us 8th - 12th April, 2027 in Bangkok, Thailand, for our Cardiac CT Level 2 course, held over 5 days, offered in partnership with GE Healthcare. Leading to Level 2 BSCI accreditation (and working towards SCCT) this unique course for Radiologists and Cardiologists is delivered by Level 3 accredited experts and offers the opportunity to review 150 CTCA cases on workstations.

Intro

Suitable for Cardiologists and Radiologists looking to build the skills and case-volume required for independent Level 2 cardiac CT reporting, this cardiac imaging course provides 35 CME points. Join us at the Le Meridien Bangkok and enjoy exploring this stunning and exciting city.

Leading to BSCI accreditation and working towards SCCT, this course will take you through contrast-enhanced cardiac CT 150 cases, preparing you to independently interpret coronary CT angiography (CCTA) under appropriate clinical governance.

Didactic lectures are woven into the curriculum covering physics, acquisition, reconstruction, radiation safety, contrast use, coronary and structural heart interpretation, and non-cardiac findings, and supported with supervised hands-on case reporting using a GE workstation. You'll cover a wide range of coronary and extra-coronary cardiac pathologies, with carefully selected cases designed to broaden exposure and enhance the learning experience for all delegates.

Our Cardiovascular CTA Imaging Level 2 Training Course is delivered by an experienced faculty, with over 40 years experience teaching Coronary CT Angiography (CCTA) interpretation. Led by Dr Azhar Khokhar, Head of Cardiology and Cardiac Imaging at the Essex Cardiothoracic Centre, and supported by Dr Ermanno Capuano, the team offer a relaxed atmosphere, with lots of opportunity for questions and discussion.

Gain 35 CME points

Program Lead

Head of Cardiology and Cardiac Imaging at Southend University Hospital/Essex Cardiothoracic Centre
Dr Khokhar is recognised for his deep expertise in non-invasive cardiac diagnostics, including cardiac CT, advanced echocardiography, nuclear cardiology, and CT coronary angiography. He pioneered non-invasive CT coronary angiography in Southeast England and has been instrumental in establishing innovative cardiac imaging services across the region.

Bangkok, Thailand

Cardiac CT Level 2 Course

Program - Day 1

Thursday 8th April

Time	Session
08:30-08:50	Registration
08:50-09:00	Welcome
09:00-09:45	Theoretical aspects of Cardiac CT
09:45-10:30	Practicalities of live scanning
10:30-11:00	Workstation training with Circle CVI
11:00-11:30	Break
11:30-12:15	Normal cardiac and coronary anatomy
12:15-13:15	Calcium scoring and analysis
13:15-14:15	Lunch
14:15-14:45	Cardiac CT in acute coronary syndrome
14:45-15:30	CT in acute and chronic coronary artery disease
15:30-15:45	Break
15:45-17:00	Hands-on cases: Coronary analysis

Program - Day 2

Friday 9th April

Time	Session
09:00-10:00	Extra coronary cardiac findings: masses, pericardium and congenital disorders
10:00-10:45	CT in non atheromatous coronary disease
10:45-11:15	Hands-on coronary analysis
11:15-11:30	Break
11:30-12:30	Hands-on coronary analysis
12:30-13:30	Lunch
13:30-14:30	Role of cardiac CT in current practice: Anatomical vs. functional tests
14:30-15:30	Hands-on coronary analysis
15:30-15:45	Break
15:45-17:00	Hands-on coronary analysis

Cardiac CT Level 2 Course

Program - Day 3

Saturday 10th April

Time	Session
09:00-10:00	Assessment of coronary graft disease
10:00-11:00	Hands-on coronary analysis
11:00-11:15	Break
11:15-13:00	Hands-on coronary analysis
13:00-14:00	Lunch
14:00-15:30	Hands-on coronary analysis
15:30-15:45	Break
15:45-17:00	Hands-on coronary analysis

Program - Day 4

Sunday 11th April

Time	Session
09:00-10:00	Extra cardiac lung findings
10:00-11:00	Hands-on coronary analysis
11:00-11:15	Break
11:15-13:00	Hands-on coronary analysis
13:00-14:00	Lunch
14:00-15:30	Hands-on coronary analysis
15:30-15:45	Break
15:45-16:15	TAVI Analysis
16:15-17:00	Hands-on coronary analysis

Cardiac CT Level 2 Course

Program - Day 5

Monday 12th April

Time	Session
09:00-11:00	Hands-on coronary analysis
11:00-11:15	Break
11:15-13:30	Hands-on coronary analysis
13:30-14:30	Lunch
14:30-15:15	Hands-on coronary analysis
15:15-15:30	Break
15:30-16:00	Opportunity to revisit or review any missed or difficult cases
16:00-16:30	Applying for accreditation, certificates and feedback
