LETTER FROM THE 2022 PROGRAM CHAIR

Dear Colleagues,

On behalf of the CSF Program Committee, it is my sincere pleasure to invite you to the return of our in-person Canadian Surgery Forum (CSF) taking place September 15-17, 2022.

Our schedule will once again see a streamlined structure allowing attendees to follow specific programming related to their desired surgical sub-speciality (general, colorectal, thoracic, hepato-pancreatico-biliary, surgical oncology, hernia, trauma MIS/endoscopy, rural and resident/medical students). To ensure the cross pollination of specialities, we have created numerous joint symposia between surgical subspecialties focussed on broader topics. This year's CSF will host 12 invited lecturers from Canada and abroad, 8 post-graduate courses (5 of which are hands-on simulation courses) annual events such as our Research Retreat, Women in Surgery Symposium and our paper and poster presentations. Concurrent education symposia will see new topics such as 'Service Models Debates' and 'Ask the Expert' while old favourites return such as 'Alone at Night', 'Difficult Cases' and 'How I do it' video-based sessions. I encourage you to view the ['Program Overview' on pages 8-11](#) to plan your itinerary.

The theme for this year is Disparities in Canadian Healthcare and the Canadian Association of General Surgeons will be addressing the topic of pay equity in their annual symposium. A White Paper will also be drafted based on the discussions that take place during the session in an attempt to engage stakeholders to enact real change. Related to furthering change, the CSF will be streaming 8 invited lectures free of charge to help further access to medical education both at home and around the globe.

Our industry partners are eager to meet with attendees and provide updates on their research and development over the past 2 years. As such, this year we are pairing sponsored symposia with meal periods (breakfast and lunch) for a more casual learning experience and offering only 3 symposia maximum concurrently to prevent dilution of topics and audiences.

After two years of not being able to meet in person due to COVID-19, we are well aware of the importance of reconnecting with your colleagues and networking. Therefore, we have eliminated almost all business meetings during the CSF to encourage attendees to take in as much education and social events as they can. We are also hosting a Roaring 20's themed CSF Soirée on the Friday evening at Ripley's Aquarium. The evening will capture the feelings of hope and rebirth the world felt emerging out of the 1918 pandemic and First World War.

We are delighted to welcome attendees back in person to the CSF and are confident that Canada's largest surgical meeting will continue to deliver top-notch scientific programming, memorable social experiences and lessons learned from the pandemic to better medical education, research and patient outcomes.

On behalf of the CSF Program Committee, welcome BACK to the in-person CSF and see you in Toronto!

Sincerely,

A handwritten signature in cursive script that reads "Jeremy Grushka".

GENERAL INFORMATION

Conference Overview

Although CAGS has held an annual meeting since 1977, it was not until 2001, in Quebec City, that the Canadian Surgery Forum (CSF) was born. Today, the major participating surgical societies; CAGS, CSCRS, CATS, CSSO, CHPBA and CHS and minor participating societies; TAC and CON/CABPS work together to organize the largest surgical meeting in Canada. The Canadian Surgery Forum has become the premier surgical conference in Canada for general surgeons to gather, share their experiences and plan new ways to better the needs of their surgical societies.

Conference Goal

To foster communication among surgical subspecialties and to advance continuing professional development, clinical practice, education, research and public advocacy while providing members of the Canadian surgical community an opportunity to meet and network in a collegial fashion.

Conference Objectives

Learn.

To educate delegates through collaborative and quality sessions such as interactive symposia, panel discussions, postgraduate courses, debates, plenary sessions, video sessions and Drinks with the Professor roundtables.

Grow.

To provide surgical societies with accredited continuing professional development and the opportunity for dialogue on educational and research issues.

Network.

Unite surgeons and residents and broaden potential networks of interest while unwinding with unique social events such as the Suturing Competition, Surgical Robotics Competition and the CSF Soirée.

COVID-19 Health and Safety Commitment

The CSF's number one priority is the health and safety of our delegates. Although it is not possible to remove all risks related to COVID-19, the CSF will implement health and safety measures that meet or exceed those currently set by the Health Authority of Ontario, the Public Health Agency of Canada (PHAC) and the Sheraton Centre Hotel. As the situation surrounding the pandemic is ever-evolving, the CSF may change, update, or add to these requirements at any time as it deems prudent to best protect the health and safety of delegates and others. Clear communication of specific COVID-19 safety protocols can be found [HERE](#).

REVIEW & FAST TRACK PUBLICATION IN THE CANADIAN JOURNAL OF SURGERY FOR CANADIAN SURGERY FORUM MANUSCRIPTS

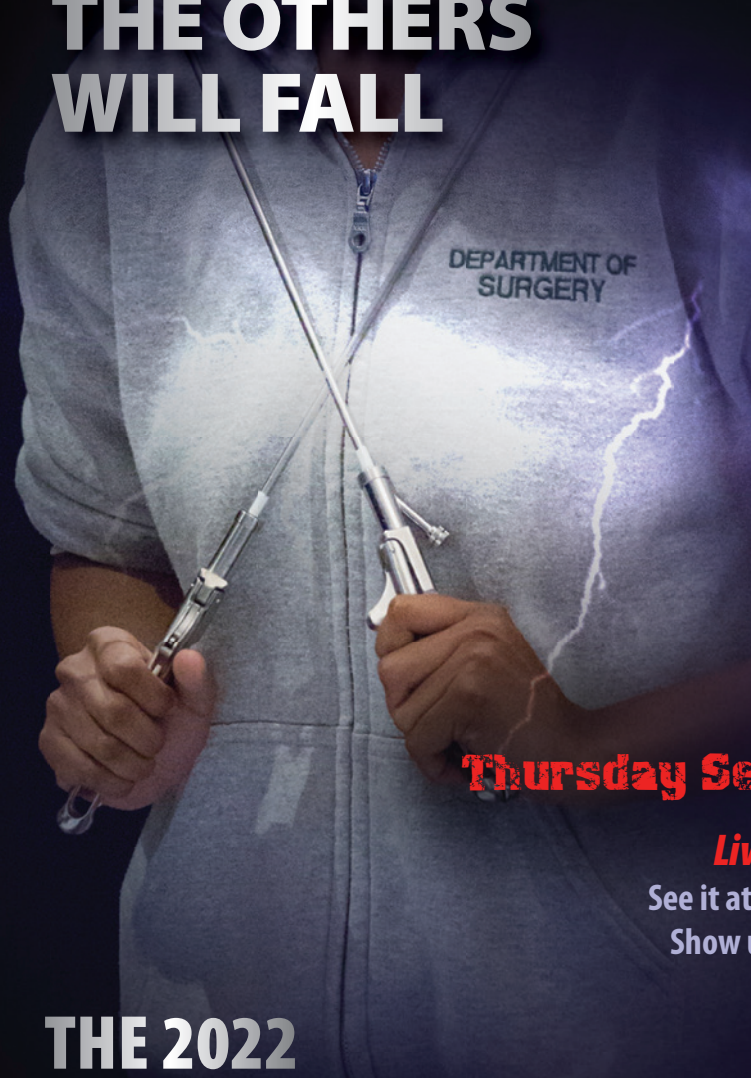

The Canadian Journal of Surgery (CJS) continues to promote and foster the relationship with the Canadian Surgery Forum (CSF), and its society partners. The CJS is not only a voice for national surgical issues, but also for high quality scientific publications. The impact factor of CJS has increased dramatically over the past few years, and is now the highest national surgical journal of any country in the world.

To facilitate this relationship, and to continue the process implemented in 2019, the CJS is committed to rapid review and fast-tracked publication of accepted manuscripts presented during scientific sessions at the CSF. As discussed, and promoted by many of the CSF participating societies, early submission of your manuscript to the CJS (deadline: August 5, 2022) will secure your entry into this fast track program.

Please submit it on the [CJS website](#) under your academic institution to save the submission fee, and please note on the title page that it has been presented at the CSF conference.

Thank you in advance,

To receive the member rate as a non-member of CAGS, you must be a member (in good standing) of at least one of the CSF Partner societies (CSCRS, CATS, CSSO, CHPBA or CHS).

Cancellation Policy Notice

CSF Organizers are sympathetic to the ongoing uncertainty that the pandemic brings.

As such, the cancellation policy has been adjusted this year to allow registrants to cancel their registration prior to the start date of the conference without incurring a penalty.

WHAT'S NEW THIS YEAR AT THE CANADIAN SURGERY FORUM?

1 HYBRID INVITED LECTURES

Hybrid is (or should be) the future of medical meetings. CSF organizers understand the busy OR coverage schedules, importance of family time, the environmental impact of meetings and the constraints travel puts on surgeons in rural and remote locations. Therefore, the CSF will be live streaming 8 invited lectures free of charge to help further medical education both in Canada and around the globe. Host a viewing party at your hospital or take in a lecture from the comfort of your office in between patients. The recordings will also be available (free of charge) following the CSF for those that could not watch the talks via the live stream.

2 SURGICAL RESIDENTS CAREER PREP DAY

We heard you in the CSF Needs Assessment! Overwhelmingly, the desire was to have a job fair for Residents. We have levelled up and will not only offer a job fair with various Health Authorities across Canada who are hiring but an entire career-focussed day! The event will feature talks from respected CAGS members ("What I wish I knew before starting my practice" perspectives) and industry partners about how to prepare for your future as a surgeon. We'll also have a professional headshot station available for anyone needing updated headshots. Keep your eye out for the full agenda coming soon.

3 LUNCH AND LEARN!

Our industry partners are excited to bring delegates up to speed about their clinical and research advancements during the past two years. Industry sponsored symposia will once again have protected time in the CSF program schedule but they will now happen during breakfast and lunch periods on Friday and Saturday. We're hoping to create more intimate, inviting environments to help facilitate both education and networking. Don't forget to RSVP so we can save you a seat and a plate!

4 NEW SIMULATION POST-GRADUATE COURSE

We are offering a new post graduate course on the Wednesday for rural and community surgeons! The Canadian Association of General Surgeons has been offering elements of the course: 'Operative Delivery and Maternal Care for General Surgeons' via webinars throughout the pandemic but this is a chance for delegates to obtain simulation and hands-on experience. This course aims to educate rural/community surgeons on how to provide safe surgical, obstetrical and emergency gynecological care for patients close to home.

5 MORE NETWORKING TIME

It's been over 2 years since we could gather as Canadian colleagues. The CSF wants to ensure delegates have more networking time to reconnect with old colleagues and make new connections. As such, the CSF has eliminated almost all business/committee meetings on site during the conference. A CAGS Lounge will be available for delegates to gather and relax and the program schedule has allowed 15 minutes after each concurrent session for delegates to 'wind down' or travel to the next session with their colleagues.

ACCOMMODATIONS

The host hotel for the 2022 CSF is the **SHERATON CENTRE TORONTO HOTEL** and the conference organizers have negotiated discounted room rates for all CSF delegates. Standard guestrooms are \$309/night CDN and does not include applicable provincial and local taxes. Once the standard guestrooms sell out, the price will increase as room type is limited to upgraded guestrooms.

This year, the CSF is sharing the city of Toronto with TIFF (Toronto International Film Festival). Accommodations will be especially hard to find if the CSF room block sells out (which has happened in previous years). Conference organizers highly encourage delegates to book their hotel rooms as soon as possible.

You can **RESERVE YOUR GUESTROOM ONLINE**. Please note, your CSF discounted room rate has already been applied in this reservation system.

Deadline to reserve your guestrooms is August 23, 2022.
