Cairns Nurses' Conference 2018

2 Day Conference for All Nurses - Learn locally with Ausmed

Need for Program

In regard to the nursing care you provide, the need to continually seek new information is a given no matter where you work. Nursing safety and quality are essential and both are directly linked to knowledge. This is a time when:

- Healthcare budgets are under increased stress
- The community purse is shrinking
- Quality outcomes are now the goal of all care

Now more than ever, if safe, quality outcomes are to be achieved, it is important that you take a leadership role in providing outcome focused high-value care. This can be done by addressing emerging gaps in your knowledge through up-to-date information.

Purpose of Program

This program provides you with current knowledge relating to a range of professional and clinical practice topics that will improve how you provide holistic nursing care.

Learning Outcomes

At the conclusion of this program it is expected that the participants will be able to:

- People with health risks will receive preventative nursing action in your care to avoid illness
- Better patient outcomes will be achieved through the application of up-to-date knowledge related to specific nursing interventions
- Interprofessional collaboration will be optimised to enhance patient outcomes
- Patient outcomes will be underpinned by evidence-based practice, recognised standards, and guidelines
