The Tenth Annual Royal Marsden Head and Neck Conference:

A decade of progress in head and neck cancer management

Introduction

Dear Colleagues

After the success of the last nine years it is with great pleasure that you are invited to help celebrate ten years of The Royal Marsden Head and Neck study days. This year we have chosen to focus on how the diagnosis and management of head and neck pre-cancer and cancer has changed over the past decade and to look into the future and explore some of potential advances that might occur in our working lifetimes. The meeting assembles some of the country's leading experts to critically discuss the evidence base for a wide range of pertinent topics from pre-malignant lesions to advanced disease. The meeting will be of particular interest to maxillofacial, ENT or plastic surgeons with an interest in head and neck oncology, as well as clinical / medical oncologists, radiologists and pathologists. Our invitation is extended to consultants and trainees alike, as well as other members of the multidisciplinary team. The meeting will be interactive with ample opportunity to discuss the evidence presented.

Mr Cyrus Kerawala

Consultant Maxillofacial /
Head and Neck Surgeon
The Royal Marsden NHS Foundation Trust

Professor Vin Paleri

Consultant ENT /
Head and Neck Surgeon
The Royal Marsden NHS Foundation Trust

Conference Aims

This course aims to build on the successes of the last nine years and will explore the changes that have taken place in the management of head and neck malignancy in the last decade. The day will consist of evidence-based lectures that will focus on diagnosis, staging, surgery, chemoradiotherapy and systemic treatments. Case-based discussion will be incorporated throughout the day.

Topics to Include

- Oral cavity and laryngeal dysplasia
- New pathological entities
- Chemoradiotherapy toxicity
- Radiomics

Target Audience

Specialist Registrars and Consultants in Head and Neck / Maxillofacial / ENT / Plastic Surgery, Clinical and Medical Oncologists, Pathologists, Radiologists and all members of the extended Head and Neck Team.
