at 26 August 2015,
subject to change

The Australian Association of Gerontology (AAG) is hosting its 48th National Conference in Alice Springs from Wednesday 4 to Friday 6 November 2015. The AAG Conference is truly multidisciplinary and brings together people with a wide range of professional interests.

This unique meeting of the minds offers delegates an exciting opportunity to make new connections with people and ideas.

The theme for the 2015 Conference is “Place, Spirit, Heart: Exploring Experiences of Ageing”. The theme was chosen to reflect some of the characteristics of living and working in remote Australia. Holding the conference in the heart of Australia will provide delegates with an opportunity for both personal and professional reflection. It will be an opportunity to explore the variety of experiences of ageing, especially for people living in rural and remote locations.

The 2015 Conference promises to provide you with a uniquely Territorian experience, as well as provide the opportunity to experience what some of the Central Australian community has to offer including a range of arts, cultural and adventure activities.
