IADR Asia Pacific Regional & WW9 Conference 2025 Jointly Organised with 35th Annual Conference of the Indian Society for Dental Research

Dear Colleagues,

On behalf of the organizing committee, it gives us great pleasure to invite you to the **IADR Asia Pacific Regional Conference 2025, jointly organized with the 35th Annual Conference of the Indian Society for Dental Research**, in September 2025. The 9th World Workshop on Oral Health and Implantology recently concluded, bringing together leading experts, researchers, and practitioners from around the globe. This prestigious event will take place in India, a rapidly emerging hub for cutting-edge dental research and innovation. While India boasts a wealth of research activity across multiple areas, we recognize the crucial need to bridge the gap between discovery and application, translating research findings into tangible products and solutions for the market. This conference will provide a unique platform to connect dental researchers and scientists with professionals from various allied fields, as well as representatives from the dental industry. We are honored to welcome esteemed guests such as Dr. Ophir Klein, President of the IADR, and Dr. Christopher Fox, Chief Executive Officer of the IADR, whose presence will undoubtedly enrich the conference experience. We believe this collaborative environment will foster invaluable partnerships and accelerate the translation of research into practical, real-world impact. We look forward to welcoming you to India in 2025.

The conference shall provide a strong networking opportunity for Specialists from various streams of dentistry under one roof and learning from experts in the field coming from India and abroad. It will also provide a great opportunity for young researchers and clinicians to showcase their research and innovations through oral papers, posters and table clinics. In order to teach our youth about the marketing of their won research and innovation in a crisp and clear way, we have also planned a newer method of presentation called as TMT or Three Minute Thesis.

This conference will not only be important for PG students and researchers but also will have session for use of clinicians as they will get answers to their day to day clinical problems. There will also be a list of conference workshops usable for young researchers. We invite all interested colleagues to express the interest in participating and presenting their work in this grand scientific extravaganza. The venue has been short listed as The Leela Convention Centre, New Delhi which has become an epitome of luxury as well as grand scientific hallmark in India in current years.

Prof. (Dr.) Mahesh Verma
Conference Chairman

Dr. (Brig.) Anil Kohli
Conference Secretary

Dr. Saranjit Singh Bhasin

PLANNED AS BIG EXTRAVAGANZA

During this conference, we will try to bring Dental Researchers and Scientists from various other fields as well as traders on one platform.

Scientific Exchange

This conference aims to bring together all budding dentists, leading researchers, for the exchange of ideas, authoritative views, and quality information.

Interpersonal Network

Building relationships and networking with other dental professionals can enrich your career and give you a sense of deeper satisfaction.

Great Speakers

Meet renowned speakers around the world and share their knowledge and experience.

Trade Partnership

Opportunity to bring dentists and traders to one platform. Shop All Dental Brands in Best Rates
