**#7139 Current Surgical and
Rehabilitation Trends in the Advances
of Joint Arthroplasty for the Shoulder,
Hip and Knee**

Instructor:

**John O'Halloran DPT, PT, OCS, ATC, CSCS,
Cert MDT**

Audience:

**Physical Therapists, Occupational Therapists,
Assistants and Athletic Trainers**

Delivery Options:

Live Webinar or Self-Study Options

Motivations, Inc.

SUMMARY: *Are you educationally ready to provide current and progressive rehabilitation for the rising joint replacement population?*

This webinar explains surgery, from traditional to cutting edge techniques, in addition to evidence-based rehab and return to activity guidelines for joint replacement surgeries of the shoulder, hip and knee. Understanding modern technology and being able to confidently communicate to the patient is extremely important in the total care. This highly interactive webinar will provide the attendee a look at core implications of joint replacement patients in consideration of the evidence-based knowledge to take patients from surgery recovery to the start of rehabilitation for return to an active life. Course instruction methods include lecture, demonstration, videos, case studies and question/answers. (Intermediate Level)

PRESENTER: **Dr. JOHN W. O'HALLORAN, PT, DPT, OCS, ATC, CSCS, cert MDT** is a licensed Physical Therapist and Athletic Trainer with 30 years of experience in the field of rehabilitation. He is a board certified orthopaedic clinical specialist by the American Physical Therapy Association. He earned his post-professional Doctor of Physical Therapy from Temple University. Dr. O'Halloran is the sole owner of O'Halloran Rehabilitation a division of O'Halloran Consulting, LLC. John was born in Boston Massachusetts and currently resides in Summerfield, North Carolina. He has also worked in a variety of settings including universities and hospitals. In 1999, he became credentialed with the McKenzie Institute in the mechanical diagnosis and treatment of the spine. Dr. O'Halloran is also a certified functional capacity evaluator in the Blankenship Method. His unique evaluation and treatment skills make him a sought-after clinical instructor for physical therapy and athletic training topics. He has spoken both locally and internationally on topics such as sports specific rehabilitation of the shoulder, spine rehabilitation and treatment of foot and ankle injuries. *Financial*— Received a teaching honorarium from Motivations Inc. *Nonfinancial*— No relevant nonfinancial relationship exists.

OBJECTIVES: Upon completion of this course, the participant will be able to:

1. Analyze the history of Total Joint Arthroplasty and modern advances of Same Day Surgery, Pain Management
2. Identify and address the common concerns and frequently asked questions (FAQs) raised by patients to understand the reasons behind the dissatisfaction of 25% of Total Joint Patients, enabling rehab professionals to enhance patient satisfaction through effective communication and problem-solving strategies
3. Present rehab methods that address patients who encounter barriers to recovery and IADL function and do not meet anticipated functional goals.
4. Present effective therapeutic solutions for return to activities and sports following Total Shoulder, Hip and Knee Arthroplasty and how to incorporate these interventions into your treatment program.
5. Demonstrate proficiency in executing functional assessments of pre-op and post-op gait for patients undergoing total hip and knee replacement surgeries. Learn skills to pinpoint areas of difficulty and implement individualized corrective exercise routines and manual therapy interventions to optimize functional outcomes.
6. Demonstrate application of acquired skills in an experiential lab focused on manual therapy and corrective exercises, specifically addressing Total Shoulder, Reverse Shoulder Arthroplasty, and Total Hip and Knee range of motion as well as strength facilitation techniques.

FORMAT: This is a 3 contact hour course equivalent to 3 CEU's or 0.3 CEUs offered as a live webinar or self-study. Instructors present the live course content via an internet website displaying real time power points. Learners will receive a course instruction link. Instructors lecture through livestreaming internet on your computer. Questions may be asked during the webinar using the chat feature or the "raise hand" feature for live discussion.
