WEBINAR

#7244 Vestibular Differential Diagnosis: Central vs. Peripheral Etiology of Vertigo

Instructor:
Patrick A. Tino, PT, DPT

Audience:
Physical Therapists, Occupational
Therapists and Assistants

Delivery Options:
Live Webinar or Self-Study Options

Motivations, Inc.

SUMMARY: The purpose of this course is to review and understand how to determine if the etiology of your patient's vertigo may be arising from the CNS or the PNS. Using fundamental information of neuroanatomy and neurophysiology, physical and occupational therapy practitioners will be instructed how to identify telltale signs and symptoms and then categorize them into either central or peripheral vestibular diagnostic classification systems. This presentation will utilize anatomic illustrations, videos, and case-scenarios to demonstrate and summarize the clinical utility and immediate application of the material. Course instruction methods include lecture, demonstration, videos, case studies and question/answers. (Intermediate Level)

PRESENTER: Patrick A. Tino, PT, DPT first earned his AAS in Liberal Arts and Physical Therapist Assistant studies in 1993 from SUNY Broome College in Binghamton, NY. He's gone on to earn a Bachelors in Biological Sciences from Barry University in Miami, Florida in 1996 and Masters and Doctorate degrees in Physical Therapy from Nova Southeastern University in Ft. Lauderdale, Florida in 1998 and 2010 respectively. Patrick has received continued vestibular training from coursework at Emory University and University of Pittsburgh. He currently travels across the nation monthly and teaches both 1-day and 2-day Vestibular Assessment and Intervention seminars. Additionally, Patrick is the lead instructor to senior students in Vestibular Modules Lecture and Lab for Nova Southeastern and Florida Southern College PT Programs. Lastly, Patrick maintain current practice in direct patient care in the acute care, home health, and outpatient settings where he leads his teams in routine and complex cases of vertigo. He lives in Tampa Bay, Florida with his wife, 3 children, and 2 dogs. *Financial*— Received a teaching honorarium from Motivations Inc. *Nonfinancial*— No relevant nonfinancial relationship exists.

OBJECTIVES: Upon completion of this course, the participant will be able to:

1. Correctly identify areas within the CNS & PNS that have projections to the vestibular system.
2. Relate pertinent information from the subjective interviewing process to help guide your examination and evaluation.
3. Select relevant and specific tests and measures that toggles between CNS and PNS pathology furthering classifying and categorizing findings into a CNS or PNS etiology.
4. Apply sound clinical-decision making skills inside the parameters of the APTA's clinical practice guidelines (CPG's) for peripheral vestibular hypofunction and American Medical Association (AMA) to help determine the etiology of central vs. peripheral vertigo.

FORMAT: This is a 3 contact hour course equivalent to 3 CEU's or 0.3 CEUs offered as a live webinar or self-study. Instructors present the live course content via an internet website displaying real time power points. Learners will receive a course instruction link. Instructors lecture through livestreaming internet on your computer. Questions may be asked during the webinar using the chat feature or the "raise hand" feature for live discussion.

PT CEU's: Motivations Inc is an approved provider of Physical Therapy continuing education by these professional bodies: Texas Chapter of the American Physical Therapy Association, ILDPR- Illinois Department of Professional Regulation Approved PT CE Sponsor, NY- New York State Education Department, Office of the Professions. Physical Therapy Board of California. Many state boards recognize these for pre-approval purposes. Contact us if you would like verification a state.

OT CEU's: Motivations Inc. is an AOTA Approved Provider of professional development. Approved Provider #12204. This Distance Learning-Interactive or Distance Learning-Independent activity is offered at 0.3 CEUs, Intermediate Level, Occupational Therapy Service Delivery/Foundation Knowledge. The assignment of AOTA CEU's does not imply endorsement of specific course content, products, or clinical procedures.

AGENDA:

Pre-Study: 30 Minutes

Plan to read the course materials, references and review the post test before the start time. Please be prepared to share patient case study and related question during the discussion time.

Time Increment	Topic	Instructional Method
10	Background & Review Learner Outcomes	Lecture
30	CNS and PNS anatomy review	Lecture, image, video
20	Patient-interviewing strategy	Lecture, video
15	Therapist-driven tests & measures	Lecture, image, video
15	Telltale Signs & Symptoms	Lecture, video, interactive discussion
15	Case Scenarios	Lecture, interactive discussion
15	Q & A, Summary Wrap-up	Lecture, interactive discussion

Post-test: 30 Minutes Research, identify, and submit your post test question answers on the online form. This is an open book test you can take multiple times if needed to obtain the 70% score. Complete the evaluation feedback survey and needs assessment. Obtain, review and save your auto-emailed certificate for your files.
