

Three Months Fellowship Course in

# **WOMEN'S REPRODUCTIVE & SEXUAL HEALTH** (WRSH)

# About Us

MHPro is a Continuing Medical Education (CME) platform to upskill healthcare professionals with evidence-based knowledge delivered online with immersive learning experience. The MHPro curriculum aims to prepare clinicians to master Basic Sciences, which then empowers them to deal with patients and their problems in a hospital or outpatient milieu. During the program, new clinical skills and considerable medical knowledge, and domain-specific core competencies will be stressed as clinicians acquire both diagnostic and therapeutic skills

MHPro is committed to a competency-based curriculum. Learners will be graded and receive pertinent feedback

Welcome to MHPro

# Course Introduction

Crafted by esteemed medical experts, this advanced course empowers practitioners with a comprehensive curriculum at the intersection of sexual health, chronic disease, and women's holistic care. Participants delve into the holistic impact of physiological changes, trauma, cancer, and fertility factors on patient intimacy and sexual relationships, gaining skills in compassionate counselling and nuanced communication. Enhancing proficiency in procedures for diverse gynaecological complaints, the course focuses on evidence-based expertise, enabling practitioners to implement community programs, health policies, and clinical pathways for the safe navigation of women's intimate health concerns

# Learning Objectives:

- Comprehensively evaluate intimate relationships and sexual health in female patients
- Clearly addresses the impact of diseases, medication, surgery, conception and parturition on sexual health and couples' relationship
- Develop patient-centred treatment plans incorporating traditional and emerging innovations in therapeutic techniques
- Demonstrate technical acumen in utilizing advanced medical technologies, including ultrasound, laparoscopy, and hysteroscopy in gynaecology
- Address impacts of reproductive and sexual health intersections with chronic diseases
- Provide counselling across reproductive life stages including premarital, adolescence, pre/post-partum, midlife changes and menopause
- Implement strategic preventive measures for Non-Communicable Diseases (NCDs) and gestational diabetes
- Emphasizes the significance of HPV screening for cervical cancer
- Implement nuanced communication regarding sensitive health circumstances related to sexual function, fertility, assault, trauma, and relationships

# Learning Outcomes:

- Exhibit specialized knowledge in addressing intricate aspects of female sexual health
- Apply enhanced clinical skills in counselling techniques in women's healthcare practices
- Showcase technical precision in performing obstetric ultrasound, laparoscopy, and hysteroscopy procedures
- Be equipped to navigate emergency obstetric scenarios, including postpartum haemorrhage, sepsis, and situations related to domestic violence with acute medical discernment
- Developing communication skills and history-taking

# Program Director

Dr. S S Vasan

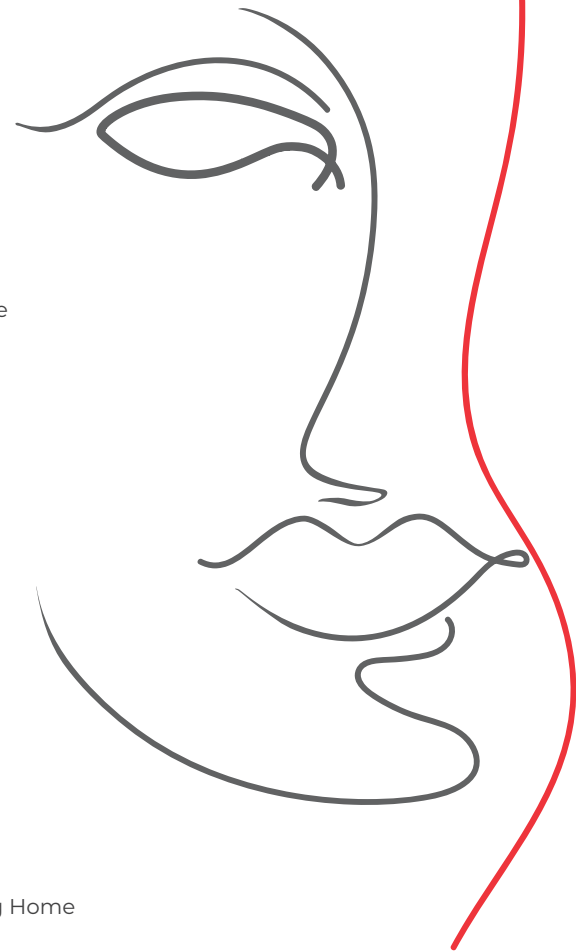

Uro-Andrologist  
Medical Director & CEO, Ankur Healthcare  
Bengaluru, India

# Course Director

Dr. Padmini Prasad

Obstetrician Gynaecologist  
& Sexual Health Consultant, Ramamani Nursing Home  
Bengaluru, India

## Who should take up this course?

Obstetricians and Gynaecologists, Surgeons, Urologists, Endocrinologists, Oncologists, Public Health professionals, Family Medicine practitioners, Medical Doctors specializing in women's health, Other specialized doctors with a focus on reproductive and sexual health, & Any medical graduate

# Curriculum

## Course Title: Women's Reproductive & Sexual Health

### Module:
