Mazumdar Shaw  
Medical Center

Unit of Narayana Health

# Garden City Welcomes you to Skull BaseCon 2015

We are happy and proud to host "Skull Basecon 2015", the 17th Annual Conference of the Skull Base Society of India, at Bangalore, India between 8th and 12th October 2015.

Skull Basecon 2015 will be an interdisciplinary meeting of Neurosurgeons, ENT and Head-Neck Oncology and Reconstructive Surgeons to holistically address the challenges in skull base surgery. We are bringing together some of the best skull base surgeons of the world and our country to make this a vibrant and meaningful academic meeting for all the participants. 24 International faculty and 25 National faculty have already confirmed their participation. Wide ranging topics from basic skull base access to reconstructions and robotics will be discussed. This will also be the first combined meeting with Foundation for Head and Neck Oncology of India (FHNO).

The Pre conference hands-on cadaveric workshop is planned at the M S Ramaiah

Advanced Learning Centre in co-operation with M S Ramaiah Institute of Neurosciences. We have designed the course curriculum to benefit both, the younger, as well as experienced skull base surgeons. Some of the world renowned skull base surgeons will be personally coaching the delegates on the nuances of key approaches in Skull base. The workshop also includes lectures, demonstrations and learning videos by the masters. There will be also an opportunity to discuss one-on-one with the experts. The workshop includes two parallel modules - Endoscopic and microsurgical dissection, to cover these two important aspects of key skull base approaches.

We believe that this conference and workshop will be scientifically rewarding and socially and culturally enriching. A conference of this magnitude can only be successful with your active and valuable participation.

# Message From The President, SBSI

Dear Friends and Colleagues,

It is with great joy and delight that I welcome you all to Skull Basecon 2015, The 17th Annual Conference of the Skull Base Society of India. This year's conference will be held at the beautiful city of Bangalore between 8th and 11th October 2015 and is hosted by the Neurosurgery, ENT and Head and Neck Oncology teams from Narayana Health.

The theme for this year is "Surgery at the frontiers – Revisiting Key approaches". This is a very apt theme because scaling the peaks in skull base surgery requires a strong foundation in the fundamentals of basic and key approaches. Also, the complexity of the area requires us to join hands with various disciplines of ENT, Head & Neck Oncology and Reconstructive surgery to fulfill our commitment towards offering, each one of our patients, the best possible outcomes. To foster this spirit, this year's conference will be the first combined meeting with the Foundation for Head & Neck Oncology in India (FHNO). I thank them for their support and active participation.

It has been an exciting run up so far and already more than 20 International and 25 National faculty of global repute have agreed to be an integral part of the scientific deliberations. A comprehensive scientific program is being drawn up to holistically cover all aspects of skull base surgery. Any surgical learning is incomplete without a practical application and this will be

addressed by an excellent cadaver workshop at the MS Ramaiah Advanced learning center, Bangalore. It is probably one of the best cadaver dissection facilities in

**Prof. Suresh Nair**  
President - SBSI

the country and the all the requisite infrastructure is in place to provide high quality training in the nuances of Endoscopic and Microsurgical skull base surgery. A post conference workshop with focus on Craniofacial, Head & Neck tumors is also on the anvil. The various world leaders in skull base surgery will offer their wisdom to each of the participants with personalized interactions.

It is not going to be all work and no play. Bangalore is popular also for its culinary experience and the same will be served at the grand banquets with relaxing entertainment.

I have no doubt that this will be the scientific extravaganza of 2015 and each of you will take back glorious pearls of wisdom in skull base surgery along with fond memories and new friendships.

Prof. Suresh Nair

President

Skull Base Surgery Society Of India

# Message From Organizing Committee

*Om! Asato ma Sadgamaya  
Tamaso ma Jyotirgamaya  
Mrtyorma Amrtam gamaya  
OM! Shanti Shanti Shantih*

**Dr. Kiran. M**  
Organizing Secretary

chanted thousands of years ago seem to declare the purpose of the meeting very aptly.

The skull base surgery has transformed over last few years from a moribund procedure to a safe one. The gap between know how and the reach seems to be ably bridged by these conferences. One need not wait for text books or journals to learn about new techniques and progress. Increased connectivity has made it easier to share knowledge and learn new often directly through workshops and courses. This conference also provide a platform to share "Eureka " moments. It also provides forum to discuss pertinent questions and seek answers.

We are having hands-on cadaveric course along with neurosurgery department of MS Ramaiah medical college at their advanced learning center on 8th and 9 th October

*May the Divine ,  
Lead us from the ephemeral to the Eternal Truth  
Lead us from darkness to light.  
Lead us from death to immortality.  
Peace, peace peace be unto all  
-Brihadaranyaka Upanishads (verse 1.3.28)*

2015. We are arranging hands on course of both endoscopic and microsurgical skull base and craniofacial approaches which are very relevant today. This we are sure will help the participants and set the ball rolling for conference. We have kept the conference informal and open so that participants are benefitted.

We are grateful to all the faculty both national and international who have been very supportive through out. The Skull base society and its President Prof Suersh Nair have been our constant support and guide. In India , "Teacher is God". The conference will provide great opportunity to meet with great teachers and masters. Many participants have already registered and have been actively interacting with us thorough mail we wish to thank them.

Bangalore being a garden city and a city of knowledge, is also called Silicon Valley of India. It is a very peaceful city. The city will be at its splendorous best in October. We again welcome you all to skullBasecon 2015 and pray for enjoyable stay here.

With Regards  
Organizing Committee

Dr. Kiran. M  
Organizing Secretary  
Email: kiranmam2000@gmail.com

# PRE CONFERENCE WORKSHOP

## 8th, 9th and 12th October 2015,

### MS Ramaiah Advance Learning Centre

Participants are allowed to register for only one hands - on course, but can participate as observer in the other modules. To enrich the hands - on experience, participant slots are restricted. We request you all to register at the earliest to avoid disappointment.

We are happy to inform you that following renowned faculty will be the chief coordinators for the skull base cadaveric workshops:

**Carl H. Snyderman**, MD, MBA, Professor of Otolaryngology and Neurological Surgery at the University of Pittsburgh School of Medicine and Co-Director of the Center for Cranial Base Surgery at the University of Pittsburgh Medical Center (UPMC).

**Paul A. Gardner**, MD, Associate Professor, Department of Neurological Surgery, University of Pittsburgh School of Medicine, and Co-Director, Center for Cranial Base Surgery, University of Pittsburgh Medical Center.

**Dileep Panikar**, MCH, Senior Consultant Neurosurgeon, Neurosciences Center of Excellence, Aster Medcity, Kochi, India

#### Module 1

##### Endoscopic skull base workshop

- General principles of nasal endoscopy
- Nasoseptal flap
- Sphenoidotomy and sellar access
- Pituitary exposure and reconstruction of skull base
- Extended endoscopic skull base access
- Trans tubercular and trans clival approaches
- Introduction to coronal modules

#### Module 2:

##### Skull base microneurosurgery workshop:

- Basic nuances and drilling techniques in

neurosurgery

- Anterolateral approaches to the skull base
- Clinoidectomy and approaches to orbital apex
- Approaches to the cavernous sinuses- extradural temporopolar approach
- Petrous apicectomy
- Far lateral and trans condylar approaches to anterolateral brain stem
- Temporal dissection (demo)

#### Module 3 (12th Oct 2015 only)

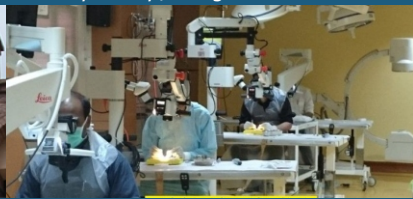

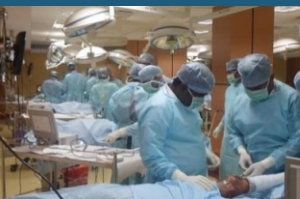

##### Approaches to head and neck tumors involving skull base

- Lateral rhinotomy and medial maxillectomy and standard facial translocation
- Anterior craniofacial resection and subcranial approach
- Trans mandibular approaches to skull base
- Temporal bone resection /approaches to orbital tumors
- Reconstruction of skull base
- Practical tips and videos

#### For observers:

##### Lectures, videos and discussions:

- Management of suprasellar tumors, aneurysms, meningiomas
- Technical pearls and complication avoidance
- Pituitary tumors and CSF rhinorrhea management
- Management of complications during transsphenoidal surgery
- Endoscopic management of CSF rhinorrhea
- Operative videos by faculty / delegates

# MAIN CONFERENCE SCIENTIFIC PROGRAM OVERVIEW

10th and 11th October 2015, NIMHANS Convention Center

## Orations

**1.Presidential Oration- Prof Suresh Nair,**  
Dean and HOD Neurosurgery , SCTIMST,  
Trivandrum

**2.SBSSI Oration - Prof Clarence Sasaki,**  
Charles W. Ohse Professor of Surgery and the  
Chief of Otolaryngology – Head and Neck Surgery  
at the Yale School of Medicine

**3.Key Note Address- Mr. Subrato Bagchi,** Co  
Founder, Mindtree, Business Author and  
Inspirational Speaker

## Plenary Sessions

### 1.CP angle

- a. Facial nerve and hearing preservation in large vestibular schwannoma\*
- b. How to select an appropriate approach for cerebellopontine angle tumors'
- c.Management of large vestibular Schwannoma
- d. Facial reanimation after facial palsy

### 2.Endo skull base

- a. Suprasellar meningiomas - the role of endoscopic endonasal surgery
- b. Outcomes of endoscopic endonasal surgery for sinonasal malignancy

c. Excision of a cavernous sinus hemangioma via endoscopic transnasal approach

d. TSS for craniopharyngioma - its tips and avoidance of complications.

### 3.Vascular considerations in skull base

- a. Vascular considerations in skull base surgery
- b. Application of skull base techniques for vascular lesions

### 4.Outcomes and improvement

- a.Petroclival meningiomas: metaanalysis of outcomes
- b. Outcomes of endoscopic endonasal surgery for sinonasal malignancy
- c. Brain stem auditory evoked potential alarm criteria: weather report
- d. Endoscopic endonasal surgery for clival chordoma- outcomes in 90 patients
- e. We are all prisoners of our own experience
- f. A new scoring system for clinical evaluation of petroclival meningioma

### 5.Reconstruction and rehabilitation

- a. Reconstruction after large cranio-facial defect
- b. Concepts of head and neck reconstruction using micro-vascular anastomosed flaps
- c. Free flaps for anterior and lateral skull base reconstruction (including orbit)
- d. Regional flaps for anterior and lateral skull base reconstruction

## 6. Advances and innovation

- a. Role of trans-oral surgery in the treatment of oropharyngeal cancer (including robotic surgery)
- b. Reduction of complex severe basilar invagination and atlanto axial dislocation from a posterior only approach- DCER and it's modifications
- c. Development of a new high-resolution intraoperative imaging system to simultaneously visualize light and near-infrared fluorescence images of ICG angiography.
- d. 3D endoscopic visualization in functional endoscopic sinus surgery

## 7. Complex skull base

- a. Surgical strategy for jugular foramen tumors
- b. Surgery for complex sphenoid ridge meningioma
- c. Surgery of craniopharyngioma
- d. Surgery of the brain stem

e. Clinoidal meningiomas

f. Surgery of parasellar tumor

### And many more topics....

\*program topics are tentative only and may be changed

### Interactive sessions

- 1. How I did it sessions
- 2. Short papers 8 minutes
- 3. Oops ! I did it - complications avoidance and management.

### Other attractions

**1. Award paper- skull base society**

**2. Award paper – FHNO**

**3. Best poster**

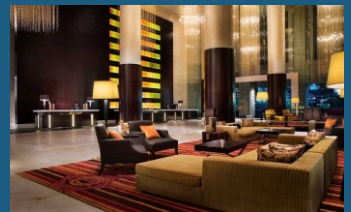

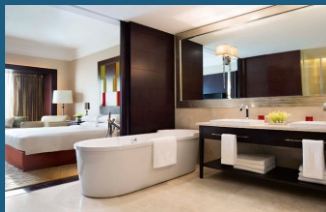

**4. Award for institution with maximum participation**

## Official accommodation venue

J W Marriott has been chosen as the official accommodation partner for the conference. We have negotiated attractive discounted rates for delegates which are way below the best available rates for the hotel. The hotel is located in U B City in the central business district overlooking the

sprawling Cubbon Park. It's within walkable distance from all major shopping and nightlife

attractions of the city like MG Road, Brigade Road, UB City, Vittal Mallya Road etc.

## Entertainment

The entertainment programs during the welcome dinner as well as main banquet will be mesmerising, fun and rejuvenating. We will share more details about the same soon.

# SIGHT SEEING

## Bangalore City - 1 day or half day

With it's pristine greenery and beautiful parks and gardens, Bangalore is called the Garden City of India. The city is also the scientific and technology capital of India and home to many globally respected companies and scientific institutions. It's also the healthcare hub of India. With a vibrant night life, culinary hot spots and a plethora of shopping destinations, Bangalore is a cosmopolitan city. Below are some of the prominent places to visit in Bangalore:

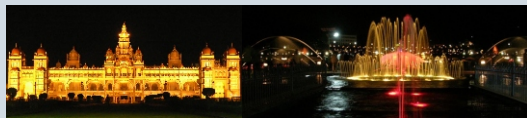

**Shopping:** MG Road, Brigade Road, Commercial Street and many of the malls like UB City, Forum Mall

## 1 day trips outside Bangalore

### Option 1 - Mysore

**Places to visit:** Srirangapattana, Ranganathittu Birds Sanctuary, Brindavan Gardens, Mysore Palace, St. Philomena's Church, Chamundi Hills

### Option 2

Belur, Halebedu and Sravana Belagola

## 1 night / 2 days trips outside Bangalore

Option 1 - Bandipur National Park

Option 2 - Coorg / Nagarahole

Option 3 - Kabini

Option 4 - Ooty and Madhumalai (Tamilnadu)

Option 5 - Wayanad (Kerala)

Option 6 - Chikkamagalur

Skull Base con 2015.

FOR ONLINE TRANSFER:

Ac No 3021101113334;

IFSC / NEFT Code: CNRB0003021

Bank: Canara Bank

Branch: Narayana Hrudayalaya

#### CONFERENCE RESPONSE CENTRE

Please courier the Cheque / DD along with  
duly filled registration form to

**Avyaya Medicon**

**Skull Base Con 2015 Response Cell**

**260, 1st Floor, 44th Cross,**

**Jayanagar 5th Block, Bangalore 560041**

**Phone: +91-80-6535-5535 / 9742482313**

#### Terms and conditions:

- Reg fee includes scientific sessions, lunches, banquet dinners, entry to entertainment programs, workshop entry (if chosen) and conference kit.
- Accommodation package includes 2 / 3 nights stay at JW Marriot on twin sharing / single occupancy basis and breakfast. Any extras to be paid directly to the hotel at the time of check out.
- Delegates opting for accommodation package, need to add the respective category of conference registration fee. **For eg. if you are a SBSSI member, registering in May 2015 for conference as well as 3 nights accommodation on a twin sharing basis, the total amount payable by you would be INR 23,000 (INR 5000 for conference reg fee, and INR 18000 towards accommodation for 3 nights on twin sharing basis)**
- Delegates opting for accommodation package to carry their address and ID proof.
- 3 nights package - Check in: 8th Oct 3.00Pm; Check out: 11th Oct 12.00 noon.
- 2 nights package - Check in: 9th Oct 3.00Pm; Check out: 11th Oct 12.00 noon.
- Cancellation rules: Before 31st May - 50% refund. 31st May to 31st Aug - 25% refund. Post 31st Aug, nil refund.

#### Workshop Terms and Conditions:

- Registration for Conference is mandatory for pre conference dissection courses. Participants are requested to register to only one of the either endoscopic or microsurgery workshop. Please keep both 8th and 9th free as some sessions are likely to be spread over both the days.
- The theme of this year's conference being team work. We encourage participants to come as team especially ENT/Neurosurgeon/ Head and Neck surgeon. This is highly desirable for endoscopic course. After registering individually, participant teams can mail to organizing secretary detailing their team members, we will try to accommodate them in a single station.
- Though we are allotting maximum of four participants per cadaver, (two per side) this ratio may change depending on availability of cadaver at that time.
- Pre course reading and references will be sent to participants at appropriate time. It should be read before attending course to get maximum benefit out of it.
- Participants can take observer ship course By paying Rs2000. They will get preference in case a seat falls vacant later.
- Other details will be intimated to Participants individually

☐ I agree to the terms and conditions mentioned above and in the website.
