

2nd Stanmore Bone and Soft Tissue Tumours Imaging Interpretation & Reporting Course

An intensive and interactive case-based course featuring short lectures,
plus supervised interpretation & reporting practice

organised by **Infomed Research & Training**,
in partnership with The **Royal National Orthopaedic Hospital NHS Trust**,
on **Tuesday 30 and Wednesday 31 January 2018**,
at The Royal College of Radiologists,
63 Lincoln's Inn Fields, London WC2A 3JW

Over 100
cases to interpret
and report

✓ This course provides
12 CPD credits
in accordance with
the CPD Scheme of
the Royal College
of Radiologists

Target Audience

The course is pitched at a level
suitable for consultants and senior STs in radiology,
who are increasingly involved in interpreting and reporting
imaging of bone tumours and soft tissue tumours.

About this unique Course

- ✓ **Numbers strictly limited, two attendees per iMac workstation for peer interaction and learning**
- ✓ Intensive supervised interpretation and reporting practice, with cases including (1) benign bone tumours, (2) malignant bone tumours, (3) bone tumour mimics, (4) spinal tumours, (5) benign soft tissue tumours, (6) malignant soft tissue tumours, and (7) soft tissue tumour mimics
- ✓ **Introductory lectures, offering guidance, practical knowledge, what not to miss**
- ✓ Case review and discussion panel, Q&A, reporting guidance, tips and how to avoid common errors
 - ✓ **What is relevant and significant, with take home messages that will change your reporting practice**

Course Aim

To provide the general Consultant Radiologist
with a practical, stimulating and comprehensive update
on interpretation and reporting practice
in the imaging of bone and soft tissue tumours:
(i) **practical** (workstation based learning);
(ii) **stimulating** (interactive,
challenging cases, immediate feedback); and
(iii) **comprehensive** (malignant, benign and tumour mimics).

By the end of the course, the attendee will have,
in relation to bone and soft tissue tumours:
(1) a comprehensive understanding
of best imaging interpretation and reporting practice;
(2) improved interpretation and reporting skills;
(3) greater confidence in her/his advanced practice; and
(4) identified skills and knowledge gaps, if any, relevant to her/his
practice, and clear ways by which these can be addressed.
