

Maximizing the Use of a CO₂ Laser in Your General Dental Practice

2-Day Hands-On Course - 12 CEUs

WHERE: Hilton Brentwood/Nashville Suites
9000 Overlook Blvd, Brentwood, TN 37027

WHEN: November 8-9, 2024 (Friday & Saturday)
Friday: 8 AM - 4:30 PM & Saturday: 8 AM - Noon

Introduction

This innovative continuing education course, led by Dr. White, is the first of its kind to delve into the vast applications of soft tissue lasers in dentistry. Dr. White, who has successfully maximized the return on investment of her laser equipment, shares her firsthand experience and expertise, bridging a crucial gap in dental education. This course is a gateway to a new era of laser-assisted procedures in dentistry, making it a must-attend for dentists, whether they are new or experienced laser users.

Clinical Curriculum

Soft Tissue Surgery Made Easy:

- Laser applications for excisional and incisional biopsies.
- Laser gingival recontouring and smile design.
- Laser-assisted frenectomy, gingivectomy, vestibuloplasty, and more.
- Techniques for precise and controlled soft tissue surgeries using lasers.
- Post-operative management and healing considerations.

Incorporating Lasers into Daily Practice:

- Developing a comprehensive laser protocol for routine dental procedures.
- Implementing efficient workflows and patient education strategies.
- Insurance, billing, and getting paid.

Hands-On Participation Session 2 HOURS

- Laser Safety
- Laser Surgical Technique Simulations
- Superficial Ablation
- Superficial Coagulation
- Shallow Incisions
- Deep Incisions
- Practicing Surgical Techniques on a Pig Jaw

Course Certificates

Course participants, who successfully complete the examination, will be awarded a **LASER SAFETY basic knowledge CERTIFICATE** from the Board of Laser Safety of the Laser Institute of America (DISCOUNTED cost for the ALSC members), as well as a Laser Dentistry and Laser Surgery Basic Knowledge and Hands-On participation Wetlab **CERTIFICATE** from the American Laser Study Club (**FREE** for the course participants).

About the American Laser Study Club (ALSC)

The ALSC was founded to promote science-based laser dentistry, surgery, and safety education. The ALSC is proud of its curriculum and its distinguished membership, including our honorary members **Gordon J. Christensen**, DDS, MSD, PhD and **Rella P. Christensen**, RDH, PhD, world-renowned leaders in dental product research and education, who welcomed the ALSC's mission: "Peter, we congratulate you on starting a laser study club. It is greatly needed, and you are the man to do it."

GLOH Education is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between GLOH Education and the ALSC. GLOH Education designates this activity for 12 continuing education credits.

Meet the Faculty

Jennifer A. White DDS

All because she broke her front teeth... It's true. In fourth grade, Dr. Jennifer White went over the handle bars of her bike and broke her two front teeth. After seeing the life changing accident and recovery process, she knew she wanted to be a dentist when she grew up and never looked back. Dr. Jennifer White graduated from Indiana University in 2006 and has had an unwavering passion for the field ever since. Brite White Dental was established in December of 2013 and has evolved from a general dentistry office to an office that focuses on sleep, airway, CO₂ laser procedures.
