

A journey through brachytherapy

May 16th to 18th 2024

ANNUAL CONFERENCE

in honour of Dr Jean Roy

CURIETHERAPIES

It gives us great pleasure to invite you to the 12th congress of Curietherapies. The program includes exciting topics and latest advances in brachytherapy. We hope this congress will provide you with many opportunities to discuss and network with experts and colleagues from across the field and the world.

Objectives

- Comprehend the precise nature of brachytherapy in treating a wide range of tumor
- Recognize the place of AI in brachytherapy workflow
- Analyze the best imaging modality for GYN brachytherapy
- Discuss the results of HDR brachytherapy monotherapy for prostate cancer
