WELCOME MESSAGE

Dear Friends,

We are delighted to host the 21st annual conference of the Indian Society Of Neuroanaesthesiology and Critical Care (ISNACC) to be held for the first time in Chennai , the “India’s Health Capital “ which has the glory of producing some of the eminent Neuroscientists to the world.

In the recent past we have been left with lot of negative or Neutral results in the evidence based practice of Neurocritical care and Neuroanaesthesiology. Precision Medicine does not follow a “one-size-fits-all” treatment approach but emphasises a “tailor-made “ paradigm customised to each individual person’s case. The conference will focus on possibilities and challenges in the cross field of technological development , clinical sciences and evidence required to achieve the best possible outcomes in Neuroanaesthesiology and Neurocritical Care.

Practicing delegate attending a conference would want answers to the questions in their mind . Any ambiguous phrase that does not provide a clear explanation, like “ It is Reasonable “ , “ to be considered “ , “needs further research “ does not thrill them but adds to boredom and uncertainty. Best practices shared will uplift individuals practice and improve patient care . For a researcher it provides ample questions to take home and device a methodology to find an answer through evidence .

With our eminent faculty from India and overseas our scientific committee will carefully structure the topics which will suit the growing demand in the practice of Neuroanaesthesiology and Neurocritical Care.

Chennai , the biggest cultural, economic and education center in the southern side of India has the best Weather prevailing during these days and we will be delighted to provide you with a warm hospitality in the Coromandel Coast off the Bay Of Bengal.

Welcoming you all to Chennai for the ISNACC2020
