About the Course

4-hour virtual training focusing on specifics of treating patients with opioid use disorders in office-based settings and clinical vignettes to help trainees think through “real life” experiences in opioid use disorders treatment.

Faculty

Ryan M. Caldeiro, MD
Medical Director, Addiction, Integration & Consultation
Addiction Psychiatry, Behavioral Health Support Services
Washington Permanente Medical Group

Learning Objectives

At the end of this educational activity, participants will be able to:

- Identify and assess patients who are appropriate for treatment with OUD medications.
- Outline the use of medications to manage patients with additional involving opioid use.
- Discuss the psychiatric and medical comorbidities associated with opioid addiction.

About the DEA License one-time 8-hour education requirement

Content of this course meets the eligibility for the DEA license training requirement.

The 8 hours do not have to be completed in one session and can be satisfied through a combination of activities that equal eight hours of training. This activity provides 4 hours of education.
