

ASIA PACIFIC STROKE CONFERENCE

combined with Stroke Society of Australasia
Brisbane, Qld, Australia • 14-17 July 2016

*Extending Access
to Stroke Treatment*

Pre-Conference Workshops Thursday, 14 July, 2016

08:30 - 09:00 Workshop registration					
09:00 - 12:30	Stroke Advocacy	Rehabilitation	Acute Stroke - Part 1: detailed imaging Medtronic Further Together	Stroke Prevention	Neurosonology
12:30 - 13:30 Lunch					
13:30 - 17:00	Vas-Cog Asia	Rehabilitation	Acute Stroke - Part 2: treatment Medtronic Further Together	Acute Clinical Assessment	Neurosonology
16:30	Conference registration Plaza Auditorium Foyer, Brisbane Convention & Exhibition Centre				
17:30 - 19:30	Welcome reception Plaza Auditorium Foyer, Brisbane Convention & Exhibition Centre				

Please refer to the Pre-Conference Workshops for full program and timing details

Day 1 Friday, 15 July, 2016

07:00 - 17:10Registration			
08:00 - 10:10Opening Ceremony and Plenary Session			
08:00 - 08:30Conference Open			
08:30 - 09:10	The role of collateral imaging for acute revascularization therapy. Do we need it? David Liebeskind (United States of America)		
09:10 - 09:50	There is no role for collateral imaging for acute revasculiazation therapy. Just open the artery! Albert Yoo (United States of America)		
09:50 - 10:10	Expert Panel crossfire Max Wintermark (USA), David Liebeskind (USA), Albert Yoo (USA), Terry Hirano (Japan)		
10:10 - 10:30Morning tea with poster viewing			
10:30 - 12:00	Concurrent Session:	Concurrent Session: Tele-	Concurrent Session:
10:30 - 10:40	10:30 - 10:45	Telerehabilitation models of care for rehabilitation of communication disorders post-stroke Annie Hill (Australia)	Immunology mediated cell death post stroke Pam McCombe (Australia)
10:40 - 10:50	ENCHANTED Trial Craig Anderson (Australia)		
10:50 - 11:00	Extending the thrombolytic time window and wake up stroke Henry Ma (Australia)	A new smartphone application for decision-making support in stroke cases Hiroyuki Takao (Japan)	Regeneration strategies post ischaemic stroke Andrew Clarkson (New Zealand)
11:00 - 11:10			
11:10 - 11:20	Thrombolysis and advanced neuroimaging Bruce Campbell (Australia)	Drip and ship using Telestroke Chris Bladin (Australia)	Stem Cell Therapy
11:20 - 11:30			
11:30 - 11:40	Acute stroke therapy in Asia Masatoshi Koga (Japan)	Further development of the CommFit™ app: People with aphasia’s experiences using a neck-attached accelerometer Caitlin Brandenburg (Australia)	Autologous olfactory stem cells implantation in stroke patients: a phase i study Kuang His Chang (Taiwan)
11:40 - 11:50			Paracrine mechanisms of stem cell transplantation in Stroke using serum H-NMR spectroscopy Julie Bernhardt (Australia)
11:50 - 12:00	Panel discussion	Panel discussion	Study of Gastrodia on Improving neurological function in MCAO rats Ming Hua Wu (China)
12:00 - 13:30Lunch with poster viewing			
13:30 - 15:30	Concurrent Session: Acute Stroke Therapy - Endovascular	Concurrent Session: Clinical Rehabilitation	Concurrent Session: Acute TIA or Secondary Prevention

13:30 - 13:40		Timing of initial mobilisation after acute stroke – relation to 180 day outcomes. - Clinical Rehab Rohan Grimley (Australia)	
13:40 - 13:50	First state-wide thrombectomy service: first six months' experience Peter Mitchell (Australia)	Smart arm training in subacute stroke survivors with severe arm disability: a randomised controlled trial Sandra Brauer (Australia)	13:30 - 13:55 Acute TIA – time for a new definition of Acute Cerebrovascular Syndrome Shinichiro Uchiyama (Japan)
13:50 - 14:00		A Very Early Rehabilitation Trial (AVERT): Outcome at 12 months Julie Bernhardt (Australia)	
14:00 - 14:10		The changing trend of short-term bp variability in patients with acute ischemic stroke and early neurologic outcome Jihoon Kang (Republic Of Korea)	13:55 - 14:20 TIA electronic decision support tools in primary care Anna Ranta (New Zealand)
14:10 - 14:20	What treatment is futility in thrombectomy? Where to draw the line in the sand? Max Wintermark (United States of America)	Inequities in access to rehabilitation after stroke: an international scoping review Elizabeth Lynch (Australia)	
14:20 - 14:30		The changing opinions of Australasian health professionals regarding early mobilisation after stroke Elizabeth Lynch (Australia)	14:20 - 14:45 Emergency management pathways for Amaurosis fugax Celia Chen (Australia)
14:30 - 14:40		The impact of early mobilisation on cognition: MoCA outcomes from AVERT Toby Cumming (Australia)	
14:40 - 14:50	New advances in thrombectomy Albert Yoo (United States of America)	Circuit class therapy reduces length of rehabilitation stay, but weekend therapy does not. An exploratory secondary analysis of the CIRCIT trial Coralie English (Australia)	
14:50 - 15:00		Analysis of the barthel index using quantile regression in the chinese medicine neuroaid efficacy on stroke recovery (chimes) study Narayanaswamy Venketasubramanian (Singapore)	14:45 - 15:10 Imaging in acute TIAs - arterial spin labelling and beyond Andrew Bivard (Australia)
15:00 - 15:10		Lessons learnt from evaluating interventions for improving rehabilitation assessment practices for patients with stroke in Australia Elizabeth lynch (Australia)	
15:10 - 15:20	Training of the next generation of neurointerventionists Bernard Yan (Australia)	Embedding an enriched environment in an acute stroke unit increases activity in people with stroke: results of a pilot study Ingrid Rosbergen (Australia)	
15:20 - 15:30		Systematic review of novel activity promoting strategies to incorporate into a model of Environmental Enrichment for use during inpatient stroke rehabilitation Heidi Janssen (Australia)	15:10 - 15:30 Panel Discussion
15:30 - 16:00	Afternoon tea with poster viewing		
16:00 - 17:30	Plenary Session		
16:00 - 16:40	Dale Corbett (Canada)		
16:40 - 17:40	Concurrent	Concurrent Session: Free	Concurrent Session:
16:40 - 16:50	Elevated fibrinogen in diabetes mellitus is associated with early neurological deterioration in patients with acute ischemic stroke Seong-Joon Lee (Republic Of Korea)	Do ct perfusion imaging profiles impact response to endovascular reperfusion? A pooled analysis of randomized trials of endovascular stent thrombectomy Bruce Campbell (Australia)	Anterior versus posterior stroke: No difference in cognitive impairment Nazuk Yusup (Australia)
16:50 - 17:00	Relationship between modified rankin scale and other stroke- related measures in the chimes study Narayanaswamy Venketasubramanian	Clinical utility of whole-brain 4D-CTA using 320-detector row CT in the evaluation of spontaneous lobar intracerebral hemorrhage Hiroyuki Tajiri (Japan)	The screening for post stroke dementia among stroke survivors residing at home in the community: Findings from the iCaPPS trial in Peninsular Malaysia Aznida Firzah Abdul Aziz (Australia)

17:00 - 17:10	Sex differences in long-term mortality and disability of stroke: The International STroke Outcomes Study (INSTRUCT) Hoang Phan (Australia)	Whole Brain CT Perfusion in Suspected Transient Ischemic Attack and Minor Stroke Venkatesh Krishnamurthy (Australia)	Cognition is associated with brain volumes early after ischaemic stroke Emilio Werden (Australia)
17:10 - 17:20	Long term outcomes of first-ever stroke in HoChiMinh City, Vietnam Tran Pham (Australia)	Longitudinal network-wide cortical thickness changes after ischaemic stroke Evan Curwood (Australia)	Quality of life of stroke survivors and their informal caregivers: a prospective study Enkhzaya Chuluunbaatar (Mongolia)
17:20 - 17:30	Questions		
17:30 - 17:40	Closing		

Day 2
Saturday, 16 July, 2016

07:00 - 20:00	Registration		
08:00 - 10:30	Plenary Session		
08:00 - 08:40	Post stroke depression and emotional issues: treatment strategies Jong Sung Kim (Republic of Korea)		
08:40 - 09:10	Implementation of hyperacute stroke units Diane Ames (United Kingdom)		
09:10 - 10:30	How hyperacute stroke units can be implemented in Australasia and Asia-Pacific Thang Nguyen (Vietnam), Yohanna Kusuma (Indonesia), Liu Liping (China) Peter Mitchell (Australia), Jim Jannes (Australia), Andrew Wong (Australia), Terry Hirano (Japan), Jeyrayaj D. Pandian (India), Jong Sung Kim (Republic of Korea)		
10:30 - 11:00	Morning tea with poster viewing		
11:00 - 12:30	Concurrent Stream: Australasian Stroke Trials Network	Concurrent Stream: World Stroke Organisation (WSO)	Concurrent Stream: Stroke in the Asia Pacific Region
11:00 - 11:10	ATTUNE Andrew Lee (Australia)	Global burden of stroke Valery Feigin (New Zealand)	11:00 - 11:15 Stroke secondary to infection Man Mohan Mehndiratta (India)
11:10 - 11:20	Stroke Watch AF Hans Tu		
11:20 - 11:30	COMPARE Miranda Rose (Australia)	WSO strategies to reduce global and regional burden of stroke Stephen Davis (Australia)	11:15 - 11:30 Basilar occlusive disease in Asia Jong Sung Kim (Republic of Korea)
11:30 - 11:40	T3 Sandy Middleton (Australia)		
11:40 - 11:50	TASTE Chris Levi (Australia)	SOCRATES intracranial substudy results Lawrence Wong (Hong Kong)	11:30 - 11:45 TIA approach in 2016 Suhail Adbulla Mohammad Alrukn (United Arab Emirates)
11:50 - 12:00	AFFINITY Graeme Hankey (Australia)		11:45 - 12:00 Prevalence of different types of stroke in Iran Deep white matter lesion cervical artery dissection Babak Zamani (Iran)
12:00 - 12:10	Presentation	IRIS results and how it will affect future stroke preventative management Geoff Donnan (Australia)	12:00 - 12:15 CVT registry in Asia Mohammad Wasay (Pakistan)
12:10 - 12:20	Presentation		
12:20 - 12:30	Presentation	Panel discussion	12:15 - 12:30 Panel Discussion
12:30 - 14:00	Lunch with poster viewing		
14:00 - 15:30	Concurrent Stream: New investigators (free papers)	Concurrent Stream: Acute Stroke Nurses Education Network (ASNEN) Workshon	Concurrent Stream: Secondary Stroke Prevention Sponsored by
14:00 - 14:10	BASP Warlow Prize winner Jeban Ganesalingham (United Kingdom)		
14:10 - 14:20	Ct perfusion as a predictor of diffusion- weighted- imaging lesions in transient ischemic attack and minor stroke Felix Ng (Australia)	Julia Slark (New Zealand)	Novel methods for detecting AF after stroke Ben Freedman (Australia)

14:20 - 14:30	You've got to ask yourself one question: Do I feel lucky? A mixed methods analysis of an open ended question in the Psychosocial Outcomes in Stroke (POISE) study Sarah Richtering (Australia)		
14:30 - 14:40	Contrast peak density in collateral vessels may be an important factor in tissue Hiroyuki Kawano (Australia)	Liz Mackey (Australia)	NOAC reversal agents Harshal Nandurkar (Australia)
14:40 - 14:50	Quantitative measurement of physical activity and sleep behaviour longitudinally after stroke Liam Johnson (Australia)		
14:50 - 15:00	Participation in Unpaid Work in the First Year after Stroke: The Psychosocial Outcomes in Stroke (POISE) Cohort Study Cheryl Carcel (Australia)		
15:00 - 15:10	Determining the Number of Ischemic Strokes Potentially Eligible for Endovascular Thrombectomy: A Population-Based Study Nicholas Chia (Australia)	ECR in rural and metro centers Chris Bladin (Australia)	How to handle NOAC in specific clinical situations Vincent Thijs (Australia)
15:10 - 15:20	Questions		
15:20 - 15:30			
15:30 - 16:00	Afternoon tea with poster viewing		
16:00 - 17:30	Plenary Session		
16:00 - 16:40	Liu Liping (China)		
16:40 - 17:30	Plenary Session 4 (continued)		Concurrent stream: Free papers
16:40 - 16:50	Debate 1: Is there a need for MRI assessment during inpatient stay for acute strokes? Chris Levi (Australia) , Albert Yoo (United States of America) , Debate 2: To better serve the rural community - more rural stroke physicians or teleneurology Atte Meretoja (Australia) , Ben Clissold (Australia) , Terry Hirano (Japan) , Chris Bladin (Australia)	Prehospital stroke scale to predict large vessel occlusion: face2-ad scale Yoshinori Okuno (Japan)	
16:50 - 17:00		Establishing administration practices of intravenous thrombolysis for patients with acute ischaemic stroke Louise Craig (Australia)	
17:00 - 17:10		Reversibility of tandem intracranial arterial stenosis after endarterectomy Eun-Jae Lee (Republic of Korea)	
17:10 - 17:20		Change in Strategies Significantly Improves Door to Needle Time in Acute Stroke Fast Track Service Rojana Pakdeewongse (Thailand)	
17:20 - 17:30		Accuracy of clinical risk scores in predicting post-rtPA intracerebral hemorrhage in a Thai cohort Arpakorn Suengtaworn (Thailand)	
19:00 - Late	Gala Dinner		

Day 3
Sunday, 17 July, 2016

08:00 - 13:30	Registration			
09:00 - 10:30	Plenary Session			
09:00 - 09:30	Terry Hirano (Japan)			
09:30 - 10:00	Presentation			
10:00 - 10:30	Conference Close CY Huang (Hong Kong)			
10:30 - 11:00	Morning tea with poster viewing			
11:00 - 12:30	Concurrent Stream: Stroke and Co-morbidities	Concurrent Stream: ICH (Intracerebral haemorrhage)	Concurrent Stream: Future of Stroke	Concurrent Stream: Free Papers

11:00 - 11:10	11:00 - 11:15 Seizure after Stroke Dr Yao-Chung Chuang (Taiwan)	Strategies to reduce ICH expansion Atte Meretoja (Australia)	Future of Collateral Imaging Professor David Liebeskind (United States of America)	Comparison of Aboriginal and non-Aboriginal stroke in central Australia: A retrospective cohort study Kendall Goldsmith (Australia)
11:10 - 11:20				Damage to the left precentral gyrus is associated with buccofacial apraxia Ryo Itabashi (Japan)
11:20 - 11:30	11:15 - 11:30 Sleep Apnoea and Stroke Huy Thang Nguyen (Vietnam)	Dan Hanley (United States of America)	Dafin Muresanu (Romania)	Topographical Distribution of Cerebral Infarction Associated with Transcatheter Aortic Valve Implantation (TAVI) Jonathon Fanning (Australia)
11:30 - 11:40	Two-year outcome of anticoagulant therapy for acute ischemic stroke with nonvalvular atrial fibrillation -samurai-nvaf study- Sohei Yoshimura (Japan)			Future of imaging selection for stroke therapy (STIR recommendations) Max Wintermark (USA)
11:40 - 11:50	Changes in post-stroke survival over time: new evidence form the Australian Stroke Clinical Registry Joosup Kim (Australia)		Stroke telemedicine in Australia: preliminary findings on building the case for financial sustainability Dominique Cadilhac (Australia)	
11:50 - 12:00	BMI and stroke mortality: Is there an obesity paradox among Asians? Po Jung Lu (Taiwan)	Determinants and prognostic significance of hematoma sedimentation level in acute intracerebral hemorrhage Shoichiro Sato (Japan)	Mobile CT Andrei Alexandrov (USA)	The experience of integrating remote acute stroke telemedicine consultations with local practice: a comparison of United Kingdom and Australian specialist providers Kathleen Bagot (Australia)
12:00 - 12:10	Googling map of service boundaries for Endovascular Clot Retrieval (ECR) hubs in metropolitan Melbourne Thanh Phan (Australia)	Determinants of hyperglycemic response in intracerebral hemorrhage: interact2 results Hoang Phan (Australia)		Lessons from implementing a regional acute stroke telemedicine service and how it promotes access to ECR capable hospitals Michelle Vu (Australia)
12:10 - 12:20	Effectiveness of acute stroke team in a regional primary health care hospital Brett Jones (Australia)	Prevalence and Characteristics of Cerebral Microbleeds in Atrial Fibrillation Patients on Oral Anticoagulants Yannie Soo (Hong Kong)	HAL Robot - Stroke Assistance Yoshiyuki Sankai (Japan)	Using a Tailored Health Information Technology Driven Intervention to Improve Health Literacy and Medication Adherence in a Pakistani Population with Vascular Disease Wardah Khalid (Pakistan)
12:20 - 12:30	Questions	The Natural History Of Peri-haematoma Oedema And Impact On Outcome After Intracerebral Haemorrhage - Data Derived From The Helsinki Intracerebral Haemorrhage Study Ruth Barker (Australia)		Questions
12:30 - 13:30	Lunch with poster viewing
